Students are at the heart of a university campus. How students respond to local, national, and international events provides insight into student life and their socio-historical contexts that define a campus and that campus' unique history. The Bicentennial Student Newspapers Project aims to digitize student newspapers across five IU campuses: IU East, IUPUI, IU Kokomo, IU Northwest and IU South Bend. Those papers will join the IU Southeast student newspapers already digitized to create a rich corpus of IU-wide student newspapers ripe for research. Once digitized, over 50,000 pages of student newspapers spanning the 1930's to the 2010's will be available for discovery in Pages Online by Summer 2020.

You can also follow and contribute to the presentation and discussion on twitter: #dlbb.

The Digital Library Brown Bag series is held Wednesdays in the Herman B Wells Library
