

Curriculum Committee Minutes  
April 18, 2002

Present: Kathleen Lemna, Alisa Clapp-Itnyre, Mary Ann Morse, TJ Rivard  
Absent: Sheila Armstead

- 1) Bringing forward Communication courses. If Jerome makes the changes to the course adoptions, they can go forward to Senate. Jerome will need to explain how all these courses will be covered.
- 2) Math M117 – The adoption of M117 will result in few electives for BEST degrees and Education degrees. It will have little effect on HFA or BSS. The adoption of this course, however, will keep us in compliance with the new policies regarding remedial course with the advent of the Community College. The course can be used for elective credit but can not be used to fulfill the Math requirement for the campus.
