The committee agreed that placement categories should be redefined. Denise pointed out that student in the guided placement category should be allowed to take 200 level course if no 100 level courses are available at times that are convenient for the student. Laverne suggested that the committee should ask the admissions and academic advising staff for input regarding the draft of the policy.
2. The committee discussed the possibility of drafting an “Academic Bankruptcy Policy” for re-entering adult students. Discussion on this policy was deferred until the next academic year.

The committee adjourned at 5:00 pm. The next meeting will be set once admissions, academic advising and other constituents have reviewed the draft of the admissions policy and have provided their input.
