Summer Session 2 (continued)

Above class students are required to attend an orientation Jul 5 from 9a-12p in EDUC 3115 and are required to participate in a portfolio session following completion of the course, date and time ARR. (Students who cannot attend orientation should contact instructor to make alternative arrangements)

Above class taught online

Above class designed for non-art majors who wish to learn basic skills in art and/or craft making. Students select a strand of lessons, based on personal interests, and complete a sequence of projects designed to build art/craft knowledge and skills. Students may choose from a broad range of media and genres; such as, drawing, painting, graphic design, cartooning, fanart, zines, collage, bookmaking, sculpting, costume making, needlecrafts, photography, construction or model making. Students work with a tutor in an online environment as they progress through the self-selected assignments. Tutors assist students in achieving learning goals and making connections to art/craft making goals in everyday or workplace environments. During an orientation, which will take place on July 5 at 9:00am EST, students will be provided instruction about how to meet online. During this orientation they will be assigned a tutor and be able to select a time for online instruction and critique. Students should have ability to copy and/or upload images as JPGs to the computer and access to computers with high speed internet, sound card and built-in or external microphone and camera

TOPIC : Summer Travel As Resource for Creating Culturally Sensitive Curricula

Above class students must participate in an online orientation July 15 from 9a-12p. (Students who cannot attend orientation should contact instructor to make alternative arrangements) Summer should be a time of rest and relaxation for teachers who spend hours outside the classroom preparing instructional resources for their students. In this class teachers may consider how summer vacations may spark inspiration for meaningful, culturally-sensitive lessons in art, social studies or the natural sciences. Experiences with people, customs and the natural world in contexts different from the local community provide insights and understandings that can be transferred to classroom teaching and learning. Curricular and pedagogical issues important to engaging students in learning that is sensitive to and about cultural differences will be explored. Final projects will include the development of a curriculum and body of instructional resources that will be taught to students during the academic year. These projects will be shared during a follow-up class meeting through an interactive online site. It is expected that students will have access to computers with high speed internet in order to get started in the class.
