SOUTH BEND-MISHAWAKA CENTER
INDIANA UNIVERSITY
EXTENSION DIVISION

Fall Term Begins September 11, 1941 • Spring Term Begins February 2, 1942
INDIANA UNIVERSITY EXTENSION
CLASSES OFFER STUDY IN VARIOUS
FIELDS OF ENDEAVOR:

★ Accounting ★ Business
★ English Literature ★ Interior Decoration
★ Writing ★ Speech
★ History ★ Psychology
★ Government ★ Philosophy
★ Sciences ★ Social Problems
★ Modern Languages ★ Teachers' Courses
★ Mathematics ★ Graduate Courses
★ Engineering Drawing ★ Non-Credit Courses

★

BULLETIN OF THE EXTENSION DIVISION, INDIANA UNIVERSITY
Vol. XXVI AUGUST, 1941 No. 8

Entered as second-class mail matter October 15, 1915, at the post office at Bloomington, Indiana, under the act of August 24, 1912. Published eight times a year by Indiana University from the University Office, Bloomington, Indiana, in the months of September, November, December, January, February, June, July, and August.
To the Forward-looking:

How best to use our time is a question now facing our citizens in these days of national emergency. It is significant that leaders in government, in business, and in the professions and the occupations join in stressing the importance of continuing education as the best course. This is true for youth and adults alike.

Programs of defense training clearly emphasize that the youth who continue their studies are in a favored position. The post-war problems will be solved by those who have prepared through study.

The activities of national defense are increasingly calling for trained adults. In the competition that will follow the present era of our national life, the well-educated will possess an equally important advantage.

The present is a time for preparation. The forward-looking, who make that preparation now through education, will win the prizes of the future.

Indiana University, through its Extension Division, offers educational opportunities for both young people and adults who cannot leave their home communities for study on a college or university campus. These opportunities are offered with the belief that they will be accepted by those who look confidently to the future of America and of themselves.

Cordially yours,

N. B. Wells
President
Official Staff

Herman B Wells, A.M., LL.D., President.
Ward Gray Biddle, A.B., Comptroller, and Secretary of Board of Trustees.
Thomas Aubrey Cookson, Registrar.
Herman Thompson Briscoe, Ph.D., Dean of the Faculties.
Frank Reel Elliott, Ph.D., Director of Admissions.
Robert Emmet Cavanaugh, A.M., Director of the Extension Division (Indianapolis).
Walter Simon Bittner, A.M., Associate Director of the Extension Division (Bloomington).
Frank E. Allen, A.M., Superintendent of South Bend Schools.
Furley C. Emmons, A.M., Superintendent of Mishawaka Schools.
P. D. Pointer, A.M., Principal of Central High School, South Bend.
Lynton Keith Caldwell, A.M., Executive Secretary, South Bend-Mishawaka Extension Center.

Calendar, 1941-1942

Autumn Semester
September 1 to 27 ............... Registration.
September 11 .................. Classes begin.
September 15 .................. English exemption examination.
September 18 .................. College Aptitude examination.
November 19 to 24 ............ Thanksgiving recess.
December 21 to January 5 .... Christmas recess.
January 12 to 24 ............. Final examinations.

Spring Semester
January 26 to February 14 .... Registration period.
January 31 ..................... English exemption examination.
February 2 ..................... Classes begin.
May 18 to 29 .................. Final examinations.
Instructional Staff

Roy A. Broman, A.M., Extension Lecturer in Mathematics.
Donald Francis Carmony, Ph.D., Instructor in History in the Extension Division.
Cletus F. Chizek, M.B.A., C.P.A., Associate Professor of Accounting, University of Notre Dame; Extension Lecturer in Business.
Floyd Harrison Deen, Ph.D., Instructor in English in the Extension Division.
Merrill Thomas Eaton, Ed.D., Associate Professor of Education, and Assistant Director of the Bureau of Cooperative Research and Field Service.
(Mrs.) Edna Hatfield Edmondson, Ph.D., Field Worker in Public Welfare Service, and Assistant Professor of Sociology in the Extension Division.
(Mrs.) Gladys Dykes Frith, Ph.D., M.D., Extension Lecturer in Psychology.
Ernest Hugh Gerkin, Ph.D., Instructor in Chemistry and Physics in the Extension Division.
Edwyn H. Hames, Director of the Department of Music, Hillsdale College, and Conductor of the South Bend Symphony Orchestra; Extension Lecturer in Music.
Otto Templar Hamilton, LL.B., Ph.D., Assistant Professor of Education in the Extension Division.
Marcella M. Hartman, A.B., Extension Lecturer in French.
R. L. Hazlett, Personnel Director, Merchandise Sales Department, Commonwealth Edison Company, Chicago; Extension Lecturer in Business.
Mary E. Hipple, A.B., Extension Lecturer in Interior Decoration.
Sunder Joshi, Ph.D., Extension Lecturer in the History of Oriental Civilization.
Donald Keller, A.M., Extension Lecturer in Geography.
Edwin W. Kenworthy, A.M., Instructor in English in the Extension Division.
Theodore Russell Laramore, M.S., Assistant Professor of Business Administration in the Extension Division.
Velorus Martz, Ph.D., Professor of Education.
P. W. McDowell, A.M., Extension Lecturer in Spanish.
A. W. Peden, M.S., Teacher of Typewriting in the Extension Division.
Lionel Ruby, J.D., Ph.D., Instructor in Philosophy in the Extension Division.
Raymond R. Ryder, A.M., Associate Professor of Education, Purdue University; Extension Lecturer in Education.
Francis S. Sanford, M.S. in Ed., Assistant in Chemistry.
(Mrs.) Bess Sondel, Ph.D., Extension Lecturer in English.
(Mrs.) Leota Thomas, A.M., Extension Lecturer in Education.
James F. Thornburg, J.D., Extension Lecturer in Business Law.
Wilson Thornton, B.S., Extension Lecturer in Mathematics.
Earl C. Webb, B.S., Extension Lecturer in Engineering Drawing for Purdue University.
John Wilmore, A.M., Extension Lecturer in Mathematics.
General Information

University Extension
This service brings to the general public opportunities for information and training ordinarily confined to the campus of a university. The South Bend-Mishawaka Center was established in 1933 to make college training available to young persons in the St. Joseph valley area and to provide new avenues to intellectual and cultural growth for advanced college students, and interested adults. Last year 880 different persons from 31 communities took advantage of these services.

The Office
The South Bend-Mishawaka Center office is in Room 207, South Bend Central High School, located on St. James Court, between Washington and Colfax Avenues. Office hours through the school year are 8:30 to 11:30 a.m. and 12:30 to 8:30 p.m. The office closes on Friday afternoons at 5 p.m. Hours on Saturdays are from 8 a.m. to 12 noon. Telephone, 3-1717.

Instructors
Regular members of the Faculty of Indiana University and specially qualified business and professional men and women who have been formally approved as Extension Lecturers by the University teach the classes.

Admission
Classes are open to any adult who can pursue the work with profit. University credit, however, is granted only to those who comply with University entrance conditions. The Division is always ready to certify any work successfully completed.

Credentials
The student carrying University extension work for credit assumes responsibility for having met the entrance requirements of Indiana University. It is not necessary to present high school credentials at the time of enrollment unless the student is carrying seven hours or more. In that case he should present credentials at the office, whereupon he will be given a ruling on his admission by the Director of Admissions of the University. Candidates for advanced degrees who enroll for graduate work in extension should immediately apply for admission to the Graduate School or the School of Education. A statement of graduation and a transcript of college credits must be filed with the application for admission.

Entrance Requirements
See University Catalog.

Registration
Students should register during the official enrollment period at the Extension Office, where they may fill out proper blanks, pay fees, and receive cards admitting them to classes. Registration is not complete until the initial fee payment is made. No student whose registration is incomplete may be admitted to class later than the second week of the semester except upon written permission from the Extension Office. Class attendance without formal registration at the office does not constitute enrollment.
Attendance at Other Colleges
No student carrying full-time work at any other college is permitted to enroll in an extension class without written approval of his Dean.

Textbooks
Sold at the Extension Division Office. Students should purchase them immediately after the first meeting of a class. To avoid delay in securing texts after the original supply is exhausted, students should leave individual orders.

A Reference Library
Books owned by the Extension Division and on deposit at the Extension Office are available to students.

Enrollment
The autumn semester commences September 1, 1941, with enrollment at the Extension Office. Consultation on programs of study is offered by Faculty representatives at all reasonable times. The official enrollment period ends on September 27. After this date students may register for work only with the consent of the instructor and upon payment of a $1 late enrollment fee. Spring enrollment begins on January 26, 1942.

Classes
Meetings are in the South Bend Central Senior High School unless otherwise announced. See Schedule of Classes. Regulations governing use of the building and grounds of Central High School are determined by the School City of South Bend. Students attending extension classes in this or in any other city school building are requested to observe such regulations carefully.

Program of Study
No student should register for more than fifteen hours a semester without special permission. Persons employed full time are not encouraged to take more than two courses during a semester. Students working for teachers' licenses and employed in any full-time position may not register for more than five semester hours of work in any one semester without special permission.

Fees
Payment of fees in full is due at the time of enrollment. A full program of fifteen hours such as would be taken on the campus costs $75 a semester, or $150 for the year. Fees are based on the amount of work taken, each subject costing $5 a credit hour. The fee for graduate courses is $6 a semester hour.
Auditors or non-credit students pay the regular fees unless special rates are announced.

Deferred Fees
Upon special permission, students may pay fees on an installment basis. Students are required to adhere rigidly to the schedule for payments under this plan. An additional fee of $1 is required where payments are deferred. A late fee of $1 may be assessed when a student fails to make deferred payments on time.
Additional Fees
A Late Enrollment Fee of $1 is required of all students registering after the second week of a semester.
An Examination Fee of $1 is required of all students who take major examinations (mid-semester or final) at other than the regular times. Laboratory and Breakage Fees may be assessed in certain courses involving use of unusually expensive or fragile equipment.

Refunds
Limited refunds in proportion to the elapsed fraction of the first ten weeks of the semester, dating from the receipt of written applications, are allowed. No refunds are paid after the tenth week. If students withdraw from classes, they are required to pay all fees due at the time of written notification of withdrawal. A registration fee of $1 may be retained by the Extension Office.

Class Attendance
Credit may not be given to any student who has not attended three-fourths of the class meetings unless arrangements can be made with the instructor for making up the work of the lost meetings. Repeated unexcused failure to attend classes will result in a report of unsatisfactory work.

Visiting Classes
Students, if uncertain about enrollment, may visit classes the first meeting. After the first week visitors must secure permission from the Extension Office. Popular lecture courses must be paid for in advance unless announcement is made otherwise.

Change of Registration
Classes may be withdrawn if registration is deemed insufficient to warrant offering them. In such event fees in full will be refunded. The office must immediately be notified of any change of class or section by the student.
Students desiring to withdraw from a course must notify the Extension Office in writing and must have paid in full all fees required up to the date of notification, regardless of class attendance. Notice to the class instructor does not constitute official withdrawal and a mark of failure (WF) will be reported for any withdrawal not officially authorized.

Semester Reports
University credit is given to each student upon the satisfactory completion of a course provided the student has met all prerequisites, including the entrance requirements of the University. Grade cards are sent to students from the Extension Division Office at Bloomington at the end of each semester. Grade reports are not released from the South Bend Office.

Semester Grades
The quality of a student's work will be indicated by the following grades: A, B, C, D, E (conditioned), and F (failed). These letters stand approximately for per cents as follows: A, 95 to 100; B, 85 to
94; C, 75 to 84; D, 65 to 74. Plus and minus signs may be added to these letters and will be utilized in the computation of a student's final standing in the University.

The term "deferred" will be used in those courses in which a semester grade for the first semester of a year course is withheld until the completion of the second semester of the course. The term "incomplete" will be limited to satisfactory work which is not complete. Neither "deferred" nor "incomplete" will be used to signify work of inferior quality.

Conditions will be imposed only in the case of poor work. They will be changed to failures when not removed within twelve months. When conditions are removed, the work will receive a grade of D. Students who receive the mark of F (failed) must repeat the work in the course before receiving credit for it.

No grade once filed in the Registrar's Office may be changed except with the consent of the Dean upon the request of the instructor.

Residence Requirements
One-half the regular four-year university course, or sixty hours, may be completed in the Extension Division. Freshman and Sophomore work or all of the Two-Year Elective Course may be completed at an Extension Center.

Candidates for the degree Bachelor of Arts must do the thirty hours' work of the Senior year in residence on the Bloomington campus. Students of Senior standing who have established a satisfactory record through two years' work in residence may, upon written approval of the chairman of the department in which they are doing their major work and with the consent of the Dean of the College of Arts and Sciences, continue their work through the Extension Division.

Transfer of Credit
Extension students who expect to complete their college training at some university other than Indiana should ascertain the admission requirements of that school in order that full credit for work done at the Extension Center be received. Requests for transfer of credit should be addressed to the Indiana University Extension Division, Bloomington, Indiana.

For Purdue University Extension courses, see pages 19 and 29.

Correspondence Study Courses
Class work may be supplemented by correspondence courses offered by the Extension Division of Indiana University. Instruction is provided at both high school and college level.

Bulletins describing Correspondence Study courses may be secured from the office of the Center or from the Bureau of Correspondence Study, Indiana University Extension Division, Bloomington, Indiana.

Requirements for Graduation
For complete requirements for graduation, see University Catalog. For a summary of requirements, turn to pages 28 and 29.
Public Lecture Courses
Cultural and Regional Projects

Autumn

An extremely popular course at the Center is The Understanding and Appreciation of Music given by Edwyn Hames, conductor of South Bend Symphony Orchestra and distinguished concert violinist, who is shown here explaining harp technique. Previous musical experience is not necessary to derive benefit from Mr. Hames’s lectures.
South Bend-Mishawaka Center

- The Understanding and Appreciation of Music (Part I)
  (E17a, Appreciation of Music.) Beginning Friday, September 19, 5:15-6:15 p.m. Room 108, Central H.S. Non-credit fee $5, payable before the second meeting of the series. Fee for University credit is $10; credit class sessions, beginning at 4:15, precede the lectures.

Indiana University offers guidance toward the intelligent appreciation of music. Previous musical experience is not necessary in order to derive benefit from this course. Generalized lectures and extensive use of phonograph recordings will comprise the non-credit portion of the course beginning at 5:15. The lectures will be correlated with concerts of the South Bend Symphony Orchestra and with other major musical events in the South Bend area. More detailed instructions for students wishing general credit will begin at 4:15 p.m. Credit for this course may not apply toward a degree in music, but may be credited toward an A.B. degree.

The course will be conducted by Mr. Edwyn H. Hames, director of the Department of Music at Hillsdale College, conductor of the South Bend Symphony Orchestra, distinguished concert violinist, and Extension Lecturer in Music for Indiana University.

- Interior Decoration (New Series)
  Beginning Monday, September 22, 7:30-9 p.m., and continuing for ten weeks. Little Theatre (114), Central H.S. Fee $5 for the series, payable before the second lecture. Single admissions to any lecture, fifty cents. Non-credit course.

Lectures with illustrative materials on some of the more important aspects of interior decorating. This course is intended for persons desiring information that will enable them to create attractive homes, and also for buyers and salespeople in stores. The lecturer, a professional interior decorator, has lectured for the University of Chicago and last year for the Chicago Art Institute.

September 22 Glass (illustrative materials used).
September 29 China (illustrative materials used).
October 6 Silver (illustrative materials used).
October 13 Furniture: English, early eighteenth-century.
October 20 Furniture: English, late eighteenth-century, and Regency.
October 27 Furniture: French.
November 3 Furniture: American (illustrated with lantern slides).
November 10 Period color schemes.
November 17 The budget house and the new colors.
November 24 Pictures and accessories.

- Outposts of the Americas
  Eight illustrated travelogs on the defense areas vital to the nation. Wednesday evening, 7:30-8:45 p.m. Room 218, Central H.S. Fee $2; single admissions, fifty cents. Non-credit course. Mr. Donald Keller, Lecturer in Geography.

September 17 Alaska.
September 24 Canada.
October 1 Mexico.
October 8 The Caribbean and the Panama Canal.
October 22 Hawaii.
October 29 South America.
November 5 Australia, New Zealand, and the South Pacific.
The Psychology of Business Management (New Series)
Beginning Tuesday, September 16, 8:15-9:45 p.m. Room 317. Fee $6 for the series, payable before the second lecture; no single admissions after the first lecture. Non-credit course. Mr. R. L. Hazlett.
A series of informal conference-lectures, presenting some of the problems of management, and planned to be practical for those who are responsible for the training or supervision of other people.
Managing people has come to be of great importance in every business institution. Top executives can do much toward the solution of this problem. However, the responsibility rests directly upon supervisors, foremen, and department managers. The lecturer, who has had years of experience as a teacher and as a businessman, is personnel director, Merchandise Sales Department, Commonwealth Edison Company, Chicago. The lectures to be presented are as follows:

September 16  How new knowledge is acquired.
September 23  Learning to think.
September 30  Leading others to think.
October  7   What a manager is supposed to accomplish.
October 14  What is morale, and what can be done about it?
October 21  Democracy in business.
October 28  Practical applications of the spirit of democracy.
November  4  Improving manager and worker relations.
November 11  Discipline, criticism, and correction.
November 18  Getting instructions carried out.
November 25  How to be convincing.
December  2  The psychology of effective speaking.
December  9  Talking to groups.
December 16  Humor and its effect upon human relations.
December 23  Leadership through persuasion.

Religious Life and Thought in the Orient
Beginning Thursday, September 18, 8:15-9:15 p.m., and continuing for ten weeks. Room 205, Central H.S. Fee $3 for the series, payable before the second lecture. Non-credit course. Mr. Sunder Joshi.
Dr. Joshi was born in India and his forbears were Brahmins. As a Christian convert he associated with Hindus, Mohammedans, Parsees, Sikhs, and members of other religious sects and religions of the Orient. He studied in England, in France, and at the University of Bombay and took his Master's degree from Harvard University and his Ph.D. from the University of Chicago. He is at present a lecturer for the University of Chicago.

September 18  Drama of Hinduism.
September 25  Philosophy of Yoga.
October  2   Gospel of Buddha.
October  9   Ethics of Confucius.
October 16  Philosophy of Lao-tse.
October 23  Religion of Mohammed.
October 30  Teaching of Zoroaster.
November  6  Cult of Shinto.
November 13  Western impact on Oriental religions.
November 20  Current trends.
To Indiana University's new Auditorium, the newest and largest finished building on the Bloomington campus, come the people of Indiana and the University's students, alumni, and staff members to see and hear stellar talent and attractions in music, art, drama, and education. The program for the 1941-42 season and information concerning reservations and tickets are given on pages 35 and 36.
Spring

- **Interior Decoration (Part II)**
  Beginning Monday, February 9, 1942. Non-credit course. Miss Mary Hipple. A continuation of the course given in the autumn. Lecture topics to be announced later.

- **The Psychology of Business Management (Part II)**
  Beginning Tuesday, February 10. Mr. R. L. Hazlett. Lecture topics to be announced later.

- **The World's Great Books**
  Beginning February 11, and meeting every other week, 7:30-9:15 p.m. Room 205, Central H.S. Non-credit reading and lecture-discussion course. Fee $3, payable not later than February 18. No single admissions. Mr. Caldwell in charge.
  Each member of the group will be expected to read the assigned books and will be encouraged to participate in the discussions of the books which are read.
  The general aims of the course are (1) to encourage serious and thorough reading of worth-while books, (2) to orient reading toward a definite goal of achievement, and (3) to encourage a more active participation in the intelligent discussions of general ideas. Members of the South Bend-Mishawaka Center staff will act as leaders in the biweekly discussions. The books to be read will include Machiavelli's *The Prince*, Plato's *Republic*, John Stuart Mill's *Liberty*, and two other books to be selected by the group.
  There will be no formal lectures. Those participating will be expected to own their copies of the books to be read. In no case will the cost of such books exceed $1.25. The first meeting on Friday, February 11, will be an organization meeting.

  Beginning Thursday, February 12, and continuing for ten weeks. Non-credit course. Mr. Sunder Joshi.

- **The Understanding and Appreciation of Music (Part II)**
  (E17b, Appreciation of Music.) Beginning Friday, February 13.
  A continuation of the course given in the autumn. Open to all persons regardless of previous training in music.
Description of Courses

For time schedule of autumn classes see pages 31 to 33. A condensed time schedule of spring semester classes, beginning February 2, 1942, will be released early in January. Preserve this general bulletin for all course descriptions.

Course Announcements

The following descriptions cover courses which carry credit toward a degree. The credit courses are practically identical with those offered in residence at the University. A student who receives credit for an extension course is not permitted to take the same or similar course in residence and receive credit for both. Courses which do not carry college credit are indicated as non-credit courses.

The letter E, which appears with each course number, indicates merely that the course is offered by the Extension Division. The letters a and b indicate which semester of the year's work is being announced if the course is one which is given throughout the University year. Semesters are indicated as Autumn and Spring respectively.

Courses marked with an asterisk (*) are available for graduate credit. Classes carrying two hours of credit meet sixteen weeks; all others meet seventeen weeks.

“Graduate credit” means credit earned after graduation from a four-year university course, and intended for application toward an advanced university degree. This term should not be confused with the simple term “credit,” which is used throughout the bulletin to mean credit toward graduation with the A.B. or B.S. degree. The fee for courses taken for “graduate credit” is $6 a credit hour; the fee for undergraduate credit is $5 a credit hour. Numbers in parentheses indicate the amount of University credit in semester hours.

Business

Autumn

• E101a. Introduction to Accounting. (3) $15. Mr. Larimore.
A beginning course introducing bookkeeping procedure. Approach to the subject is through the corporation rather than through individual proprietorship, since a beginning student will grasp the idea of capital stock and surplus much more readily than the more complicated individual proprietorship account. Covers: journalizing, posting, taking a trial balance, preparing working papers and statements, and closing the books. Laboratory material includes questions, problems, and practice sets. Required of all students in Business.

• E102a. Intermediate Accounting. (3) $15. Mr. Chizek.
Designed to offer specialized training to students who have completed the prescribed courses in Introduction to Accounting, 101a and 101b. Special attention is given to various methods of preparing working papers and statements; to corporation accounting and the proper method of handling treasury stock, donated stock, and premium and discount on capital stock; to actuarial science, consignments, and installment sales.
• E140. Beginning Typewriting. (2) $10. Mr. Peden.
Open only to students planning to enter the School of Business or carrying a minimum of five semester hours in other courses at the South Bend-Mishawaka Center. Repeated Spring.

• E256. Salesmanship. (2) $10 ($6 non-credit). Mr. Hazlett.
This course, while intended primarily for sales people, is of value to all those who have occasion to influence others or to direct their action. Based on the fundamental principles that markets are people and that those wishing to sell goods or services must understand human nature if they are to succeed in their chosen work. Problems of sales management will be discussed. Concludes with the presentation of the principles underlying self-development in character and personality. Lecture topics are as follows:

- September 16 Getting and holding attention.
- September 23 Making money for yourself.
- September 30 Increasing individual efficiency in business.
- October 7 Learning to think.
- October 14 Leading the customer to think.
- October 21 Making the customer believe what you say.
- October 28 Causing the customer to become interested.
- November 4 The power of suggestion.
- November 11 Leading the customer to do what you suggest.
- November 18 Making yourself perform.
- November 25 Progress through planning.
- December 2 What to do about morale.
- December 9 The importance of personality in selling.
- December 16 Changing your personality.
- December 23 Getting things done.

• To help students plan study programs from which they will derive the most benefit is a major function of the faculty and administrative staff, members of which are available in the Center's offices for consultation and guidance.
South Bend-Mishawaka Center

To train those interested in business to find the legal factors in business problems and give these factors due consideration in making business decisions, with special reference to business contracts; to inform students of the legal pitfalls which enter into the formation of business contracts; to familiarize class members with the more important legal devices and their use in various business relations. Required of students of business administration. A practical elective for those working in other fields.

Related Subjects in Other Departments
The Psychology of Business Management—both semesters
Principles of Economics—both semesters
Economic History—Autumn only
American Government—both semesters
Public Administration—Autumn only
Economic Geography—Spring only

Spring

E100. Introduction to Business. (3) $15. Mr. Larimore.
A survey course to familiarize the student with various specialized fields of business and to acquaint him with general business methods and practices. Attention given to a brief resume of the following: finance, management, marketing, personnel administration, records and accounts, prices and price policies, credits and collections, and international trade. Lectures will be presented by business men specializing in specific branches of business activity. Required of Freshmen in the School of Business.

E101b. Introduction to Accounting. (3) $15. Mr. Larimore.
The student is required to work out an extended practice set. Laboratory material designed to utilize control principle without requiring the student to do unnecessary detail work. Problems provide training in account classification, in proper construction of entries and making of balance sheets, in operating statements, and in other statements of analysis. Training in this course should equip the student to take charge of and operate a complete set of ordinary records. Prerequisite, Business 101a.

E102b. Intermediate Accounting. (3) $15. Mr. Chizek.
A continuation of Business E102a, in which accounting problems incident to tangible and intangible assets are explored. Various methods of handling depreciation, depletion, obsolescence, amortization, and other changes in the book value of assets. Accounting treatment of other subjects including investments, funds and reserves, comparative statements, analysis of working capital, and application of funds. Practice work based upon the assumption that the student understands the classification of accounts, the construction of journal entries, balance sheets, etc. Offers desirable preparation for C.P.A. examinations.

E140. Beginning Typewriting. (2) $10. Mr. Peden.

E256. Salesmanship. (2) $10. Mr. Hazlett.
See description, page 14. New topics to be announced later.
Chemistry

Autumn

- E101a. General Chemistry (Inorganic). (5) $25, plus $2 for chemicals. Mr. Gerkin, Mr. Sanford.

Three hours' lecture and four hours' laboratory work each week. Regular introductory work in inorganic chemistry. Theoretical principles and laws fundamental to an understanding of advanced work. A few of the non-metals and their compounds are considered in detail. Students having conflicts with other classes may make up laboratory work at other times by special arrangement.

- E227A. Organic Chemistry. (3) $15, plus $2 for chemicals. Mr. Gerkin, Mr. Sanford.

This course, when completed by E227B (Spring) fulfills the requirement of six hours of organic chemistry for premedical and predental students. Credit accepted at Purdue University.

Spring

- E101b. General Chemistry (Inorganic). (5) $25, plus $2 for chemicals. Mr. Gerkin, Mr. Sanford.

Continuation of the autumn semester's work. Advanced theoretical work, such as the theory of ionization and equilibrium. Non-metals and their compounds, and alkali metals.

- E227B. Organic Chemistry. (3) $15, plus $2 for chemicals. Mr. Gerkin, Mr. Sanford.

Continuation of the autumn semester's work.

Students in General Chemistry spend four hours in laboratory work each week, performing experiments that illustrate how the theoretical principles and fundamental laws in inorganic chemistry work.
Economics

Autumn

While this is generally regarded as a Sophomore course, it may be taken by Freshmen. Prerequisite to credit for advanced courses in economics and courses in business. The underlying principles of business relations applied to such problems as wealth distribution, production, consumption, trade, transportation, insurance, and labor. Credit withheld until completion of Economics 101b, except in case of Purdue students.

- E102. Economic History. (3) $15. Mr. Larimore.
Primarily concerned with American economic development. Treats colonial foundations, economic causes of the Revolution, influence of westward movements, agricultural and industrial revolutions, economic background of the Civil War, integration of business life on a national scale, rise of large-scale business enterprise, emergence of the United States as a world power, economic problems and consequences of the World War, emergence of chief contemporary problems. Required of Freshmen in business.

Spring

- E101b. Principles of Economics. (3) $15. Mr. Larimore.
Both semesters' work must be completed before credit is given, although a student may take the spring semester's work first.

Education

Autumn

- Child Training
Fifteen meetings, beginning Tuesday, September 23, 1:30 p.m. Central School, LaPorte, Indiana. Non-credit course. Fee $1.
Mrs. Edna Hatfield Edmondson.
Includes a study of the part played by hereditary and environmental factors in behavior; influences of the family and other group relationships in shaping the behavior of the child to conform to social standards; principles of child training, objectives, methods, discipline; principles of training applied to specific situations—eating, excreting, sleeping, talking, walking; principles of training applied to specific behavior problems—truth telling, regard for the property of others, the management of money, the temper tantrum, jealousy.

- E327S. The Teaching of Science in the Elementary Schools. (2) $10. Mrs. Thomas.
Required in the Junior year of the new four-year elementary teacher training course in Indiana. Leads toward the B.S. degree in Education.

Graduate Courses in Education
All graduate students in education should consult the Bulletin of the School of Education as to general regulations, options for degrees, and possibilities of satisfying administrative license requirements while satisfying the requirements for either the A.M. or M.S. degree.
Students working for teachers' or administrative licenses or for advanced degrees and employed in any full-time position may not take more than five hours of work in any one semester. Graduate students are advised to file credentials and make application for admission to the Graduate School immediately upon enrolling for extension courses.

**Autumn**

- E537. High School Curriculum. (2½) $15. Mr. Ryder.
- E538. Supervision of High School Instruction. (2½) $15. Mr. Ryder.
- E701. Seminar in Education. (2½) $15. Mr. Eaton.

**Spring**

- E501. Philosophy of Education. (2½) $15. Mr. Martz.
- E551. School Administration. (2½) $15. Mr. Hamilton.

- Students learn Engineering Drawing by doing it under the capable direction of Earl C. Webb, Extension Lecturer in Engineering Drawing for Purdue University.
South Bend-Mishawaka Center

Engineering

Autumn

• GE11-12 (Purdue). Engineering Drawing. (2) $10. Mr. Webb. Required of students in Engineering at Purdue University. Beginning students should register for GE11. Textbooks, drawing supplies, and drafting instruments are to be secured by the student after the first meeting of the class.

• GE16 (Purdue). Descriptive Geometry. (2) $10. Mr. Webb. Relations of points, lines, and planes, and their graphical and algebraic representations; graphical solutions, and associations with algebraic solutions, of theoretical and practical problems.

Spring

• GE11-12 (Purdue). Engineering Drawing. (2) $10. Mr. Webb. Repeated. See description above.

English

The examination for exemption from English Composition will be held on Monday, September 15, at 6 p.m., at the Extension Center in Central High School. Students planning to take the examination, offered without charge, should notify the office in advance. (Papers must be written in ink.) The examination is optional. Credit students who do not wish to take the test must enroll for Composition E101c. See below.

Autumn

• Review Essentials of English. Non-credit. $5. Miss Hartman. Thorough drill in the essentials of simple grammar, punctuation, sentence structure, and word usage. Review tests will be given at regular intervals to check the student's progress. For those who have not attended high school, for business people, and for high school graduates insufficiently prepared for college composition. Fee, $2.50 for students enrolled in writing classes. Students deficient in English composition may be required to take this course.

• E101a. Elementary Composition. (2) $10. Mr. Deen. The writing and criticism of a theme a week. General study of mechanics, including grammar, punctuation, sentence structure, paragraphing.

• E101b. Elementary Composition. (2) $10. Mr. Kenworthy. A study of the rhetorical principles of the sentence; plans and outlines for themes—the logic of construction; expository writing; reading and class discussion of an autobiography and a book of expository selections; writing an autobiography and one theme a week except while the autobiography is being prepared.
**Bulletin of the Extension Division**

- **E101c. Elementary Composition.** (2) $10. Mr. Kenworthy.
  A study of diction, of the familiar essay, and of narrative writing. Students will be expected to prepare and submit a project, the subject matter of which must be approved by the instructor, and to write one theme each week except while the project is being prepared. Prerequisites, English 101a and 101b. Required for graduation from the College of Arts and Sciences unless student is exempt.

- **E102a. Freshman English Literature.** (3) $15. Mr. Deen.
  The essay: its origin and history; representative essays of Bacon, Addison, Steele, Lamb, Hazlitt, Arnold, Stevenson, and other writers, early and modern. The drama: comedy, tragedy, and their subdivisions; detailed study of five or six plays ranging from Shakespeare’s day to modern times. Required of English majors.

- **E121a. Sophomore English Literature.** (3) $15. Mr. Deen.
  A study of representative great English authors. During the autumn semester selections from the works of Chaucer, Spenser, and Milton are read; during the spring semester, selections from the works of Swift, Boswell, Wordsworth, Arnold, and Masefield. An attempt is made not only to acquaint the student with the selections read, but also to give him some adequate idea of the totality of the work of each author. Required of all English majors.

- **E254a. Shakespeare.** (3) $15. Mr. Deen.
  A study of Shakespeare’s principal plays. Emphasis is laid on the dramatic structure, characterization, poetry, and meaning of each play. The plays are studied in chronological order to keep in view the development of Shakespeare’s mind and art. In the autumn semester there is a rapid survey of the following: Midsummer Night’s Dream, Richard II, Romeo and Juliet, Merchant of Venice, Henry IV, Henry V, Much Ado About Nothing, As You Like It, Twelfth Night.

**Spring**

- **E101a. Elementary Composition.** (2) $10. Mr. Deen.
  Repeated. See description on page 19.

- **E101b. Elementary Composition.** (2) $10. Mr. Deen.
  Repeated. See description on page 19.

- **E102b. Freshman English Literature.** (3) $15. Mr. Deen.
  The study of literature by types. Representative examples of both English and American poetry, from the sixteenth century up to the present, are read. In addition, one or two novels will be read and discussed. Open to new students.

- **E121b. Sophomore English Literature.** (3) $15. Mr. Deen.
  A continuation of E121a; selections from the works of Swift, Wordsworth, Arnold, and Masefield.

- **E254b. Shakespeare.** (3) $15. Mr. Deen.
  The later tragedies and tragi-comedies of Shakespeare. Among some to be considered are Othello, Macbeth, King Lear, Hamlet, The Tempest. Open to undergraduate students. Course 254b may be taken before English 254a since each semester’s work is a unit.
Speech

Autumn and Spring

  The beginning course in speech. Designed to train people to think on their feet; to develop courage and self-confidence, and to increase poise and personal force in business interviews and before groups. Emphasis is placed upon fundamentals such as action, projection, selection of subjects, outlining, organization. The laboratory method is used.

  Especially for professional people, executives, sales managers, club women, and others who desire to address groups of men and women engaged in business and adult activities. Speeches will be organized and delivered with an emphasis on oral statement to get attention and the desired response. Scheduled for students who have had one or more semesters of work in speech or who have had speaking experience.

French

Autumn

  This course for beginning students includes the study of grammar, composition, and reading. It runs throughout the year and corresponds to the first year's work at the University. Premedic, science, and engineering students may choose either French or German.

  Open to those who have had ten hours of university French or two years of high school French. Two hours of credit in French Composition and three hours' credit in Modern French Prose is given.

- Conversational French. (non-credit) $5. Miss Hartman.
  A beginning course in French primarily for those who wish to learn something of the French language without going into the details of French grammar. Students will be taught a practical, everyday French which will be valuable for a conversational facility in the language. It will provide, also, a general introduction to French culture. The interests of those enrolled may partially determine the nature of the course.

Spring

  Second semester French. Open for credit to those who have had one year of French in high school or one semester of French in the University.

- E104b and E119b. Composition and Conversation (Reading and Oral Practice), and Modern French Prose (Second-year), (5) $25. Miss Hartman.
  The second semester of the second year's work. Two hours' credit in French Composition, and three hours' credit in Modern French Prose. Open to students who have had French 104a or three years of French in high school.
Geography

Autumn

The relation of the activities of man to his physical environment. A
discussion of the effects of such factors as location, land forms, bodies
of water, soils and minerals, climate. Required for the elementary
school license, meets the requirements for high school teacher's license
in social science, and may be applied on the science requirement for
graduation.

* E222. Political Geography. (2) $10. Mr. Keller.
Geographic factors in international politics as they relate to the history,
resources, and strategic defense interests of nations. The geography of
international boundaries, trade, nationalism, imperialism, and war will
be emphasized.

Spring

Five hours of economic geography are required by the School of Busi­ness and may be met by this course. It is required for those preparing
to teach high school commercial subjects. Ten hours of the science
required for the A.B. degree may be met by completing Geography 109a
and 109b.

Includes a study of the various geographic regions of North America
with emphasis on the physical, economic, and historical geography of
each region. Topics include: the North Atlantic coastal region, the
subtropic coast and the Florida Peninsula, the Cotton Belt, the Lower
Lake Region, the Upper Lake Country, the Great Plains, the Rocky
Mountains, the arid Western Plateaus, the Pacific Coast Mountains, the
Valley of Central California, Southern California, Alaska, Mexico, and
the West Indies.

Government

Autumn

A study of the structure and function of the federal system of govern­ment and of the constitutional theories upon which that system is based.
Federal relations with states, territories, and insular possessions will
be analyzed, and emphasis placed on the growth of democracy in
American political life. Recent aspects of federal administration and
regulation will be considered.

* E208. *Public Administration. (3) $15. Mr. Caldwell.
An introductory study of the expanding field of public service, federal,
state, and local. The course will survey the forms and trends in present­
day administration and consider problems of organization involved in
executive management, the independent regulatory commission, the government corporation, and the development of new administrative areas. Particular attention will be given to fiscal and personnel management and such forms of administrative action as inspection, licensing, rule-making, and administrative adjudication.

**Spring**

- **E101b. American Government: State and Local.** (3) $15. Mr. Caldwell.  
A study of federal-state relations, interstate relations, state constitutions, legislatures, courts, and administration; taxation and finance in state and local governments; and the basis of popular control over state and local government. Required of business students.

**History**

**Autumn**

- **E101a. History of Western European Civilization.** (3) $15. Mr. Carmony.  
The first semester traces the development of European institutions and ideas from the fall of the Roman Empire to the Protestant Reformation. Discusses not only the political evolution of the modern European states-system, but the unfolding social, economic, and religious institutions as well. Feudalism, the Medieval Church, and the struggle between the Papacy and the Empire will be emphasized. Provides the basis for an understanding of the modern civilization of both Europe and America. Required for a high school license in history and the social sciences.

- **E105a. American History.** (3) $15. Mr. Carmony.  
Brief survey of American colonial history; a more intensive study of the Revolution; formation of the American union and federal government; divorcement of the United States from the European balance of power; westward movement and expansion; early struggles over slavery. Required for the elementary and high school licenses.

**Spring**

- **E101b. History of Western European Civilization.** (3) $15. Mr. Carmony.  
Covers the period from the Reformation to 1939. Special emphasis on the Reformation, Age of Louis XIV, French Revolution, Napoleonic Era, rise of nationalism and imperialism, growth of democracy, industrialism, World War, and post-war tendencies.

- **E105b. American History.** (3) $15. Mr. Carmony.  
A study of the social and economic developments of the last decade before the Civil War, of the final struggles over slavery, of the Civil War, and Reconstruction. In addition a somewhat more rapid survey is made of the economic, social, and political developments, and problems of the great transition period from 1876 to the present.
Bulletin of the Extension Division

Mathematics

Autumn

• E102. College Algebra. (3) $15. Mr. Broman.
The regular Freshman course in algebra. Open to students who have had high school algebra and geometry.

• E103. Trigonometry. (2) $10. Mr. Thornton.
The regular Freshman course in trigonometry. Open to students who have had high school algebra and geometry.

A course in differential calculus open to students who have had university algebra, trigonometry, and analytic geometry.

• E265. College Geometry. (3) $15. Mr. Wilmore.
See also GE16 (Purdue) Engineering. Descriptive Geometry.

Spring

• E102. College Algebra. (3) $15. Mr. Broman.
Repeated. See description above.

• E103. Trigonometry. (2) $10. Mr. Thornton.
Repeated. See description above.

Open to students who have had university algebra and trigonometry. Required of engineering students at Purdue.

• E207b. Elementary Calculus. (4) $20. Mr. Broman.
A course in integral calculus open to students who have completed Differential Calculus 207a or its equivalent.

Music

Autumn and Spring

• E17. Appreciation of Music. (2) $10 (non-credit, $5). Mr. Hames.
See pages 9 and 12 for description.

Philosophy

Autumn

• E202. Logic. (3) $15. Mr. Ruby.
Develops the student's ability to think more critically and systematically. Gives training in the analysis of evidence, in the ability to detect fallacies of reasoning and unfair tricks of argument and in the ability to distinguish between fact and opinion. Part of the course will be devoted to a study of the methods of investigation used in the exact sciences. Stress will be laid on the development of skill in the application of the principles to all types of subject matter. Practical exercises will be assigned for each class meeting. Required of prelaw and premedical students.
South Bend-Mishawaka Center

- E209. Religious Leaders of Mankind. (3) $15. Mr. Joshi.  
A study of Amos, Confucius, Gautama Buddha, Jesus, Lao-tse, Mohammed, Moses, and Zoroaster. These personalities and their teachings will be treated historically and studied against the background of their age and environment. No previous work in philosophy required for undergraduate credit.

Spring

- E203. Ethics. (3) $15. Mr. Ruby.  
The meaning of “right” and “wrong” in human conduct. The course will aim to give the student a philosophy for use in daily life. After consideration of different theories as to the nature of morality, the principles of ethics will be applied to some of the moral problems of the present day, in such fields as law, war, international relations, politics, business, and marriage. The evolution of ethics, changing moral codes and customs, and popular fallacies in ethics will also be considered. Required of prelaw and premedical students.

- E220. Philosophies and Cultures of the Orient (Social Philosophy). (3) $15. Mr. Joshi.  
The general characteristics of the civilizations of the East in their geographical, psychological, mythological, political, and economic settings. Types of living civilizations in India, China, and Japan as expressed in their drama, art, literature; in society, philosophy, and ethics. The process of Westernization in the above countries and in the Moslem World. No previous work in philosophy required for undergraduate credit.

Physics

Autumn

- E101a. General Physics. (5) $25, plus $2 laboratory fee. Mr. Gerkin.  
The work of the autumn semester will cover mechanics of solids, mechanics of liquids and gases, properties of matter, wave motion and sound, and light.

Spring

- E101b. General Physics. (5) $25, plus $2 laboratory fee. Mr. Gerkin.  
The work of the spring semester will cover magnetism, electric current, and heat.

Psychology

Autumn

This course will consider the following topics: what psychology does; intelligence; memory; learning; heredity and environment; how activity is aroused; feeling and emotion; sensation; observation; thinking; imagination; and personality. The course has practical value since an effort is made constantly to show the relationship between the subject matter and the many activities of adult life. Required of business, medical, and education students, and recommended for nurses.
• E104a. Experimental Psychology. (2) $10. Mrs. Frith.
This course with Psychology 101 provides five hours of psychology credit which may be used as science requirements. Of special value to students who wish to pursue further courses in psychology. Various laboratory experiments will be conducted.

• E256. Advanced Clinical Psychology. (2) $10. Mrs. Frith.
Prerequisites, ten hours of psychology or its equivalent and at least Junior standing.

• E261. Mental Hygiene. (3) $15. Mrs. Frith.
Deals with mental disturbances as they occur in mental breakdown of the normal subject, and with minor and major mental disorders such as psychoneuroses and insanities, feeble-mindedness, repression, complexes, regression. It will include a discussion of the application of psychoanalysis. Special attention will be given to the mental hygiene of human efficiency. A standard course in elementary psychology is a prerequisite for this work. The course counts for graduate or undergraduate credit.

Spring

• E141. Applied Psychology. (3) $15. Mrs. Frith.
A consideration of the application of the facts and principles of psychology in such fields as social problems, vocational guidance, industry, advertising, selling, medicine, art, law, athletics, education, and religion. Prerequisite for credit, Psychology 101. This course may be taken with Psychology 101, 104a, and 104b for ten hours of science credit. The course is open to all persons who may pursue the work with profit.

• E156. Clinical Psychology. (2) $10. Mrs. Frith.
A clinical study of the individual, his adjustment or maladjustment, his weaknesses and their causes. Specific cases will be tested and studied in detail. The chief aim of this course is to develop a point of view in handling problem cases. Elementary Psychology 101 is a prerequisite.

Sociology

Autumn

• E101b. Principles of Sociology. (3) $15. Mrs. Edmondson.
An introduction to the study of human society, intended as a general background for all the social sciences. Some of the topics covered are: social inheritance; the fundamental facts of evolution; the influence of physical nature on society; distribution of the sexes; human nature both inborn and acquired; heredity and individual differences; problems of racial purity and inequality; varieties of group life and their traits; social value of conflicts; value of cooperation; social order; social institutions; population and the family; immigration and its effects; the city and its life; the political order and social control.

• E235. The Family. (3) $15. Mrs. Edmondson.
In this course a study will be made of the structure and functions of the family. The origin and development of the family will be studied in order to understand the forces operating in the modern American
family. Attention will be given to its biological, economic, and psycho-social aspects. The last part of the course will deal with family disorganization and family reorganization. Prerequisite, Principles of Sociology 101b, or the equivalent.

Spring

  A continuation of the first semester. A study of certain selected social problems of contemporary society. Poverty, unemployment, the social aspects of physical and mental diseases, old age, industrial hazards, family disorganization, crime, and juvenile delinquency. A program of treatment designed to meet these problems.

- **E203. Social Aspects of Personality.** (3) $15. Mrs. Edmondson.
  A study of personality in its social roles and adjustments. Personality is studied from the standpoint of the individual's participation in the family, the play group, the school, and other social groups. Part of the work of the course consists of a critical study of the psychology of marriage and family relationships, and maladjustments arising in the socio-cultural environment. Recommended to students of psychology and education as well as of sociology. Prerequisite: Sociology 101b.

Spanish

Autumn

- **E115a. Elementary Course.** (5) $25. Mr. McDowell.
  A mastery of the fundamentals of Spanish grammar and diction through reading, conversation, and grammatical exercises is the objective. Particular emphasis will be placed on the language and culture of Spanish America and newspaper material from South or Central American cities will be used. For beginners.

- **E120a. Modern Spanish Prose.** (3) $15. Mr. McDowell.
  Open for credit to persons having one year of college Spanish or two years of high school Spanish. Open to non-credit students with the consent of the instructor. Hours to be arranged. Organization meeting, 6:30 p.m. Monday, September 15, Room 318, Central H. S.

- **Conversational Spanish.** (non-credit) $5. Mr. McDowell.
  A beginning course in Spanish primarily for those who wish to learn something of the language without going into the details of Spanish grammar. Students will be taught a practical, everyday Spanish which will be valuable for a conversational facility in the language. It will provide, also, a general introduction to Latin-American culture. The interests of those enrolled may partially determine the nature of the course.

Spring

- **E115b. Elementary Course.** (5) $25. Mr. McDowell.
  A continuation of the first semester's work. Open to students with one semester of college Spanish or one year of high school Spanish or with the consent of the instructor.

- **E120b. Modern Spanish Prose.** (3) $15. Mr. McDowell.
  Continuation of the autumn course.
Requirements for Degrees

• Bachelor of Arts Degree

Prescribed Subjects: Every student must secure 124 semester hours of credit, of which 120 hours must be in academic subjects with grades to yield at least 120 credit points. The following subjects are prescribed:

I. ENGLISH COMPOSITION. Six hours or the equivalent. See page 19 about exemption examinations. For further requirements see the Catalog of the University.

II. FOREIGN LANGUAGES. Every student must demonstrate his ability to read moderately difficult prose in Greek, Latin, French, German, Spanish, or Italian. For further regulations see the Catalog of the University.

III. SCIENCES. Every student must complete fifteen hours in two departments, including one department from Group A, and one from Group B, with not fewer than five hours in either department*:

Group A: Astronomy 101, 102, 104; Chemistry, 101a, 101b; Mathematics 101, 102, 103, 104, 105, 106, 116; Physics 101.

Group B: Anatomy 114; Botany 101; Geology and Geography 101, 109; Physiology 101, 103; Psychology 110, 101 with 104; Zoology 103, 104, 106, 232.

Every student must take eighteen hours from Groups IV and V, with a minimum of six hours in each group and a maximum of six hours in any one subject.

IV. SOCIAL SCIENCE. Every student must complete at least six hours from one of the following courses: History 101, 104, 105, 203; Government 101, 202; Economics 101; Sociology 101.

V. LITERATURE, PHILOSOPHY, AND THE ARTS. Every student must complete at least six hours chosen from the following list: English 102, 103, 121; Languages—any third- or fourth-year course of a literary character; Fine Arts 108, 202, 203, 205; Music 17; Philosophy 100a, 100b; 120 or 202, 203; 206, 207.

VI. MILITARY TRAINING AND PHYSICAL EDUCATION. See Catalog of the University.

• The Bachelor of Science Degree in Education

The School of Education will admit without condition all students who have graduated from a commissioned high school in Indiana and who have completed for graduation all the requirements set forth by the State Board of Education. Students desiring the B.S. degree or wishing to take the A.B. degree and at the same time meet the license requirements of the state, should consult the official in charge in regard to the planning of a program of study. For further information see the Bulletin of the School of Education.

* Students who are candidates for a teacher’s license must take eighteen hours of science, of which three hours should be in psychology, the remaining fifteen hours to be distributed as prescribed above.
South Bend-Mishawaka Center

- Professional School Requirements

Premedical, predental, prelaw, and prebusiness students are advised to consult with Extension officials concerning programs of study. For entrance requirements into the professional schools students are referred to the University Catalog or to the special bulletins of the respective schools.

Two-Year Course

Students in an Extension Center of Indiana University may, upon completion of two years' (sixty hours') work with an average grade of C, obtain a certificate of completion of the Two-Year Elective Course. With its freedom in the selection of subjects, this plan offers an unusual opportunity for combinations of studies, giving in a relatively short time a maximum of instruction and stimulation in accordance with the students' interests. While the plan is intended chiefly for students who do not plan to take a four-year course at the University, any student who elects the two-year plan may continue his education at Bloomington along either broader or more specialized lines leading to the different degrees; and credits earned will be transferred providing the required work of the college to which he transfers is made up.

Students wishing to gain the most from the two-year course should consult the officer in charge of the class Center as to program. Those who have completed the two years' work in the Extension Center may obtain the certificate by applying to the Registrar of the University at Bloomington.

Extension Courses Offered by Purdue University

Many courses offered by the extension centers of Indiana University are equivalent to the required and elective subjects in the curricula of Purdue University. Credits in subjects carried by extension, as they apply to these curricula, will be accepted by Purdue University where the grades received are higher than the lowest passing grade of Indiana University.

Students planning to study engineering, but at present unable to enroll at Purdue University, may receive sufficient credits through a year of extension work to reduce their residence on the campus by approximately one year.

Purdue students can take the following courses in the South Bend Center and later enter Purdue as Sophomores short only one semester each of shop and surveying.

<table>

The School of Music Building on the Bloomington campus.
EXTENSION STUDENTS ARE INVITED TO ATTEND
BLOOMINGTON CAMPUS EVENTS

• Activities of various kinds, including social affairs, are carried on in each of the University's Extension Centers, and these are supplemented for Extension students by the events on the campus at Bloomington. Major events on the 1941-42 University calendar include "The I.U. Auditorium Series," presented evenings in the Auditorium, and the intercollegiate athletic contests.

• AUDITORIUM SERIES •
