window runs midnight to 10:00am, but the upgrade will likely only last for an hour or two.

During the upgrade, the old Symphony Workflows client cannot be used for work. Once the upgrade is complete, the new WorkFlows client can be installed and used. We will work with computer workstation administrators who can help deploy and install the new client.

Additionally, My Account and item requesting in IUCAT will be unavailable during the upgrade. More information about IUCAT during the upgrade will be communicated out to our patrons via a banner message on IUCAT.

Key dates for the upgrade are:

- December 21 - Plan to have any needed work and materials processing (particularly circulation) in the old SD Workflows client finished by 6:00pm.
- December 22 - During the production upgrade window (which lasts until 10:00am), the Workflows client cannot be used. Any essential circulation activities that occur at this time must be kept manually for later input. Also, My Account and requesting services in IUCAT will be unavailable.

Thank you for your support during this process.
