Denise briefed the committee on the progress on the Procedures for the Student Code of Conduct. She reviewed IU Southeast's policy and recommends that it should be used as a basis for the code at IU East. The committee agreed that students should be directed to contact the Dean of Students in (almost) all cases of grievances. The Dean of Students should then inform the students of their rights and obligations under the procedures. In cases where the Dean of Students is a the center of the grievance, the student should contact another official, for example, the Vice Chancellor for Academic Affairs.

The committee completed the report on non-standard grades. The revised version will be communicated to committee member and to the Registrar for final comments. If no comments are made, the report will be presented to Faculty Senate as a report in January.

The committee discussed the future of the Athletics Report. It was agreed to invite Ben Young to a meeting during the first week of classes. The committee wishes first to get agreement of factual findings, and secondly attempt to get agreement on the conclusions of the report.

The committee adjourned at 10:00 am.
