The committee discussed the draft of the athletics report. Minor changes to the document were suggested: The source of funds for athletic activities will be added on pg. 2.

Next, the committee discussed the instructions for the non-standard grades. It was decided to keep the 75%-completion requirement to avoid an FN. The committee also decided not to require that an FN be given if the student shows up only sporadically. It was decided to include a sentence explaining the reason for this: The purpose of the FN is to report students who take financial aid and do not attend class. Sporadic attendance does not constitute the intent to defraud the financial aid system. The committee discussed the proposed suggestions for FN's in online classes and agreed with them.

The committee adjourned at 11:00 am.
