

Curriculum Committee

Minutes 4-12-04

All members were in attendance.

Notes about the computer requirements:

- NSM doesn't want it as across campus—make divisions do it
- No one to administer
- Tutorial services won't do it—no personale
- Library already does some computer classes in Aug.
- IT has no resources
- Make it not req'd because no one else can do it?
- YET there is value to gen ed across the campus
- If divisions in charge, it may fail
- Make it the responsibility of students to know ; make their pre-req?
- No time in our classes to teach computer material
- Could still do modules on our own
- Abolish req. But make very available to students—in library, registrar
- Students won't do on their own—self ID is a problem
- Advising is bad—could end up as class without skills
- Make instructors require—have to do module in 1sts few weeks—goes in their file once they've done it
- Agree: abolish A100 –do modules
- Go to library courses OR a module on ___ topic
- Tut. Services could teach some
- Tut. Serv. may be hurt by Ivy Tech
- Take back to Wendy
- Go to faculty to get ideas
- Take to Divisions, Talk to VCAA
- Give choice: library course available; modules req'd; integrate into courses
- Bounce it back to VCIT—Talk to TLC, Tut. Serv., Library
- Talk to individual divisions

Discussed new chairs: Alisa and Deb as co-chairs?
