

Minutes of the November 15 2001 Curriculum Committee meeting

Present: Alisa Clapp-Itnyre, TJ Rivard, Mary Ann Morse, Peggy Branstrator, recorder

Items discussed:

1. Now that the ECAP policy (bringing course from the master course list) has been approved by the senate there are some details to finish up
 - Give a copy of the form to Kim for her to pass out to anyone needing it
 - Forward a copy to the UFC agenda committee for review

2. How can we start moving forward the development of model frameworks for multi-campus 300 & 400 level courses? This process is to be completed by Aug 2002. Since this seems to be a division-level task we decided that Alisa should do two things
 - send an email to division chairs with a brief explanation of the task, including the web address of the appropriate UFC page
 - make an announcement at the December senate meeting

3. What needs to be done to complete the revision of the campus computer/information literacy requirement? We passed an interim requirement as part of the revisions of the institutional program requirements last year. Is anyone working on this? Should we be?
 - Mary Ann will talk to Lora to see what, if anything, is happening with this.

The date of our next meeting was not discussed.
