

**Study Room Usage  
Indiana University Kokomo Library  
Annual Check Outs July 2005 - June 2008  
Representative Week October 20-26, 2008**

Study room usage statistics are kept as a monthly tabulation of checkout statistics for the seven study room keys. When the key is turned in the Library student assistant at the service desk is to ask the number of users in the room and record these as browse statistics. The monthly statistics should include all users (but we realize that this number might not be totally accurate). These monthly statistics have been cumulated by academic year below.

July 2007 – June 2008 = 4502  
July 2006 – June 2007 = 4380  
July 2005 – June 2006 = 4726

A representative week, Monday October 20 – Sunday October 26, 2008, was chosen and usage was tabulated using the reserved times/total available times for this week. These numbers only include the times the rooms are scheduled and not the number of users in each room. This week may or may not have been representative of the entire year. At certain times of the year the study rooms are busier than others (e.g. last two weeks of school). Also you will notice that certain days may be busier than others and this may be dependent on the schedule of classes.
