3		Desirables for KIC:							General issues and questions	
4		Be readily seen upon entry to library and look welcoming							Lighting configuration and window darkening need consideration	
5		Located around the perimeter of stacks insofar as feasible, thus losing as few stacks as possible							Walk-around/behind space is included in totals of areas; however, major traffic patterns NOT included in totals. May save sq ft by clustering.	
6		Use low stacks to designate areas, give privacy, and provide accessible storage for reference materials							Can existing columns be used to run conduit for group stations?	
7		Re-use existing classrooms 144 and 148 as IT/faculty instructional rooms							Can 148B be used for Multimedia center?	
8		DRAFT								
9		Instructional Areas							Note: Both rooms for faculty/IT classrooms are existing, and should be reviewed by the Classroom Assessment Team for guidelines for appropriate renovation. Consider windows out into the main library area to tie classrooms into KIC. Installed technology: ceiling hung projector, screen, equipment rack, IT podium	
10		IT/Faculty Computer Classroom	26	29.5	1	768		27	Room 144 - includes 26 student stations plus 1 instructor station. This is a bit tight for computer classroom.	
11		IT/Faculty Computer Classroom	26	35.5	1	924		27	Room 148 -- includes 26 student stations plus 1 instructor station. Since this is the larger of the two rooms and will have more generous station sizes, it should be used for classes requiring larger computers &/or use of books, notes, and computers simultaneously. Or alternately to having larger individual stations, a multimedia station could be sited in the back of the room for use at non-class times.	
12		Tutorial area for 4 pairs	8	25	n/a	200			This will be 4 tables, each accommodating 2 people each.	
13		TOTAL						1,892		
14		Collaboration Stations							Group collaboration units will only accommodate up to 5 people each, not the 7-10 desired. See Group Collaboration Stations photos and diagrams	
15		"Y" shaped collaboration stations for 60 students	15	27	4	1,620		12	4 "Y" s serving 3 groups of up to 5 each. If larger groups need to be accommodated, consider providing small conference rooms.	
16		TOTAL						1,620		
17		Individual workstations								
18		Individual computer workstations	28	25	n/a	700		28	The station size of these individual workstations will depend on their configuration. Straight rows are the most efficient, but other configurations may be more interesting and feel less factory-like.	
19		ADA workstations	2	40	n/a	80		2	These stations should be higher than normal or with adjustable surfaces. They will need a 5' wheelchair radius, and clear access aisles.	
20		Other adaptive technol. computer station	1	50	n/a	50		1	Same criteria as above. This could be a station with 2 seats, for a helper or tutor	
21		TOTAL						830	43 This uses all of the computers available for non-classroom use.	
22		Media Center								
23		One multimedia work area	1	100	1	100			This could be an open cubicle or if appropriate, use room 148A off of 148 for noise control and security. It should have dedicated software, large screen monitor, scanner, printer, media readers and CD/DVD burners	
24		TOTAL						100		
25		Miscellaneous service features								
26		IT Support/Reference Desk	3	120	1	360			This will be a combination service counter and desk work area for 2-3 people. It is generously sized, so people will have room to do various tasks, without feeling overcrowded e.g. IT people can work on computers brought in and librarians access reference material.	
27		Printers & other peripherals	4	30	n/a	120			This would be for printers, scanners, xeroxes and include some counter or table space & paper storage	
28		Stand-up reference stations	3	25	n/a	75			These are computers used for quick reference checking. They are not in the "available from B.Yost" total.	
29		Other seating	n/a	n/a	n/a	n/a			Seating areas with easy chairs and low tables and study tables and chairs. Provide where possible.	
30		TOTAL						555		
31		GRAND TOTAL				4,997	4,997
