Summer 2010 Registration

Early Registration Begins March 24, 2010

All students who are enrolled on the Bloomington campus for Spring 2010 are scheduled to register for Summer 2010 during Early Registration (March 24-March 31). Note: A late registration fee will be assessed beginning on May 11.

Note also: General Registration Information section and Drop/Add information in this bulletin.

Registration using *OneStart* Student Center

Use *OneStart* Student Center from locations where you have online access. Connect to *OneStart* Student Center from computers on campus or in your living space.

Registration Procedure

Before registering:

1. Connect to *OneStart* (<http://onestart.iu.edu>).
 - Check registration appointment date and time.

- Check for holds on your registration (academic checklists, financial encumbrances, residence classification, and immunization record noncompliance entries). Obtain a release for each entry from the office listed. The registration system will prevent you from enrolling until corrective action is taken on each entry.
 - Review your addresses. Update entries as necessary.
2. Follow the advising procedure established by your school or department.
 3. Review course availability online through *OneStart* or at www.registrar.indiana.edu. Also review online course descriptions, contact prospective instructors and review course materials for desired courses.
 4. Request any required class permissions from the department offering the desired class.

Register using *OneStart* Student Center

See <http://registrar.indiana.edu/reginstruction.shtml> for detailed registration and drop/add instructions.

After you register, you will have access to continuous drop/add using *OneStart* Student Center from March 24 through May 17. Refer to Drop/Add section for information and instructions.

Prerequisites

Many course sections have mandatory prerequisites which are listed in the school bulletins or in the online *Schedule of Classes*. *Each student is responsible for meeting the published prerequisites for each course requested.* After each enrollment period, schools and departments may review the completion of prerequisites of registered students. The academic units have the authority to administratively drop a student from a course for which the student has not fulfilled the published prerequisites.

Drop/Add using *OneStart* Student Center

See Drop/Add and Late Drop/Add procedures in this bulletin.

The Registration Agreement

When you register, the University reserves specific class spaces for you and commits resources to provide the instruction you have selected. On your part, you assume the responsibility for paying those course fees or for notifying the University if you decide not to attend.

The availability of courses is subject to change. A section may be cancelled due to low enrollment or departmental staffing considerations. The department cancelling a class will notify registered students and help them make alternate arrangements, if necessary. Registered students also will be notified if the meeting time and/or location of a course has changed since the student registered.

Your registration will not automatically be cancelled for nonpayment of fees. You must either pay your fees or notify us if you do not intend to return to the Bloomington campus. By cancelling your registration by the fee payment deadline, your class spaces will be released in time to be available to other students.

If you decide to cancel your registration, contact the Office of the Registrar, Franklin Hall 100.

Fee Payment

Indiana University provides account statements electronically through QuikPAY®. The account statement will be generated monthly and an e-mail notification will be sent to your *IU e-mail account* when the bill is available on the Web for viewing and printing. Students may create access for parents and other third parties through QuikPAY which will also allow those users to view the bill on the Web. Connect to *OneStart* (<http://onestart.iu.edu>) to access your statement. Please refer to the Office of the

Bursar website at <http://bursar.indiana.edu> for additional details.

The account statement will show the course fees associated with **all** summer enrollment activity prior to the billing date. Tuition will be calculated and billed for all summer enrollment, regardless of session. It will also include the charges for any optional services requested and any other debts to the university. Refer to the electronic payment instructions available with your account statement for specific information on payment options.

■ Billing Cycle

Note: Dates are subject to change.

If you register between:	You can expect an e-mail notification by:	Your payment is due:
March 24 and April 16, 2010	April 19, 2010	May 10, 2010
April 17 and May 21, 2010	May 24, 2010	June 10, 2010
May 22 and June 18, 2010	June 21, 2010	July 10, 2010

■ Payment

To avoid a late payment penalty, the student's payment must be received in the Office of the Bursar by the due date specified on the bursar account statement.

Refer to the electronic payment instructions available with your account statement for specific information on payment options.

■ Late Payment Fee

A late payment fee will be assessed to the accounts of all students whose payments are not received in the Office of the Bursar by the due date printed on the account statement. A late payment fee will be assessed in each month your account remains unpaid. Refer to Late Payment Fee page for additional information.

If you have not received an e-mail notification of bill availability following the expected notification date noted on the billing cycle above, please access your online statement immediately through *OneStart*. Failure to receive the bill notification will not be accepted as a reason for missing any payment deadline.

■ Important Note about Withdrawal

Failure to pay does not withdraw you from all classes. Students who wish to cancel their Bloomington campus enrollment with the Office of the Registrar for a future term can do so up through the first week of classes via *OneStart* through the Student Center, *Register & Drop/Add* link. Should you decide not to attend the Bloomington campus for Summer 2010, you must follow the procedures for withdrawal from all courses given in the Enrollment Bulletin. *There is no automatic cancellation of your enrollment for nonpayment.* If you do not request that your registration be cancelled, you risk receiving grades of F in your courses. You will also be responsible for all course fees, plus any applicable late fees, through the time you complete a total withdrawal. (See Fee Refund Policy page in the Financial Information section.)

■ Financial Aid Recipients

After the student has registered for Summer 2010, the student's account statement will show anticipated financial aid awarded for the summer. The account statement available to the student will reflect the total to be paid by the student by the due date.

Actual financial aid awards will be credited to the student's account 10 days prior to the first day of classes of the earliest session in which the student is enrolled. If, for any reason, eligibility requirements are not met, the student will be responsible for payment and is subject to late payment fees and other

penalties.

Disbursement of Refunds

Financial aid awards will be credited to students' accounts and applied to their financial obligations to Indiana University. Any remaining amount will be refunded to the student via direct deposit to the student's chosen financial institution. Bursar refund checks, for those not participating in the direct deposit program, will be mailed to the student's housing or local address as noted on *OneStart*.

Other Registration Options

Auditors

The course department will determine the audit policy for each class. Please be aware that, in some cases, permission to audit a class will not be granted (see notes below).

Any student enrolling in all classes as an auditor (i.e., not taking any classes for credit) must obtain a registration form from the Office of the Registrar — Franklin Hall 100, *on or after the first day of classes*. The student must also obtain a signed audit authorization memo from each course department before reporting to the Office of the Registrar during the first week of classes. NOTE: After the first week of classes, a late registration fee will be assessed.

Any student enrolling in one or more classes for *credit* and wishing to enroll as an auditor in additional classes must obtain a signed audit authorization memo from the course department. This authorization must be received in the Office of the Registrar before registration will be processed.

NOTE: Classes taken for no credit (audit) are not counted as completed academic credit but are reflected on the student's grade report and the official permanent academic record with a grade of NC (no credit). Audit classes are also excluded from consideration for official IU certification purposes.

NOTE: Kelley School of Business undergraduate classes are not available for audit enrollment.

Independent Study Program/Distance Education

With permission from their dean, IU degree-seeking students have the option of taking distance education classes through the Independent Study Program. For further information about available classes, students may consult the *Independent Study University Courses* catalog, available in Owen Hall 005, by calling 855-2292, or by visiting the School of Continuing Studies Web site at <http://scs.indiana.edu>.

Enrollment Procedure

Students should obtain an enrollment form from the School of Continuing Studies, Office of Learner Services, Owen Hall 005. The form must be signed by the dean of the student's school. Completed forms should then be returned to Owen Hall 005, where students will pay their fees and receive class materials.

NOTE: Independent Study Program courses will not be considered for eligibility for full-time or half-time status when an official IU certification is requested.

Student Teacher Registration

Student teaching assignments are made by the Office of Student Teaching in the School of Education. Because students who participate in student teaching receive academic credit, it is necessary to register for this program as a student would for any other class.

Some student teaching and practicum classes may require permission/authorization. Contact Office of Teacher Education (856-8500) for additional information.

Special Information for Doctoral Students

Students who have completed all requirements for the doctorate except the dissertation and final examination are required to enroll in at least one hour of graduate credit each fall and spring term at the applicable resident or non-resident rate.

Students who enroll in one hour of thesis credit will be considered full-time students for certification purposes by the Office of the Registrar.

In addition, students who plan to complete the degree requirements during a summer session must enroll for that session in at least one hour of graduate credit. Students should contact their schools or divisions for specific details.

Drop/Add

OneStart Student Center - March 24 - May 17, 2010

The continuous drop/add feature is available through *OneStart* Student Center (<http://onestart.iu.edu>) from the beginning of Early Registration (March 24, 2010) through Monday, May 17, 2010. Classes begin on Tuesday, May 11, 2010.

Second Summer Session Drop/Add using *OneStart* Student Center is March 24 - June 24, 2010.

Procedure

The Drop/Add system is available through *OneStart* Student Center (see *OneStart* for hours of availability).

A drop/add access fee is assessed to students who choose to make schedule adjustments after two business days have elapsed since the initial registration. The fee is assessed for each calendar day during which the student makes schedule adjustment(s).

Fee Payment

Fees from registration and drop/add activity through April 16 are due on the published deadline: May 10, 2010. After April 16, any credits or charges resulting from waitlist processing or drop/add activity will be reflected on your next account statement.

If the drop/add activity produces a credit balance on the student's account, a refund will be directly deposited to the student's chosen financial institution. Bursar refund checks, for those not participating in the direct deposit program, will be mailed to the student at the student's housing or local address on file with the Office of the Registrar. (Use *OneStart* to maintain accurate addresses.)

If your credit-hour load changes after financial aid awards have been credited to your account, you may be required to repay part or all of the financial aid already received. Financial aid in process may also be reduced or cancelled.

Grades

Classes dropped during the first week of classes will not appear on transcripts.

Late Drop/Add

eDrop & eAdd

First Summer Session - Beginning May 18, 2010 **Second Summer Session - Beginning June 25, 2010**

Indiana University has developed an electronic drop and add (eDrop and eAdd) process to allow students to request class drops and adds via *OneStart*. **eDrop/eAdd** will be available from the second week of classes through the Automatic Withdrawal (Auto W) deadline.

NOTE: Students who are dropping all classes (including those enrolled in only one class) must follow procedures for withdrawal from the University (see Index).

Late fees:

A late schedule change fee will be assessed for *each* class *dropped* after the first week of classes. The late schedule change fee also applies to a class number (section) change, a change of arranged hours, or a credit/audit change.

Waiver of the late schedule change fee will be considered only when it can be clearly demonstrated that the University, through one of its offices or officials, is directly responsible for the late drop/add activity.

Grades

Classes dropped during Late Drop/Add will be assigned a grade of W through the last day for an automatic grade of W (see Official Calendar); thereafter, a grade of W or F must be assigned by the instructor.

After the automatic withdrawal period, a student may withdraw only with the permission of his or her dean. This approval is normally given only for urgent reasons related to extended illness or equivalent distress. Students should check with the office listed under "Late Drop/Add Forms Distribution" for their school's policy.

Note: A student who is found to have committed an act of academic misconduct while enrolled in a class and is assigned a grade of F by the instructor as a result of the misconduct will have a grade of F entered in place of the automatic W which would otherwise have applied. A grade of F recorded as a result of academic misconduct will be subject to the same procedures as if the student had not attempted to withdraw from the class.

eDrop

All students (except those in the School of Law) are eligible to use eDrop.

To access eDrop, log into *OneStart*. On the **Services** tab, select **Student Self-Service** in the sidebar. Select the **Late drop/add classes** link. See <http://registrar.indiana.edu/pdfs/eDrop.pdf> for detailed eDrop instructions.

NOTE

- Dropping classes could result in reduction or repayment of financial aid and additional tuition charges may apply.
- Submitting an eDrop request is not a confirmation that the course has been dropped from your schedule.
- Once submitted, your eDrop request will be routed to the appropriate advisor, department chair, and/or dean for approval.
- Once approved, your request will be processed and an e-mail confirming that the Drop is official will be sent to your University e-mail account.
- Until you receive an e-mail which says the Drop has been approved and processed, or until you confirm via "My eDocs," you are still enrolled in the course. All rules and requirements still apply, and you should continue to attend the class.

Any eDrop not approved or disapproved two weeks after the submission date will be disapproved by the Office of the Registrar.

eDrop/eAdd as a Pair

Using eDrop & eAdd together means that your requests are contingent upon one another. In order for both the drop and the add to process successfully, they must BOTH be approved. If either the drop or the add are not approved, neither request will be processed.

eDrop/eAdd as a pair will be available from the second week of classes through the Automatic Withdrawal (Auto W) deadline (see Official Calendar for dates).

Once submitted, eDrop & eAdd requests automatically route to the appropriate reviewers (instructors, advisors, department chairs, school deans, etc.) where they are able to take action electronically.

Once approved, the request will be processed and notification sent to you via your University e-mail account.

To access eDrop/eAdd, log into *OneStart*. On the **Services** tab, select **Student Self-Service** in the sidebar. Select the **Late drop/add classes** link.

Any eDrop/eAdd pair not approved or disapproved two weeks after the submission date will be disapproved by the Office of the Registrar.

eAdd

To access eAdd, log into *OneStart*. On the **Services** tab, select **Student Self-Service** in the sidebar. Select the **Late drop/add classes** link. See <http://registrar.indiana.edu/pdfs/eAdd.pdf> for detailed eAdd instructions.

NOTE

- Undergraduates may incur additional fees if they do not submit a drop and corresponding add together on the same form (whether electronic or paper).
- Once approved, the date you submit the eAdd request will be the date used to add the class. Fees will be determined based on that date.
- Adding classes that cause your schedule to go over the flat-fee 12-17 credit hour range can result in considerable financial assessments (Fall and Spring terms only).
- Submitting an eAdd request does not guarantee that the course will be added to your schedule.
- Once submitted, eAdd requests automatically route to the appropriate reviewers (instructors, advisors, department chairs, school deans, etc.) for approval.
- It is your responsibility to monitor the status of your eAdd request. You are not officially registered and your schedule will NOT change until your request is approved and the class is added to your class schedule.
- If your eAdd request is approved, it will be processed and a confirmation will be sent to your University e-mail account.
- If there is a problem with your request or additional information is required, you will be notified via your University e-mail account.

Any eAdd not approved or disapproved two weeks after the submission date will be disapproved by the Office of the Registrar.

Late Drop/Add

First Summer Session - Beginning May 18, 2010

Second Summer Session - Beginning June 25, 2010

Office of the Registrar - Franklin Hall 100 (9 a.m. - 4 p.m.)

NOTE: Students who are dropping all classes (including those enrolled in only one class) must follow procedures for withdrawal from the University (see Index).

Late fees:

A late schedule change fee will be assessed for *each class dropped* after the first week of classes. The late schedule change fee also applies to a class number (section) change, a change of arranged hours, or a credit/audit change.

Waiver of the late schedule change fee will be considered only when it can be clearly demonstrated that the University, through one of its offices or officials, is directly responsible for the late drop/add activity.

Grades

Classes dropped after Late Drop/Add will be assigned a grade of W through the last day for an automatic grade of W (see Official Calendar); thereafter, a grade of W or F must be assigned by the instructor.

After the automatic withdrawal period, a student may withdraw only with the permission of his or her dean. This approval is normally given only for urgent reasons related to extended illness or equivalent

distress. Students should check with the office listed below under "Late Drop/Add Forms Distribution" for their school's policy.

Note: A student who is found to have committed an act of academic misconduct while enrolled in a class and is assigned a grade of F by the instructor as a result of the misconduct will have a grade of F entered in place of the automatic W which would otherwise have applied. A grade of F recorded as a result of academic misconduct will be subject to the same procedures as if the student had not attempted to withdraw from the class.

Exception (Paper) Procedure

1. Obtain late drop/add forms (i.e., final schedule adjustment form or change of class—same course) from the appropriate location (see forms distribution table below). Complete all requested student and class information.

Fee Payment

A late schedule change fee will be assessed for each course dropped after the first week of classes. The late schedule change fee also applies to a class number change, a change of arranged hours, or a credit/audit change.

No payments will be due nor any refunds made until the next monthly bills are generated. If the drop/add activity produces a credit balance on a student's account, a refund will be directly deposited to the student's chosen financial institution or a check will be mailed to the student at the student's housing or local address on file as noted on *OneStart*.

Please refer to the Drop/Add Policy for graduate and undergraduate students in the Financial Information section of this bulletin.

General Registration Information

Registration Service Denials (Holds)

Academic checklist entries, immunization noncompliance, residence-classification status, and financial encumbrances will prevent you from registering for classes until you take corrective action. These entries, if any, are reflected on *OneStart* (<http://onestart.iu.edu>). If *OneStart* reflects any holds, you must obtain a release for each entry. If *OneStart* reflects any immunization noncompliance holds, you must provide immunization data to the Office of the Registrar. If *OneStart* reflects an account encumbrance by the Office of the Bursar or by the Student Loan Administration, you must make payment and/or be cleared by the appropriate office.

Registration Appointments

Registration appointment dates and times are displayed on *OneStart*. Students are scheduled for

registration appointments based upon total hours passed and transfer hours accepted at each student's current program. Students with the greatest number of hours at their current level/current program will have the earliest appointments. Students may register any time after their registration appointment and may have a proxy register for them at or after their scheduled time.

Prerequisites

Many course sections have mandatory prerequisites which are listed in the school bulletins or in the online Schedule of Classes. *Each student is responsible for meeting the published prerequisites for each course requested.* After each registration period, schools and departments may review the completion of prerequisites of enrolled students. The academic units have the authority to administratively drop a student from a course for which the student has not fulfilled the published prerequisites.

Immunization Data Collection Requirement

A 1995 Indiana state law requires students to provide immunization data, or proof of religious exemption, to the Office of the Registrar. Students who do not comply with this requirement will be prevented from registering for future terms/sessions. See the Immunization Data Collection Policy page in this bulletin or link to <http://registrar.indiana.edu/immunization.shtml> for more information on immunization requirements.

Related Components

Students who register for classes that are structured with credit (usually lecture) and non-credit (usually discussion, laboratory, etc.) components should make a selection from each type of related component. The registration system will lead the student through the selection process.

Withdrawal from the University (All Courses)

Policy and Procedures

Through the first week of the term, students can withdraw from the University without penalty by dropping all classes using the Drop/Add link on *OneStart* Student Center. *After dropping all classes, it is a good idea to print a copy of your Class Schedule to be sure all classes were successfully dropped.*

After the first week of the term, students who are forced to discontinue all studies (even if enrolled in only one course) and withdraw from the University must contact the Student Advocates Office in Owen Hall 202, in order to complete the withdrawal process.

Note: The Student Advocates Office may move to a new campus location after June 1, 2010. Please call 812-855-0761 to confirm the new location after June 1, 2010.

Please note the following exceptions:

International students must go to the Office of International Services in Franklin Hall 306; Law students must go to room 024 of the Law School; and University Division students should read the Drop all Classes website (http://ud.iub.edu/cs_dropadd_4.php?nav=cs_dropadd), and follow instructions. All other students must withdraw through the Student Advocates Office. Failure to withdraw from the University through the appropriate office may result in grades of F in all courses.

If a student withdraws after the first week of classes, the classes in which the student was enrolled will be retained on the student's record with a grade of W or F (as appropriate) and a notation of the date of withdrawal. The student should refer to the Official Calendar to determine the last day to withdraw with an automatic grade of W.

To qualify for the grade of W after the deadline, a student must be passing the class(es) on the date of withdrawal. If the student is failing, the grade on the date of withdrawal will be F.

Students should consult the Official Calendar in this publication to determine the period in which they can withdraw and still receive a full or partial fee refund.

Note: A student who is found to have committed an act of academic misconduct while enrolled in a class and is assigned a grade of F by the instructor as a result of the misconduct will have the grade of F entered in place of the automatic W which would otherwise have applied. A grade of F recorded as a result of academic misconduct will be subject to the same procedures as if the student had not attempted to withdraw from the class.

General Registration Information

Pass/Fail Option

Students should consult their school bulletins to determine eligibility and restrictions on the pass/fail options. The responsibility for approval of the pass/fail requests, as well as special regulations affecting the option, will rest with the deans of the students' schools or divisions, under procedures established by the schools or divisions.

Students interested in taking classes under the pass/fail option should obtain pass/fail option forms from the deans of their schools. Undergraduate students in the College of Arts and Sciences should obtain the forms from their advisors in their major departments. Kelley School of Business students are required to meet with an advisor in order to gain authorization for taking a course pass/fail; the advisor will fill out and submit the pass/fail form. University Division students should read the Pass/Fail Option website (http://ud.iub.edu/recordoffice_9.php?nav=recordoffice), and follow instructions. Students in the School of Continuing Studies should obtain the form from the counselor in Maxwell Hall 020. All students should fill out the pass/fail option forms in full, obtain the appropriate signatures, and return them to the office of the deans of their schools by the published date (see the Official Calendar for more information).

Instructors will not be notified by the Office of the Registrar about those students registering for the option. A grade of P is not counted in grade averages; a grade of F is included. A grade of P cannot be changed subsequently to a grade of A, B, C, or D.

Grade of Incomplete

A student who has received a grade of Incomplete (I) should not register for the course a second time, but should arrange with the instructor to have the I changed to a letter grade upon completion of all requirements.

General Registration Information - Full-Time Student Status and Enrollment Requirements

Full-Time Student Status for Official Enrollment Certification Purposes

Listed below are the requirements that constitute full-time student status for official enrollment certification purposes by the Office of the Registrar and for financial assistance.

The Office of the Registrar is responsible for determining standards for full and half-time enrollment and if an exception to those standards can be made. Questions regarding exceptions should be directed to the Office of the Registrar.

A student who is working on an undergraduate degree that requires 120 to 128 credit (unit) hours for completion of requirements should expect to complete 15 or 16 credit (unit) hours during regular semesters in order to complete degree requirements in eight semesters. See your advisor for more specific information regarding academic full-time credit (unit) hour recommendations for your program.

Note that correspondence courses will not be counted toward credit (unit) hour totals.

General Registration Information

Absence during the Last Portion of a Term

Failure to complete a class without an authorized withdrawal will result in the grade of F.

If a student is not in attendance during the last portion of a semester, the instructor may report a grade

of I (Incomplete) if there is reason to believe that the absence was beyond the student's control; otherwise the instructor shall record an FN (Failure, non-attendance) and the last date of documented class attendance. FN is converted to F on the student's academic record.

Residence Classification

Students returning to Indiana University after an absence of twelve or more consecutive months will need to provide additional information to the Office of the Registrar in order to clarify their residence status for fee-paying purposes. This information concerns employment, residential addresses and enrollment at other institutions of higher education during the period since their last semester enrolled on any campus of Indiana University. Following registration for each session, a residence audit of the enrollment files will identify returning students. An e-mail request will be sent to those returning students who have not yet submitted the electronic *Residence Classification Form for Fee-Paying Purposes at Indiana University* form.

CampusAccess ID Cards

Indiana University *CampusAccess* ID Cards are available for IUB registered students at the Campus Card Service Centers located in the Indiana Memorial Union from 8:30 a.m. to 4:30 p.m. and in Eigenmann Hall from 8:00 a.m. to 5:00 p.m., Monday through Friday. At least one form of photo-identification will be required to confirm identity. Telephone (812) 855-8711 or visit the website at <http://www.cacard.indiana.edu> for additional information.

University ID Number and Social Security Number

To help maintain the privacy of students' Social Security numbers, the Student Information System (SIS) uses a random primary identifier for student records called the University ID (UID). The UID has replaced the Student Identification Number (often the Social Security number) as the key to student records.

While the Social Security number (SSN) is no longer the record key, it remains an important identifier for a student. As permitted by Indiana Code 4-1-10, the last four digits of the SSN may be used to uniquely identify admission applications, registrations, course enrollment documents, transcripts, certification requests, and permanent academic records. The full nine-digit SSN is also necessary to determine financial aid eligibility and is a required identifier for federal grants and loans, and other federal financial aid programs.

In accordance with the Privacy Act of 1974 and Indiana Code 4-1-8, applicants for admission and enrolled students are advised that the requested disclosure of the Social Security number is voluntary. The applicant or student has the right to refuse disclosure of this number or request its removal from records without penalty. Note, however, that refusal to disclose the Social Security number would make a student ineligible for participation in federal financial aid programs.

Final Examinations

Examination Policies (Bloomington Faculty Council)

Final Examination Policy

When required, final examinations will be given at the last class meeting or at a time appointed by the instructor.

By action of the Bloomington Faculty Council, the following rules regarding conflicts, absences, and academic ethics apply:

More Than Three Exams in One Day

In the event of more than three exams in one day, the instructor/department of the fourth and subsequent exams is obligated to adjust the student's exam time, provided the student notifies them by

the mid-point of the semester.

In the event a student is scheduled to take more than three final examinations on the same day, the student may exercise the following options:

1. Take all final examinations as they are scheduled;
2. Consult with the instructors or departments giving the final examinations to determine if any make-up examination(s) is or can be scheduled. If no make-up examination is available, then the student must notify the instructor or department of the course scheduled for the fourth (and additional) final examination of the day. That instructor or that department will then be obligated to adjust the student's final examination schedule, provided the student has notified that instructor or department before the halfway point of the session.

Conflicts

Students having examination conflicts must report to the dean of the school in which they are enrolled.

Absence

Students who anticipate absences from final examinations, or who are absent from final examinations for reasons they did not anticipate, should discuss these absences with their instructors as soon as possible to make arrangements for the satisfaction of course requirements. Instructors may require students who are absent from final examinations to file a written explanation of the absence with the Dean of Students Office (Franklin Hall 200). The Dean of Students Committee on Absence will review these written explanations and seek additional information, as necessary, before indicating its findings to the instructors involved. The final decision in the dispensation of these matters remains the instructor's.

Financial Information

Fee Payment Information

See Fee Payment under instructions for each registration period.

Inquiries should be directed to the Office of the Bursar, Indiana University, Franklin Hall 011, 601 E. Kirkwood Avenue, Bloomington, Indiana 47405-1223. E-mail: bursar@indiana.edu; phone: (812) 855-2636.

Note: All tuition and fees are subject to change without notice by action of the Trustees of Indiana University.

Account Encumbrance

The Office of the Bursar is responsible for the collection of University financial obligations. An account that is past due is encumbered by the Office of the Bursar. The Student Loan Administration may also encumber the accounts of students or former students who have not satisfied their obligations to that department. A student whose account is encumbered will be denied certain University services (e.g., registration, transcripts).

Late Payment Fee

University policy requires timely payment for all charges owed to Indiana University, including but not limited to, tuition and fees, Department of Residential Programs and Services charges, Health Center charges, library and parking fines, and late fees. Any payment due by you to the University that is not received by the due date is subject to a late fee of 1.5%, with a \$2.00 minimum, of the unpaid amount.

Thereafter, should any portion of your account remain unpaid, a late fee will continue to be assessed each month according to the above schedule.

Timely payment of your account with approved financial aid, personal check (unless restricted), cash, or Web payment will ensure that you avoid the monthly late fee assessment and keep your account in good standing.

Financial Information

Fee Policy Appeals

Students have the right to submit an appeal of the refund policy if there are significant or unusual circumstances that cause them to drop a course or withdraw from all courses after the refund period. Students may also appeal the assessment of late fees or penalty fees in cases of extenuating circumstances or University error. The procedure for filing an appeal is:

1. After dropping the course or withdrawing from all courses, obtain the necessary appeal form online at <http://bursar.indiana.edu> by choosing the Fee Policy Appeal Form from the Forms section. You must drop the course or withdraw from all courses before an appeal can be considered.
2. Submit the appeal form to the Office of the Bursar. Once submitted, the appeal is forwarded to the Fee Policy Appeals Committee for consideration.
3. Once a committee decision has been rendered, that decision will be communicated to the student in writing.

A request for appeal must be submitted within one year following the end of the term or session for which relief is being sought.

IU Fee Courtesy Plan

Full-time Academic and Staff appointed by the end of the first full week of the semester or session, for the associated fall/spring semester or first summer session. IU Fee Courtesy Plan benefits apply to

covered employees and their spouses, qualified domestic partners, and qualified children. IU Fee Courtesy Plan benefits provide a subsidy for tuition costs, but do not apply to mandatory fees or special fees, such as laboratories, applied music, student teaching, education early experience, dissertation research fee (G901 and B798), or rental of special equipment and facilities and fees for non credit courses.

Provisions of the IU Fee Courtesy Plan can be obtained at the University Human Resource Services office or <http://www.indiana.edu/~uhrs/benefits/tuition.html>. Application forms can be printed at http://www.indiana.edu/~uhrs/pubs/forms/feecourtesy/FeeCourtesyEnroll_09-10.pdf or obtained from the University Human Resource Services office (855-1286). Return completed forms to University Human Resource Services, Bloomington Campus, Poplars Building E165.

Returned Checks or Web ACH Payments

The return by any financial institution of a dishonored payment (check or Web ACH) issued to Indiana University will result in the assessment of a per payment service charge against the issuer's account (or against the account of the student on whose behalf the payment was presented). The returned payment service charge, as authorized by Indiana law, is \$27.50 or five percent of the payment, whichever is greater, not to exceed \$250. Two or more dishonored payments will result in the requirement that all future University payments be made with guaranteed funds (cashier's check, money order, or cash).

Checks or Web ACH payments used to relieve an encumbrance which are subsequently returned by the financial institution will automatically result in the requirement that all future University payments be made with guaranteed funds. In addition, the University reserves the right to cancel the student's enrollment in this situation.

Collection of Past Due Accounts

If any bursar account is past due, the Office of the Bursar will attempt contact for payment. Where appropriate, the outstanding balance may be reported to the credit bureau as a delinquent account and placed with an outside collection agency. If the University or its agent is unable to obtain satisfactory payment arrangements, the student or account holder could face litigation, wage garnishment, and/or loss of income tax refunds. Students or account holders will be liable for all reasonable collection costs, including agency and attorney fees, necessary for the collection of a past due account.

E-mail as Official IU Communication

The University reserves the right to send official communications to students by e-mail with the full expectation that students will receive e-mail and read these e-mails in a timely fashion. Official university e-mail accounts are available for all registered students. Official university communications will be sent to students' official university e-mail addresses. For IU-Bloomington, this is the *@indiana.edu* address.

Students are expected to check their e-mail on a frequent and consistent basis in order to stay current with university-related communications. In addition to their university e-mail account, students should also check for course-related e-mail within Oncourse. The same user ID and password are used for Oncourse and the university e-mail system. For more information about Oncourse, visit <http://oncourse.iu.edu>.

Students who choose to have their e-mail forwarded from their official university e-mail address to another address do so at their own risk. The University is not responsible for any difficulties that may occur in the proper or timely transmission or access to e-mail forwarded to any other address, and any such problems will not absolve students of their responsibility to know and comply with the content of official communications sent to their official IU e-mail addresses. Instructions on setting up or cancelling the forwarding of e-mail may be found by visiting <http://itaccounts.iu.edu>.

Connecting to the IU Computing Network

University Information Technology Services (UITS) is the information technology support organization at IU, dedicated to helping you succeed academically by providing an extensive and varied computing environment and nationally recognized computing support. You get:

- Online resources through *OneStart*, the gateway to many university services
- Computing accounts for using e-mail, printing, storing files, and hosting Web pages
- Free and low-cost software including Microsoft Office, Adobe products, Norton/Symantec AntiVirus, EndNote and Visual Studio Professional
- Almost 100 technology centers with Windows, Mac, and Unix/Linux workstations
- High-speed Ethernet connections in every campus residence and wireless network access in most areas on campus
- A wireless network that covers virtually the entire campus
- Free workshops, 24-hour help desks, online support, and publications
- IT news and updates via the Web, by e-mail, and RSS feeds

To use UITS resources, you'll need a Network ID, which you should have received when you first enrolled.

Connecting from Student & Residential Technology Centers

You can use over 2,000 workstations in dozens of Student Technology Centers (STCs) and Residential Technology Centers (RTCs). There you can check e-mail, use OneStart, surf the Web, use popular software, and print using your printing allotment. Helpful consultants staff many STCs and RTCs.

IMPORTANT: Don't forget to log out of the workstation you've been using in a STC or RTC when you are done. Failing to do so is a serious security risk to both you and the University.

Connecting from your campus residence

UITS provides you with a high-speed Ethernet computer connection in your campus residence, as well as wireless network access via IU Secure. You can connect to the network using your computer already equipped with an Ethernet or wireless network card. To automatically configure your computer for network connection, visit getconnected.iu.edu and follow the directions provided.

Connecting using wireless (Wi-Fi)

With your laptop and wireless network card, you can connect to the wireless network in most locations across campus. The IU Secure network is the new secure wireless option, so be sure to select it from the available wireless networks that appear. For help connecting and configuring your laptop, contact UITS.

Connecting from off campus

If you live off campus, see if your apartment complex offers Ethernet connections or contact a local broadband (cable or DSL) service provider. In both cases you'll need a network card. You may need to authenticate using VPN to use some university services through such a provider. Contact UITS for instructions.

If you don't use a broadband provider, you'll need a 56K V.90 modem in your computer to dial into the university network. You'll find software and instructions for connecting via modem on IUware Online.

Student e-mail

Indiana University has partnered with Microsoft and Google to offer students two options for e-mail and other online communication services: Imail powered by Microsoft and Umail powered by Google. Students can select one or both of these options, while choosing one as an official e-mail account. If you don't already have an Imail or Umail account, see: <http://kb.iu.edu/data/avtf.html>.

Need help?

If you have questions about your Network ID or any UITS services, stop by the UITS Support Center in the Herman B Wells Library Information Commons, call 855-6789, e-mail ithelp@iu.edu, or visit <https://ithelplive.iu.edu>.

School of Continuing Studies

Independent Study Program/ Distance Education

With permission from their dean, IU degree-seeking students have the option of taking distance education courses through the Independent Study Program. For further information about available courses, students may consult the *Independent Study University Courses* catalog, available in Owen Hall 005, by calling 855-2292, or by visiting the School of Continuing Studies website at <http://scs.indiana.edu>.

Enrollment Procedure

Students should obtain an enrollment form from the School of Continuing Studies Office of Learner Services, Owen Hall 005. The form must be signed by the dean of the student's school. Completed forms should then be returned to Owen Hall 005 where students will pay their fees and receive course materials. **These classes are not available for Registration via OneStart Student Center.**

Note: Independent study courses will not be considered for eligibility for full or half-time status when an official IU certification is requested.

A detailed listing of Independent Study/Distance Education courses is available from the School of Continuing Studies website at <http://scs.indiana.edu/univ/selfpacedcourses.php>.

Waiver of Requirements

Although this bulletin does not define the requirements for degrees offered on the Bloomington campus, all students should be familiar with the policy regarding requests for waivers:

Requests for deviation from department, program, or school requirements may be granted only by written approval from the respective chairperson, director, or dean (or their respective administrative representative). Disposition at each level is final.

Academic Deans' Office Hours

Offices of the academic deans are open Monday through Friday, generally from 9 a.m.-12 noon and 1 p.m.-4 p.m., and are closed Saturday and Sunday. Most student academic problems can be resolved by the dean's office. If you need to see a dean personally, it will be better to call in advance to make an appointment.

Academic Freedom

Academic Freedom University Faculty Council Action (Approved May 17, 1966; Amended November 30, 1976)

Academic freedom, accompanied by responsibility, attaches to all aspects of a teacher's and librarian's

professional conduct. The teacher and librarian shall have full freedom of investigation, subject to adequate fulfillment of other academic duties. No limitation shall be placed upon the teacher's and librarian's freedom of exposition of the subject in the classroom, or library, or on the expression of it outside.

The teacher should not subject students to discussion in the classroom of topics irrelevant to the content of the course. No censorship shall be imposed on the librarian's freedom to select and make available any materials supporting the teaching, research, and general learning functions of the academic community. In public utterances the teacher and librarian shall be free of institutional control, but when either the teacher or librarian writes or speaks as a citizen, an endeavor should be made to avoid appearing as a spokesman for the university. The teacher or librarian should recognize that a professional position in the community involves the obligation to be accurate, to exercise appropriate restraint, and to show respect for the right of others to express their views.

Cases involving alleged impairment of academic freedom shall be referred to the appropriate Board of Review and dealt with according to established procedure.

Code of Academic Ethics

NOTE: Some of these dates refer to changes in the Code of Student Rights, Responsibilities, and Conduct.

Preamble

The central functions of an academic community are learning, teaching, and scholarship. They must be characterized by reasoned discourse, intellectual honesty, mutual respect, and openness to constructive change. By accepting membership in this community, an individual neither surrenders rights nor escapes fundamental responsibilities as a citizen, but acquires additional rights as well as responsibilities to the entire University community. They do not require the individual to be passive and silent. They do require recognition of how easily an academic community can be violated.

Introduction

Applicability. The provisions of this Code apply to persons whose service to the University includes teaching, scholarship, librarianship and academic administration. Such persons are referred to in the Code as "Academic Personnel." References in the Code to "Faculty" include tenured members of the faculty, librarians, and persons whose service to the University may lead to tenure.

Organization. This Code contains two major sections: first, a statement of rights and responsibilities; and second, a statement of enforcement procedures. The first section is divided into three subsections. Of these, the first subsection, in seven parts, is a general statement of the rights and responsibilities of Academic Personnel adapted from the "Statement of Professional Ethics" adopted as policy by the American Association of University Professors in April, 1966. The second subsection consists of representative responsibilities assumed with academic employment at Indiana University. The third subsection consists of the Rules of Conduct outlined in the prevailing *Code of Student Rights, Responsibilities, & Conduct*. It is assumed that academic personnel will accept without reservation those rules of conduct which are generally applicable within the University community and which are expressed at the moment within the student code.

The second section is also divided into three subsections. The first subsection deals with initiation of complaints, the second with appropriate administrative actions, and the third with reviews of administrative action.

NOTE: Some of these dates refer to changes in the Code of Student Rights, Responsibilities, and Conduct.

A. Rights and Responsibilities

I. General Statement

Scholarship. A scholar recognizes a primary responsibility to seek and to state the truth without bias. Striving to improve scholarly competence; continuing always to keep abreast of knowledge of his or her discipline; the scholar exercises critical self-discipline and judgment in using, extending, and transmitting knowledge, and practices intellectual honesty. Although subsidiary interests may be followed, these must never seriously hamper or compromise freedom of inquiry.

Teaching. A teacher encourages the pursuit of learning in students, holding before them the best scholarly standards of the discipline. Respecting students as individuals, the teacher seeks to establish a relationship of mutual trust, and adheres to the proper role as intellectual guide and counselor. The teacher makes every effort to foster honest academic conduct and to assure that the evaluation of students' scholastic performance reflects their true achievement, with reference to criteria appropriate to the field of study. Any exploitation of students for private advantage is rejected and their significant assistance is acknowledged. The teacher protects their academic freedom and serves as an example of this principle by assuring that each student and colleague is free to voice opinions openly and to exchange ideas free from interference.

Librarianship. A librarian in the academic community is responsible for the collection and dissemination of information and materials and for services pertaining thereto in support of the teaching, research and general learning functions to the university. A librarian is obligated to keep abreast of the latest developments in the profession and with processes and services to improve library service.

Relations with Colleagues. As colleagues, academic personnel have obligations that derive from common membership in the community of scholars. Such persons respect and defend the free inquiry of their associates. In the exchange of criticism and ideas, they show due respect for the opinions of others. They acknowledge their academic debts and strive to be objective in their professional judgment of colleagues. They accept their share of responsibility for the governance of the University.

Relations with Students. With regard to relations with students, the term "faculty" or "faculty member" means all those who teach and/or do research at the University including (but not limited to) tenured and tenure-track faculty, librarians, holders of research, lecturer, or clinical appointments, graduate students with teaching responsibilities, visiting and part-time faculty, and other instructional personnel including coaches, advisors, and counselors.

The University's educational mission is promoted by professionalism in faculty/student relationships. Professionalism is fostered by an atmosphere of mutual trust and respect. Actions of faculty members and students that harm this atmosphere undermine professionalism and hinder fulfillment of the University's educational mission. Trust and respect are diminished when those in positions of authority abuse or appear to abuse their power. Those who abuse their power in such a context violate their duty to the University community.

Faculty members exercise power over students, whether in giving them praise or criticism, evaluating them, making recommendations for their further studies or their future employment, or conferring any other benefits on them. All amorous or sexual relationships between faculty members and students are unacceptable when the faculty member has any professional responsibility for the student. Such situations greatly increase the chances that the faculty member will abuse his or her power and sexually exploit the student.

Voluntary consent by the student in such a relationship is suspect, given the fundamental asymmetric nature of the relationship. Moreover, other students and faculty may be affected by such unprofessional behavior because it places the faculty member in a position to favor or advance one student's interest at the expense of others and implicitly makes obtaining benefits contingent on amorous or sexual favors. Therefore, the University will view it as a violation of this Code of Academic Ethics if faculty members

engage in amorous or sexual relations with students for whom they have professional responsibility, as defined in number 1 or 2 below, even when both parties have consented or appear to have consented to the relationship. Such professional responsibility encompasses both instructional and non-instructional contexts.

1. *Relationships in the Instructional Context.* A faculty member shall not have an amorous or sexual relationship, consensual or otherwise, with a student who is enrolled in a course being taught by the faculty member or whose performance is being supervised or evaluated by the faculty member.
2. *Relationships outside the Instructional Context.* A faculty member should be careful to distance himself or herself from any decisions that may reward or penalize a student with whom he or she has or has had an amorous or sexual relationship, even outside the instructional context, especially when the faculty member and student are in the same academic unit or in units that are allied academically.

Relation to the University. Indiana University is committed to the concept of academic freedom and recognizes that such freedom, accompanied by responsibility, attaches to all aspects of a teacher's or librarian's professional conduct. Within this context, each person observes the regulations of the University, and maintains the right to criticize and to seek revision and reform. A teacher or librarian determines the amount and character of work done outside the University with due regard to paramount responsibilities within it. When considering interruption or termination of service, the teacher or librarian recognizes the effect of the decision upon the program of the University and gives due notice. Above all, he or she strives to be an effective teacher, scholar, librarian, or administrator.

Relation to the Community. As members of the community, academic appointees have the rights and obligations of any citizen. They should measure the urgency of these obligations in the light of their responsibilities to their subject, to their students, to their profession, and to the University.

When they speak or write as citizens, they are free from institutional censorship or discipline. At the same time, their positions as members of a university and of a learned profession impose special responsibilities.

When they speak or act as private persons, they will make it clear they are not speaking or acting for the University. They will also remember that the public may judge their profession and the University by their utterances and conduct, and they will take pains to be accurate and to exercise restraint.

NOTE: Some of these dates refer to changes in the Code of Student Rights, Responsibilities, and Conduct.

A. Rights and Responsibilities

II. Specific Responsibilities

In addition to the preceding general statements of ethical performance within the academic profession, there are specific responsibilities that devolve upon the academic appointee who accepts a position at Indiana University. Observance of such responsibilities as the following is also a component of academic ethics.

1. A teacher will maintain a clear connection between the advance description and the conduct and content of each course presented to ensure efficient subject selection by students.
2. A teacher will clearly state the course goals and will inform students of testing and grading systems; moreover, these systems should be intellectually justifiable and consistent with the rules and regulations of the academic division.

23. A teacher will plan and regulate class time with an awareness of its value for every student and will meet classes regularly.
24. A teacher will remain available to students and will announce and keep liberal office hours at hours convenient to students.
25. A teacher will strive to develop among students respect for others and their opinions by demonstrating his or her own respect for each student as an individual, regardless of race, sex, national origin, religion, age, or physical handicap.
26. A teacher will strive to generate a proper respect for an understanding of academic freedom by students. At the same time, a teacher will emphasize high standards and strive to protect students from irrelevant and trivial interruptions or diversions.
27. Since letters of evaluation written by a teacher may be uniquely important documents in both the academic and post-university life of a student, each teacher will strive to make such letters both candid and fair.
28. A librarian recognizes the need for continual development, maintenance and improvement of standard and specialized bibliographical resources.
29. A librarian cooperates with the teaching and research faculty to develop the collection in support of the curricular offerings of the academic community.
30. A librarian recognizes intellectual and professional obligations to the patron, the university and the community at large.
31. A librarian has an obligation to recommend and make improvements in library service.
32. A librarian accepts the responsibility for the care and preservation of library materials.
33. Academic personnel will strive to protect not only their own right of freedom of inquiry, teaching, and expression but also their colleagues' right to the same freedoms.
34. In the interest of avoiding actual or perceived conflict of interest, academic personnel shall not directly supervise employees with whom they are having sexual or amorous relationships. Academic supervisors shall disqualify themselves from employment-related decisions concerning such employees and, in consultation with the employee involved and other appropriate persons, the Dean of the Faculties or other equivalent campus administrator shall take steps for the appointment of a surrogate supervisor.
35. While in the classroom, academic personnel should refrain from adverse personal comments about their colleagues. At all times, academic personnel should exercise restraint and discretion in comments about other courses or divisions in the University.
36. Constructive criticism of colleagues is sometimes necessary in the interest of the individual criticized or the entire University community. To be constructive, however, such criticism should be channeled, in confidence, toward those persons (preferably the individual concerned, but also academic superiors, faculty committees, or administrative officers) who have the power to correct or influence conduct in a constructive way. Indiscriminate criticism or gossip about colleagues is condemned.
37. Each academic person retains the right to criticize and to seek to remedy, by appropriate means, regulations and policies of the University. Among means deemed inappropriate are: acts of physical violence against members or guests of the University community; acts which interfere with academic freedom, freedom of speech, or freedom of movement; and acts of destruction of University property. It is equally inappropriate to advise others to commit such acts.
38. If criticizing the University, the academic person should be aware of ameliorative procedures which exist within the University and should use these procedures in preference to conducting public criticisms of the institutions or any of its divisions.
39. Each academic person will insure that outside commitments do not interfere in terms of time, energy, or conflict of interest with obligations to the University. As a safeguard against such interference, each will:
 - a. report to an appropriate authority plans to engage in gainful activities of an extensive, recurring, or continuing nature; and
 - b. notify an appropriate authority of any invitation to serve as advisor or consultant to an agency granting money to the University.
40. He or she will give adequate notice of interruption or termination of service. In order that instructional programs will not be interrupted, before leaving, the academic person will:

- a. complete all normal duties;
 - b. provide complete records of grades and similar data to departmental chairpersons; and
 - c. provide properly for incomplete class and thesis work.
41. He or she will work with colleagues individually and collectively toward furthering both personal and group interests so long as such cooperation does not require violation of intellectual and moral integrity.
 42. Each academic person will accept a share of the obligation for helping the University function smoothly as a living and vigorous organization. Toward achieving this goal, each will serve on committees, accept a reasonable burden of administrative duties, and work cooperatively with administrative officers of the University in order to further all the legitimate goals of the institution.

Alcohol and Drug-Free Campus Policy

In compliance with the Drug-Free Workplace Act of 1988 (41 U.S.C. § 701 *et seq.*) and the Drug-Free Schools and Communities Act of 1989 (20 U.S.C. § 1011i), the following policy shall govern the conduct of all University students and employees (including but not limited to faculty, appointed and hourly employees, and student-hourly employees) on all campuses and workplaces controlled by Indiana University.

1. The unlawful manufacture, distribution, dispensation, possession or use of a controlled substance (usually referred to as illegal drugs listed under the federal Controlled Substances Act) and alcohol is prohibited on University property or in the course of a University activity.
2. As a condition of employment with Indiana University, University employees are required:
 - a. to abide by the prohibition contained in paragraph 1, above; and
 - b. to notify the campus Provost in the event they are convicted under any criminal drug statute for a violation occurring on University property, no later than five days after such conviction.
3. Any University employee found to be under the influence of alcohol or a controlled substance while on University property, or in the course of a University activity, is subject to disciplinary action described in paragraph 5, below.
4. Any University employee convicted of a criminal alcohol violation or of a violation of the criminal drug statutes occurring on University property is subject to disciplinary action described in Paragraph 5, below.
5. Consistent with local, state and federal law, and with applicable Indiana University policies and procedures, Indiana University will discipline students and employees who violate this Alcohol and Drug-Free Campus Policy up to and including expulsion, termination of employment, and/or referral for prosecution. Discipline may also include the completion of an appropriate rehabilitation program.
6. Any employee whose use of alcohol or of controlled substances away from the University can reasonably be established to be the cause of poor attendance or performance problems may be counseled to seek rehabilitation from available University or community resources. See the University's publication "Procedure for Handling Alcohol and Drug Abuse Among Staff Employees" or the local telephone directory for a list of available resources.
7. When notice of a criminal drug statute conviction for a violation occurring on University property is received, the campus Provost's office will coordinate compliance with the reporting requirements of the Drug-Free Workplace Act of 1988, and Executive Order 90-5, April 12, 1990, issued by the Governor of Indiana.
8. Each campus Human Resources Office shall maintain and periodically publish for its campus a list of available University and community resources for alcohol or drug abuse assistance or rehabilitation programs. In addition, each campus Human Resources Office shall provide employees with information about the dangers of alcohol or drug abuse in the workplace.
9. Students may obtain information regarding drug or alcohol counseling, treatment, or rehabilitation programs from Indiana University's Alcohol-Drug Information Center, Student Health Center, Counseling and Psychological Services, or Dean of Students Office.

Criminal Penalties—Alcohol and Drugs

The following information is provided with regard to state and federal criminal penalties related to alcohol and drug possession or use.

Conviction under state and federal laws that prohibit alcohol-related and drug-related conduct can result in fines, confiscation of automobiles and other property, loss of one's driver's license, and imprisonment. In addition, licenses to practice in certain professions may be revoked, and many employment opportunities may be barred.

It is impractical to list all the alcohol and drug-related state and federal crimes and penalties. But all persons should be aware that in Indiana any person under 21 who possesses an alcoholic beverage, and any person who provides alcohol to such person, is at risk of arrest. Any person who is intoxicated in public risks arrest. A person convicted of driving while intoxicated may be punished by fine, be jailed, and lose his or her driver's license. Any selling of alcoholic beverages without a license is illegal.

Possession, or use, distribution, or manufacture, of controlled substances (drugs) illegally can result in arrest and conviction of a drug law violation and:

- fines up to \$10,000 (Indiana)
- fines up to \$4 million (federal)
- imprisonment up to 50 years (Indiana)
- imprisonment up to life (federal); and
- confiscation of property.

Health Risks Associated with Alcohol and Controlled Substances (Drugs)

The following information is provided with regard to the health risks caused by the use of alcohol, and by the illegal use of controlled substances (drugs).

- Consumption of more than two average servings of alcohol in several hours can impair coordination and reasoning, and make driving unsafe.
- Consumption of alcohol by a pregnant woman can damage the unborn child. A pregnant woman should consult her physician about this risk.
- Regular and heavy alcohol consumption can cause serious damage to liver, nervous and circulatory system, mental disorders, and other health problems.
- Drinking large amounts of alcohol in a short time may quickly produce unconsciousness, coma, and even death.

Use of controlled substances (drugs) can result in damage to health and impairment of physical condition, including:

- impaired short term memory or comprehension;
- anxiety, delusions, hallucinations;
- loss of appetite resulting in general damage to the user's health, over a long term;
- a drug-dependent newborn if the mother is a drug user during pregnancy; pregnant women who use alcohol, drugs, or who smoke should consult their physicians;
- AIDS, as a result of "needle-sharing" among drug users; and
- death from overdose.

The health risks associated with drugs or excessive use of alcohol are many, and are different for different drugs. But all non-prescription use of drugs, and excessive use of alcohol, endangers your health. THERE ARE NO GOOD REASONS FOR USING A DRUG THAT IS NOT PRESCRIBED BY YOUR DOCTOR OR FOR DRINKING TO EXCESS.

Bloomington Campus Calendar Principles

Bloomington Faculty Council Action (November 19, 1991, April 29, 1997)

This statement describes the policies that are implicit in the campus calendar approved by the Bloomington Faculty Council in 1986.

1. The calendar for the academic year shall be composed of two semesters.
2. Each semester shall be preceded by one week for orientation/registration. There shall be an additional break of one week between the end of the second summer session and the beginning of orientation/registration week.
3. The first semester shall contain fourteen weeks and two days of instruction (that is, 72 class days, not counting Saturdays) plus one week (5 exam days) of final examinations. The second semester shall contain fifteen weeks of instruction (that is, 75 class days, not counting Saturdays) plus one week (5 exam days) of final examinations.
4. The standard length of a three-credit-hour course shall be 50 minutes three times a week or 75 minutes twice a week. The break between classes shall be 15 minutes.
5. The first days of classes and the first day of final exams for each semester shall fall on a Monday. The last day of classes shall fall on a Saturday, and the last day of final exams shall fall on a Friday.
6. Thanksgiving Recess shall be four days (Wednesday, Thursday, Friday, and Saturday), and Spring Recess shall be six days (Monday through Saturday).
7. The beginning of the second semester shall be determined by the day of the week upon which New Year's Day falls. Classes shall begin on a Monday (in order to have an unbroken week), preceded by a Wednesday, Thursday, and Friday for advising and registration. Therefore, when New Year's Day falls on a Tuesday, classes shall start on the first Monday in January; when New Year's Day falls on any other day, classes shall start on the second Monday in January.
8. The break between semesters (that is, between the end of final examinations and the start of classes) shall be three weeks.
9. The Spring Recess shall fall on the week following the ninth week of classes during the second semester.
10. The final examination period for semester courses shall be two hours.
11. The summer session shall be divided into a six-week session and an eight-week session.
12. There shall be no classes on Memorial Day during the first summer session and no classes on the Fourth of July during the second summer session. Classes shall not meet on the preceding Friday when July 4 falls on a Saturday nor on the following Monday when July 4 falls on a Sunday.
13. There shall be no special final examination period for the summer sessions.

*By action of the Board of Trustees on January 24, 1997, Dr. Martin Luther King Jr. Day will be observed on the third Monday of January, and classes will not be held on that day.

The Bloomington Campus Calendar and Scheduling Committee shall review these calendar principles annually.

Campus Security Policies

Reporting Procedures

The campus provides several ways to report crimes and related problems. Individuals may contact the IU Police Department whenever they witness criminal activity or feel threatened by potential criminal activity, including sexual offenses. Observations ranging from crimes in progress to suspicious behavior to an open manhole can and should be reported to IUPD. You may contact IUPD at either 855-4111 or 857-4111.

If you are calling about an emergency, dial 911 from any campus phone. Emergency phones at 20 different locations around campus connect directly to the IUPD dispatcher. If the problem is not a matter of public safety nor within the IU Police Department's primary jurisdiction, the dispatcher will refer the call to the proper agency. All of the numbers listed here accommodate TDD users who wish to contact IUPD.

Residence halls staff is available 24 hours a day to handle safety or security issues occurring in or near

the campus residence centers. They also may be helpful if you wish to report a personal safety incident that has occurred elsewhere on campus. The center desks are open between 8:00 a.m. and midnight. The center desk telephone is forwarded to an on-call staff member when the office is closed.

The residential living areas in the residence hall are locked around the clock. All visitors in these areas must be escorted by a resident. Dining rooms, classrooms, and public lounges are accessible to the public. Additional safety information about the residence halls, including the guest policy, may be found in other campus publications, such as the residence halls handbook and calendar.

Facility Safety and Access

Physical Plant staff inspect the campus lighting system every two weeks. Call the Physical Plant Operations Center at 855-8728 to report a broken or otherwise ineffective light. Although the Operations Center is open 24 hours a day, only emergency repairs will be made on evenings or weekends.

Generally, all residence halls are supposed to be locked around the clock. However, there are exceptions to this policy. Contact a member of the Residence Life staff to learn the policy for a specific residence hall. Additional safety information about the residence halls, including the guest policy, may be found in other campus publications, such as the residence halls handbook and calendar.

Access to academic buildings is determined by individual building supervisors; contact the appropriate supervisor for specific information. Generally, however, faculty and staff are available in these buildings during the regular business hours of 8 a.m.-5 p.m. weekdays. Building Services staff, who are easily identified by their tan and brown uniforms, are present in the buildings during many of the remaining hours. You are encouraged to report to them any safety concerns or suggestions, or you may call the Building Services Division of the Physical Plant at 855-3121.

Law Enforcement Authority

The IU Police Department coordinates law enforcement and security on the Bloomington campus. All officers are trained and have full police authority. The Bloomington Police Department is the municipal police force for the City of Bloomington. BPD officers respond to off-campus calls, but also may assist IUPD officers with on-campus incidents. Calls to 911 made from campus phones will be received by IUPD; those made from off-campus phones are received by BPD.

Educational Programming

Each year near the beginning of the fall semester, the IU Police Department releases data showing crimes reported on the Bloomington campus in the previous year. This information is published in various news media, as well as certain campus publications, such as "Toward an Even Safer Campus," and is presented in a manner compliant with federal law.

The Bloomington campus' Commission on Personal Safety coordinates an extensive program of student education, special services, and campus improvements. Students are informed about personal safety matters from the moment they arrive on campus. Orientation includes multiple presentations on various safety issues, including physical safety, the security of personal property, date or acquaintance rape, and alcohol use.

Many of these programs and their related publications are shared with campus employees, too. All members of the campus community—students, faculty, and staff alike—are told that personal safety for each of them depends upon their joint efforts and mutual concern.

Off-Campus Behavior

Off-campus behavior is generally not subject to action through the campus disciplinary system. However, any violation of law, wherever it occurs, may be reported to university officials, either directly or through the agency of the IU Police Department. Such violations, either on campus or off, may subject students to campus disciplinary action.

Alcohol-Drug Policies

See Alcohol and Drug-Free Campus Policy in this bulletin.

Sexual Offenses

Many of the foregoing programs and services are designed to address sexual offenses, in addition to other criminal or personal safety matters. Beyond these basic safety services and programs, however, are those that directly address sex offenses and related safety concerns.

Access to the state registry of sex offenders can be found on the Indiana University Police Department web site (www.indiana.edu/~iupd). Among these are the Sexual Assault Crisis Service, which is staffed 24 hours a day by professional counselors. The service is free to all students, faculty, and staff, as well as other members of the campus community. Its crisis telephone line is 855-8900; its general business number is 855-5711. The Service provides individual counseling to persons who have been sexually assaulted and need assistance. Support groups are coordinated by the Service, and staff are willing to talk with friends and family of those individuals who have been sexually assaulted.

The local community provides other resources for sexual assault victims, including the Middle Way House, Inc. and Bloomington Hospital. Middle Way House provides 24-hour services to victims and survivors of domestic violence, in addition to temporary shelter. The shelter also coordinates educational programs addressing issues related to sexual assault.

The campus administration, through its Dean of Students Office, will change the living situation or academic arrangements for a student victim of sexual assault where such changes are reasonable. As with all other offenses processed through the campus disciplinary system, the person accused of a sexual offense will be provided due process. However, victims of sexual offenses will be informed of the outcome of any campus disciplinary proceedings brought.

The Clery Report

Indiana University, Bloomington Campus

Reporting guidelines vary between the Clery Report and the FBI's Uniform Crime Report. Incidents that reportedly occurred on university or student organization owned properties are counted in this report. Driving and Parking Information and Regulations (Abridged)

All students, faculty, and staff are responsible for knowing and following University driving and parking regulations.

Students, faculty, and staff operating motor vehicles on university, fraternity, or sorority property are responsible for adhering to all university driving and parking regulations at all times of the calendar year, including examination and vacation periods. Student, faculty, and staff motor vehicle regulations are available at 310 S. Fess (Henderson Parking Garage) where parking decals may be obtained by those eligible to purchase them. Regulations are also available online at www.parking.indiana.edu.

All areas and facilities in the University parking system (except those reserved for visitors) are designated and differentiated by a system of alphabetic coding—A, C, D, and E zones.

Decals issued for parking privileges will, according to letter and zone, indicate the nature of the parking privileges permitted the holder.

Areas available for parking by students eligible and properly registered for parking privileges are:

1. For commuting students, any area designated "E."
2. Indiana Memorial Union pay parking lots, Jordan Ave. Parking Garage, the 11th and Fee Lane Garage, the Poplars Garage, the Atwater Garage, and the Henderson Garage.
3. Areas designated "D Zone" may be used only by those students living in the area and displaying the proper zone decal.

An eligible student who possesses or operates a motor vehicle on University property must obtain a student decal at the time the vehicle is brought into the University community. Bicycles must also be registered with Parking Operations, display a permit, and park in areas designated for bicycle parking.

The central campus is closed to student automobile traffic from 7 a.m. to 6 p.m. Monday through Friday. Vehicles bearing any valid decal may park in any NON-24 HOUR space from 5 p.m. to 7 a.m. and all day Saturday and Sunday. The "D" and "E" spaces are available to any vehicle from Friday at 5 p.m. to Sunday at 11 p.m. unless posted otherwise.

Metered parking areas marked "Visitor Parking" are not to be used by students, faculty, or staff. Visitors will not be permitted to park in areas reserved for faculty, staff, and students.

Any vehicle in violation of parking regulations or apparently abandoned may be towed without notice and stored at the owner's expense.

The responsibility for finding a legal parking space rests with the motor vehicle operator. The purchase of a decal does not guarantee a parking space.

Certain parking spaces are reserved for the specially designated vehicles of disabled faculty and students. These parking spaces are exclusively assigned for this purpose and vehicles in violation will be towed on the first offense. The international disabled symbol is used for the identification of such spaces.

Ethnic Information Policy

Ethnic information is gathered in compliance with Title VI of the Civil Rights Act of 1964 and Title IX of the Education Amendments of 1972, and is requested in reports required by the U.S. Department of Education. Students may refuse disclosure of this information or request its removal from records without penalty at Franklin Hall 100 during regular business hours.

Extended X Policy

Extended X (Expanded-FX) Policy

Bloomington Faculty Council Action (May 3, 1994)

The council amended the F/X policy to read:

Any undergraduate student may retake a course for which he/she received a grade below an A during the first 45 hours of coursework. A student may exercise this option for no more than three courses, totaling no more than 10 credits. A student may use this option only once for a given course.

The student's transcript shall record both grades. For the course retaken, only the second grade shall be counted in the determination of the student's grade-point average (GPA). Any GPA calculated in accord with this policy shall be marked with an asterisk denoting that a lower grade has been replaced by a second grade in the course.

Note: *This policy was implemented First Semester 2001-02. Courses taken prior to that term do not*

apply. See *Extended X Implementation Policies* below. An 'X' is displayed to the right of the grade of the course excluded from the GPA has been substituted for the asterisk denotation mentioned in the original policy. Some schools may not honor this policy for purposes such as school admission, graduation, and good standing requirements, and there may be other limitations on courses eligible for the GPA exclusion; students should consult with their school or University Division advisors before exercising this option.

On April 21, 2009, the Bloomington Faculty Council amended the *Extended-X Policy* as summarized below. The amendments are in effect beginning with the Spring 2010 academic term:

- a. Eliminated the rule restricting eligible courses to those taken in the first 45 hours.
- b. Modified the *Implementation Policy* related to the timetable for student application, changing the deadline to the Pass/Fail deadline for the retaken class (previously, the Automatic W deadline.) See *Implementation Policy 7*, below. The *Extended-X / Pass/Fail* deadline is generally in the third week of a regular, sixteen-week term, but is adjusted for sessions of shorter duration, such as first eight-week and second eight-week sessions. To determine the *Extended-X* application deadline for a specific class, consult the *Official Calendar, Bloomington Campus*, as found on this site.

Note: Undergraduate courses beyond the first 45 hours retaken prior to Spring 2010 will not be eligible for *Extended-X* due to the policy restrictions in effect at the time the course was retaken, and also due to the application deadline for the retaken course being past.

Below is the revised *Extended-X Implementation Policies*, as approved by the Bloomington Faculty Council, April 21, 2009. The *Implementation Policies* have been renumbered into a newly-consolidated list.

Extended X Implementation Policies

Bloomington Faculty Council Action (Circular B37-2001; March 6 & 20, 2001; amended Circular B23-2009, April 21, 2009)

1. Only courses attempted during or after the Fall 2001 term will be eligible for replacement under the policy. Provisions approved April 21, 2009, go into effect for the Spring 2010 term.
2. The following grades cannot be replaced under the *Extended-X* policy: S, P, W, I, R, NC.
3. GPA credit hours for the replaced course will be removed at the point at which the course is replaced.
4. Courses repeatable with different content are not eligible for replacement under this policy unless a unit chooses to permit this by means of a specific authorization procedure.
5. A student may not request reversal after asking for and applying the GPA exclusion.
6. A student may not replace a grade with a second grade of W, I, R or NC.
7. Students who re-enroll in a course must indicate to the school of their major or to University Division, as appropriate, their intent to apply the *Extended-X* policy to a specific course by the Pass/Fail deadline specific to that course.
8. The *Extended-X* policy will adhere to FX policy (*UFC documents 1975, 1976, 1979, 1984, 1987*) administrative practice and guidelines regarding exceptional cases, where these are not in conflict with the provisions of the *Extended-X* Policy nor with these *Implementation Policies*. A statement of the applicable practices has been compiled and is on file with the Vice Provost for Undergraduate Education and with the Office of the Registrar.
9. In implementation of the *Extended-X* policy, as under the FX policy, Bloomington joins all other campuses in honoring the principle that the grade forgiveness/course retake policy on the degree granting campus is applicable for each student. Hence, if an IUB student transfers to another campus with more liberal grade replacement policies, IUB will honor requests from that campus, on behalf of the student, to replace an IUB grade that may not be replaceable under IUB policy. Were the student to return to IUB for graduation, however, that course exclusion would not apply.

Note: Some schools may not honor this policy for purposes such as school admission, graduation, and probation determination.

Extended X (Amended-FX) - Policy Effective only through Fall

2009.

** See section titled **Extended X Implementation Policies** above for classes taken Spring 2010 and following. **

Implementation Policies (April 2001)

The following decisions were made by the Bloomington Faculty Council on March 6 and 20, 2001, with regard to implementation of the new Bloomington campus grade forgiveness policy. A statement of the policy appears above.

1. Only courses attempted during or after the Fall 2001 term will be eligible for replacement under the new policy.
3. Students may replace any course taken prior to or during the term in which their forty-fifth credit hour is earned.
4. All IU coursework and any transferred course credits earned at another institution will be included in calculating the "first forty-five hours."
5. The following grades cannot be replaced under the expanded FX policy: S, P, W, I, R, NC.
6. GPA credit hours for the replaced course will be removed at the point at which the course is replaced.
7. Courses repeatable with different content are not eligible for replacement under this policy unless a unit chooses to permit this by means of a specific authorization procedure.
8. A student may not request reversal after asking for and applying the GPA exclusion.
9. A student may not replace a grade with a second grade of W, I, R or NC.
10. Students who re-enroll in a course must indicate to the school of their major or to University Division, as appropriate, their intent to apply the GPA exclusion policy to a specific course by the date of automatic withdrawal.
11. Initially, the Extended-X policy will adhere to FX policy (*UFC documents 1975, 1976, 1979, 1984, 1987*) administrative practice and guidelines regarding exceptional cases, where these are not in conflict with the provisions of the Extended-X Policy nor with these Implementation Policies. A statement of the applicable practices has been compiled and is on file with the Dean of Faculties and with the Office of the Registrar.
12. In initial implementation of the Extended-X policy, as under the FX policy, Bloomington joins all other campuses in honoring the principle that the grade forgiveness policy on the degree granting campus is applicable for each student. Hence, if an IUB student transfers to another campus with more liberal grade replacement policies, IUB will honor requests from that campus, on behalf of the student, to replace an IUB grade that may not be replaceable under IUB policy. Were the student to return to IUB for graduation, however, that course exclusion would not apply.

Graduation Rate

The completion or graduate rate for first-time full-time students (certificate, associate and baccalaureate degree-seekers) entering IU Bloomington may be found at the following web site: www.indiana.edu/~upira/reports/standard/graduation/index.shtml. A paper copy of the report will be provided upon request.

Immunization Data Collection Policy

In accordance with the 1995 Indiana Code 20-12-71, "Immunization Requirements at the Postsecondary Level," all students who attend Indiana University Bloomington for their first major semester during or after First Semester 1995-96 must provide immunization information to the Office of the Registrar. One of the main objectives of this state law is to enable the University to provide a safer and healthier environment for students.

The law stipulates that “if a student fails to comply . . . by the beginning of the student’s second academic term, the postsecondary institution shall prohibit the student from matriculating in the campus of the postsecondary institution, where applicable, until the requirements are met.” Therefore, students who do not provide the required immunization data will be prevented from registering for the semester or session following their matriculation semester.

In order to be in full compliance with this state requirement, students must provide dates of immunizations for the following diseases: measles/rubella (requires two immunizations), rubella/German measles, mumps, tetanus and diphtheria (tetanus and diphtheria booster within the last 10 years). Religious exemptions and proof of disease history (measles/rubella and mumps only) are also considered to be in full compliance with state law. Please note that students filing religious exceptions will be required to leave campus if an outbreak of any listed preventable disease occurs on or near campus. A physician’s signature is not required if the student has been immunized and is able to provide the month and year for the required immunizations. However, if medical contraindications exist, a physician’s signature is required to document each specific medical contraindication.

Beginning First Semester 2003-04, the university shall provide detailed information of the risks associated with meningococcal disease and the availability and effectiveness of vaccination to students (or parent if student is under age 18). The student (or parent if student is under age 18) will provide a signature that they have reviewed provided information regarding meningococcal disease or have received the vaccination series. In addition, all new students who are not citizens or residents of the United States must provide documentation that they have been tested for tuberculosis in the United States, the date the test was taken, and the results of the test.

New students, including intercampus transfer students new to the Bloomington campus, are required to complete the Online Immunization Compliance form in *OneStart* before the first day of classes.

How to comply:

1. Navigate to the *OneStart* page, <http://onestart.iu.edu>; Click the login button.
2. Log in using your **Username** and **Password**.
3. Click the **Services** tab, then **Student Self-Service** link on the sidebar.
4. Locate the **Services and Information** section.
Click the **Immunization Compliance** link.

Noncompliance warnings for students who do not respond to the early request for immunization data will be sent to students’ official university e-mail address. Registration for the next semester or session will be prevented for students who do not provide this required data to the Office of the Registrar.

In order to maintain the confidentiality of medical record information, immunization data provided to other University offices cannot be used to comply with this state mandated requirement.

Questions concerning these requirements for immunization information should be directed to a Service Representative, Office of the Registrar, Franklin Hall 100, (812) 855-0121, registrar@indiana.edu. Also, link to <http://registrar.indiana.edu/immunization.shtml> for specific information on immunization requirements and to follow a link that will allow you to record your immunization dates online.

Intercampus Transfer Students

Transferring to Other Indiana University Campuses

Each year many students transfer from one campus of the university to another to continue their studies toward a degree. Few other multi-campus universities are organized in such a way as to accommodate or facilitate these transfers. Credits transferred from one campus of Indiana University to another will be evaluated and accepted in terms which are at least as favorable as credits from other institutions, applying the same criteria used in evaluating external credits.

Students who wish to transfer from any IU campus to another should follow these procedures:

1. Inform your academic adviser of your decision as soon as possible. Degree requirements may vary from one campus to another but if your adviser knows of your plan, your academic program may be

designed to meet the requirements of the campus you will eventually attend.

2. Contact the department chairperson (or the designated adviser) at the campus you plan to attend. Discuss your plan and ask about any special procedures. For example, transfers in fine arts must submit portfolios of their work and music transfers must audition.

3. Fill out the appropriate intercampus transfer application located on the Web at <http://www.iupui.edu/~moveiu/>.

4. When you arrive on the new campus, contact your designated adviser as soon as possible. Discuss your academic progress to date and the additional course work required for your new degree program.

Nondiscrimination Policy

Equal Opportunity/Affirmative Action Policy of Indiana University

Indiana University pledges itself to continue its commitment to the achievement of equal opportunity within the university and throughout American society as a whole. In this regard, Indiana University will recruit, hire, promote, educate, and provide services to persons based upon their individual qualifications. Indiana University prohibits discrimination based on arbitrary considerations of such characteristics as age, color, disability, ethnicity, gender, marital status, national origin, race, religion, sexual orientation, or veteran status.

Indiana University shall take affirmative action, positive and extraordinary, to overcome the discriminatory effects of traditional policies and procedures with regard to the disabled, minorities, and women.

Code of Student Rights, Responsibilities and Conduct

The *Code of Student Rights, Responsibilities and Conduct* issued by Indiana University on August 15, 1997, provides regulations governing actions and interactions of members of the university community. The *Code* describes the individual rights of the student to include the student's right to be free of sexual harassment, racial harassment, and harassment based on sexual orientation. Copies of the *Code* may be obtained from the Dean of Students Office on each of the campuses.

Indiana University Policy Against Sexual Harassment

Harassment on the basis of sex is a violation of federal and state law. Indiana University does not tolerate sexual harassment of its faculty, staff, or students. Individuals who believe they are victims of sexual harassment, as well as those who believe they have observed sexual harassment, are strongly urged to report such incidents promptly. Indiana University will investigate every sexual harassment complaint in a timely manner and, when there is a finding of sexual harassment, take corrective action to stop the

harassment and prevent the misconduct from recurring. The severity of the corrective action, up to and including discharge or expulsion of the offender, will depend on the circumstances of the particular case.

Once a person in a position of authority at Indiana University has knowledge, or should have had knowledge, of conduct constituting sexual harassment, the University could be exposed to liability. Therefore, any administrator, supervisor, manager or faculty member who is aware of sexual harassment and condones it, by action or inaction, is subject to disciplinary action.

A. Definitions

Following federal guidelines, Indiana University defines sexual harassment as follows:

Unwelcome sexual advances, requests for sexual favors, and other verbal or physical conduct of a sexual nature constitute sexual harassment when:

1. submission to such conduct is made either explicitly or implicitly a term or condition of an individual's employment or academic advancement;
2. submission to or rejection of such conduct by an individual is used as the basis for employment or academic decisions affecting such individual; or
3. such conduct has the purpose or effect of unreasonably interfering with an individual's work or academic performance or creating an intimidating, hostile, or offensive working or learning environment.

B. Application

This University policy is designed to protect all members of the University community. It applies to relationships among peers as well as to superior/subordinate relationships. It also applies to all individuals, regardless of their gender or sexual orientation.

C. Provisions

1. Faculty, staff, and students have the right to raise the issue of sexual harassment. Further harassment against complainants or retaliation against complainants or others who participate in the investigation of a complaint will not be tolerated. Appropriate and prompt disciplinary or remedial action will be taken against persons found to be engaging in such further harassment.
2. The University will deal with reports of sexual harassment in a fair and thorough manner, which includes protecting, to the extent possible and to the extent permitted by law, the privacy and reputational interests of the accusing and accused parties.
3. Education is the best tool for the prevention and elimination of sexual harassment. Each dean, director, department chair, and/or administrative officer is responsible within his/her area of jurisdiction for the implementation of this policy, including its dissemination and explanation.
4. It is the obligation and shared responsibility of all members of the University community to adhere to this policy.

D. Enforcement Principles

Enforcement and implementation of this sexual harassment policy will observe the following principles:

1. Each campus must have procedures—consistent with notions of due process—for implementing this policy including where complaints are made, who investigates complaints, how complaints are resolved, what procedures are available for appeals, and how records are kept.
2. The Campus Affirmative Action Officer shall serve as a resource with regard to interpretation of sexual harassment guidelines.
3. Confidentiality of information relating to investigations of complaints of sexual harassment shall be maintained to the extent practical and appropriate under the circumstances and to the extent permitted by law. Individuals charged with implementing this policy shall share information with regard to given incidents of sexual harassment only with those who have a "need to know" in order to implement this policy.
4. Investigations must be conducted promptly and thoroughly.
5. Whether particular actions constitute sexual harassment will be determined from the facts, on a case-by-case basis. The university will look at the record as a whole, as well as the context in

which the alleged misconduct occurred.

6. Both the charging party and the respondent will be notified of the outcome of the investigation.
7. In the event it is found that sexual harassment has occurred, corrective action, up to and including discharge or expulsion of the offender, will be taken through the appropriate channels of the university. The corrective action will reflect the severity and persistence of the harassment, as well as the effectiveness of any previous remedial action. In addition, the university will make follow-up inquiries to ensure the harassment has not resumed and the complainant has not suffered retaliation.

Policy on Consensual Relationships

Academic Handbook, 1997, pages 36 & 37:

Relations with Students:

With regard to relations with students, the term “faculty” or “faculty member” means all those who teach and/or do research at the University including (but not limited to) tenured and tenure-track faculty, librarians, holders of research or clinical ranks, graduate students with teaching responsibilities, visiting and part-time faculty, and other instructional personnel including coaches, advisors, and counselors.

The University’s educational mission is promoted by professionalism in faculty/student relationships. Professionalism is fostered by an atmosphere of mutual trust and respect. Actions of faculty members and students that harm this atmosphere undermine professionalism and hinder fulfillment of the University’s educational mission. Trust and respect are diminished when those in positions of authority abuse or appear to abuse their power. Those who abuse their power in such a context violate their duty to the University community.

Faculty members exercise power over students, whether in giving them praise or criticism, evaluating them, making recommendations for their further studies or their future employment, or conferring any other benefits on them. All amorous or sexual relationships between faculty members and students are unacceptable when the faculty member has any professional responsibility for the student. Such situations greatly increase the chances that the faculty member will abuse his or her power and sexually exploit the student. Voluntary consent by the student in such a relationship is suspect, given the fundamental asymmetric nature of the relationship. Moreover, other students and faculty may be affected by such unprofessional behavior because it places the faculty member in a position to favor or advance one student’s interest at the expense of others and implicitly makes obtaining benefits contingent on amorous or sexual favors. Therefore, the University will view it as a violation of the Code of Academic Ethics if faculty members engage in amorous or sexual relations with students for whom they have professional responsibility, as defined in number 1 or 2 below, even when both parties have consented or appear to have consented to the relationship. Such professional responsibility encompasses both instructional and non-instructional contexts.

1. *Relationships in the Instructional Context.* A faculty member shall not have an amorous or sexual relationship, consensual or otherwise, with a student who is enrolled in a course being taught by the faculty member or whose performance is being supervised or evaluated by the faculty member.
2. *Relationships outside the Instructional Context.* A faculty member should be careful to distance himself or herself from any decisions that may reward or penalize a student with whom he or she has or has had an amorous or sexual relationship, even outside the instructional context, especially when the faculty member and student are in the same academic unit or in units that are allied academically.

Personnel Policies for Professional Staff, (policy 2.2, page 12):

Consensual romantic relationships

It is in the interest of Indiana University to provide clear direction to all employees about the risks associated with consensual romantic or sexual relationships between members of the university community where a conflict of interest between the parties exists or may exist.

Conflicts of interest may arise when relationships occur between and among employees, students, and prospective employees. This policy and ethical principles already preclude staff from evaluating the work of others with whom they have intimate familial relationships, or from making hiring, promotional, transfer, or similar decisions concerning such persons.

These same principles apply to consensual romantic or sexual relationships and require, at a minimum, that appropriate arrangements be made for objective decision making. Additionally, in the event of a charge of sexual harassment, the university will give very critical scrutiny to any defense based upon consent when the facts establish that a power differential existed within the relationship.

Whenever a conflict of interest occurs, or may occur, because of a consensual, romantic relationship, it is the employee's responsibility to tell the immediate supervisor about the relationship. If the relationship involves one's immediate supervisor, then the employee should go to the next level of management. The next level of management is responsible for making arrangements to eliminate or solve any conflict or possible conflict.

Personnel Policies for Appointed Support Staff, Represented by CWA, Local 4730 (policy 6.2, page 2):

MEMORANDUM OF UNDERSTANDING:

During the course of our 1995 negotiations the University and the CWA discussed the need to alter the University Sexual Harassment policy to specifically address the issue of consensual romantic and/or sexual relationships in the workplace where a conflict may exist. The parties have reached an agreement concerning a Statement concerning consensual romantic and/or sexual relationships. This statement is included as part of this memorandum. The University Administration and the CWA will jointly recommend to the appropriate University committees and officials that the principles contained within this Statement be incorporated in the University Sexual Harassment Policy. In the interim period, this Statement will be circulated to everyone who supervises clerical and technical employees and who will be expected to comply.

Statement on Consensual Relationships:

It is in the interest of Indiana University to provide clear direction to all employees about the risks associated with consensual romantic and/or sexual relationships between members of the university community where a conflict of interest between the parties exists or may exist.

Conflicts of interest may arise when such relationships occur between and among employees, students, and prospective employees. University policies and ethical principles already preclude staff from evaluating the work of others with whom they have intimate familial relationships, or from making hiring, promotional, transfer, or similar decisions concerning such persons. The same principles apply to consensual romantic and/or sexual relationships and require, at a minimum, that appropriate arrangements be made for objective decision making. Additionally, in the event of a charge of sexual harassment, the University will give very critical scrutiny to any defense based upon consent when the facts establish that a power differential existed with the relationship.

Whenever a conflict of interest exists, or may exist, because of a consensual romantic and/or sexual relationship in the workplace, it is the responsibility of both parties to disclose the consensual romantic and/or sexual relationship to his/her immediate supervisor or the next level of management if the relationship involves the immediate supervisor. The supervisor or next level of management shall be responsible for making arrangements to eliminate or mitigate a conflict whose consequences might prove detrimental to the University.

Americans with Disabilities Act (ADA) Policy

The Americans with Disabilities Act (ADA), the Indiana Civil Rights Act, and Indiana University policy prohibit discrimination in employment and educational programs against qualified individuals with disabilities. It is the policy of Indiana University to provide reasonable accommodations or academic adjustments when necessary. These accommodations and adjustments must be made in a timely manner and on an individualized and flexible basis.

It is the responsibility of individual students, staff, and faculty members to identify themselves as an individual with a disability when seeking an accommodation or adjustment. It is also the responsibility of individual students, staff, and faculty members to document their disability (from an appropriately licensed professional) and to demonstrate how the disability limits their ability to complete the essential functions of their job or limits students' participation in programs or services of the university. Medical documentation will be kept confidential. Students, staff, and faculty members must maintain institutional standards of performance.

REQUESTS FOR ACCOMMODATIONS FOR FACULTY OR OTHER ACADEMIC APPOINTMENTS

for the Bloomington campus under the Americans with Disabilities Act.

1. To receive an accommodation under the ADA, a faculty member must file an application with the Dean of the Faculties. The faculty member should include documentation of his or her functional limitations.
2. After reviewing the documentation and the facts of each request, the Dean of the Faculties will determine if the faculty member is eligible for accommodations under the ADA.
3. The Dean of the Faculties will then meet with the faculty member and his or her chair/dean to develop a plan of reasonable accommodation. During this meeting, the participants will:
 - a. identify the essential and marginal functions of the position (if not already done),
 - b. discuss the faculty member's specific physical or mental abilities or limitations as they relate to the essential functions along with potential accommodations, and
 - c. identify the accommodation that best serves the needs of the faculty member, his or her students, and the university.
4. The Dean of the Faculties may require the faculty member to provide medical documentation in order to verify a condition or to provide further information that will assist in identifying reasonable accommodations. In most cases documentation is necessary to determine the appropriate accommodation. The Dean of the Faculties may seek advice from third party experts when necessary.
5. It is the responsibility of the Dean of the Faculties to determine the reasonable accommodation in a particular case.
6. The reasonable accommodation shall be documented by placing a copy of the accommodation plan in the faculty member's personnel file and in the Office of the Dean of the Faculties. To the extent necessary, this documentation should include a long-term plan for dealing with changes in the faculty member's limitations over time. Medical documentation shall be retained only by the Dean of the Faculties and shall be kept confidential.

REQUESTS FOR ACCOMMODATIONS FOR STAFF

for the Bloomington campus under the Americans with Disabilities Act

1. To receive an accommodation under the ADA, employees must file an application with the Accommodation Specialist (within Human Resources Management). Employees are permitted to make the request on university time, but they must first request release time from their supervisor. Employees may be accompanied by a union representative or a representative from the Bloomington Professional Council when they meet with the Accommodation Specialist. During the initial meeting with the Accommodation Specialist, two things will be accomplished:
 - a. The Accommodation Specialist will determine what documentation from a licensed professional is needed to support the employee's request for accommodation.
 - b. The responsibilities of the university and the employee throughout the process will be clarified.
2. After reviewing the documentation and the facts of each request, the Accommodation Specialist will determine if the employee is eligible for accommodations under the ADA.
3. The Accommodation Specialist will review the marginal and essential functions of the job, the functional limitations of the disability, and the reasonableness of an accommodation. The Accommodation Specialist will then facilitate a discussion with the supervisor/unit head/dean and the employee to determine what accommodations may be reasonable.
4. The Accommodation Specialist may seek advice from third party experts when necessary. Medical documentation shall be retained by only the Accommodation Specialist and shall be kept

confidential.

5. It is the responsibility of the Accommodation Specialist to determine the reasonable accommodation in a particular case after reviewing all the facts. The Accommodation Specialist will outline the process for providing the accommodation verbally and in writing to the employee and the department.
6. The employee is responsible for contacting the Accommodation Specialist if reasonable accommodations are not implemented in an effective and timely manner. The Accommodation Specialist will work with the employee and the department to resolve disagreements regarding the recommended accommodation.

REQUESTS FOR ACCOMMODATIONS FOR STUDENTS

for the Bloomington campus under the Americans with Disabilities Act

1. To receive an accommodation under the ADA, students must file a request for services with the Office of Disability Services for Students (DSS), a unit of the Division of Student Affairs. Requests for accommodation to disability should be made far enough in advance to allow DSS Staff adequate time to coordinate needed services. It is recommended that requests be made prior to the beginning of a semester or as soon as a disability becomes known.
2. Students must provide documentation of disability that includes a specific diagnosis and describes the functional limitations of the condition, particularly as it may affect participation/performance in courses, programs, services, jobs, activities, and facilities of the University. (Guidelines for documenting specific categories of disabling conditions can be found at the DSS website at <http://www2.dsa.indiana.edu/dss/>.) The documentation should be prepared by a licensed professional practicing in a field directly related to that of the disability. The professional or the student must submit the documentation to DSS in a timely manner. All documentation will be retained by only the DSS office and will be kept confidential.
3. The DSS office makes the determination of a student's eligibility for accommodations under the ADA. DSS staff and the student will discuss what academic modifications, auxiliary aids, and other assistance will be needed. Per request of the student, DSS staff will communicate with faculty and/or the academic unit to verify student eligibility as a person with a disability and to specify the specific nature of required accommodations.
4. If there is a discrepancy between options of faculty and/or the academic unit and the student regarding the appropriateness of academic modifications, the DSS office will facilitate discussion and promote resolution between faculty/academic unit and the student. It is the responsibility of the Office of Disability Services for Students to determine reasonable accommodation, taking into account the content of the course, the student's disability, and the documentation of disability. Nothing in these procedures requires a fundamental alteration to the course and/or the program of study.
5. Students are expected to meet with their instructors during office hours, or by prearranged appointment, to make appropriate and timely notification of their need for academic modifications. Students are expected to be active participants in the accommodations process. Students are responsible for notifying DSS staff if reasonable accommodations are not implemented in an effective and timely way.

GRIEVANCE PROCEDURE

Faculty, staff, and students who believe the university has not met its obligations under the ADA should consult with the Office of Affirmative Action.

Indiana University's Annual Notification

of Student Rights under FERPA

The Family Educational Rights and Privacy Act (FERPA) affords students certain rights with respect to their education records. These rights include:

1. The right to inspect and review the student's education records within 45 days of the day the

University receives a request for access. Students should submit to the registrar, dean, head of the academic department, or other appropriate official, written requests that identify the record(s) they wish to inspect. The University official will make arrangements for access and notify the student of the time and place where the records may be inspected. If the records are not maintained by the University official to whom the request was submitted, that official shall advise the student of the correct official to whom the request should be addressed.

2. The right to request the amendment of the student's education records that the student believes are inaccurate or misleading. Students may ask the University to amend a record that they believe is inaccurate or misleading. They should write the University official responsible for the record, clearly identify the part of the record they want changed, and specify why it is inaccurate or misleading. If the University decides not to amend the record as requested by the student, the University will notify the student of the decision and advise the student of his or her right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the student when notified of the right to a hearing.
3. The right to consent to disclosures of personally identifiable information contained in the student's education records, except to the extent that FERPA authorizes disclosure without consent. One exception which permits disclosure without consent is disclosure to school officials with legitimate educational interests. A school official is a person employed by the University in an administrative, supervisory, academic or research, or support staff position (including law enforcement unit personnel and health staff); a person or entity with whom the University has contracted (such as an attorney, auditor, or collection agent; the Indiana University Foundation and Indiana University Alumni Association; and vendors of services such as e-mail or other electronic applications, enrollment verification, and so on); a person serving on the Board of Trustees; or a student serving on an official committee, such as a disciplinary or grievance committee, or assisting another school official in performing his or her tasks. A school official has a legitimate educational interest if the official needs to review an education record in order to fulfill his or her professional responsibilities for the University. Upon request, the University may disclose education records without consent to officials of another school in which a student seeks or intends to enroll. Finally, "public information" may be released freely unless the student files the appropriate form requesting that certain public information not be released. *This form is available at the Office of the Registrar.* Public information is limited to name; address; phone; major field of study; dates of attendance; admission or enrollment status; campus; school, college, or division; class standing; degrees and awards; activities; sports; and athletic information.
4. The right to file a complaint with the U.S. Department of Education concerning alleged failures by Indiana University to comply with the requirements of FERPA.

The Indiana University Policy on the Release of Student Information may be found at:

<http://registrar.indiana.edu/releaseinfo.shtml>.

1. The seriousness of the threat to health or safety
2. The need for access to the record in meeting the emergency
3. Whether the person requesting the records is in a position to deal with the emergency
4. The extent to which time is of the essence in dealing with the emergency

AC. A student's record is open to the student, with the following exceptions:

- a. Confidential letters of recommendation placed in files prior to January 1, 1975
- b. Record of parents' financial status
- c. Employment records; see #H below
- d. Medical and psychological records; see #I below
- e. Some items of academic record under certain conditions; see #J below

AD. The employment records excluded from accessibility are those kept in the normal course of business, which relate exclusively to persons as employees and are not used for any other purposes.

AE. Medical and psychological records are presently governed by State Statute, Burns Indiana Statutes, 1971 Code Edition, 34-1-14-5 and 25-33-1-17, which rigidly protects their confidentiality. They are not available to anyone other than those providing treatment, but can be reviewed by a physician or appropriate professional of the student-patient's choice.

AF. To ensure the validity and confidentiality of references prepared off-campus and on-campus, certain documents may carry waivers signed by the student relinquishing the right of access to the document.

1. Waivers are subject to the following conditions:
 - a. Waivers can be signed only for the specific purposes of application for admission, candidacy for honor or honorary recognition (including financial aid based at least in part on merit), and candidacy for employment.
 - b. Waivers cannot be required.
 - c. The student shall be told, upon request, the names of those supplying references.
2. All items in the academic record not covered by waivers are open to the student. Material not covered by waivers may not be protected by keeping it out of the student's file.

- AK. Student records are open to school officials who have a legitimate educational interest in their contents, except where access is prohibited by special policies such as those governing medical and psychological records.
1. A "school official" is a person employed by the University in an administrative, supervisory, academic or research, or support staff position (including law enforcement unit personnel and health staff); a person or company with whom the University has contracted (such as an attorney, auditor, or collection agent); a person serving on the Board of Trustees; or a student serving on an official committee, such as a disciplinary or grievance committee, or assisting another school official in performing his or her tasks. Faculty members are considered to be advisors with a legitimate educational interest for all students currently enrolled in their classes or seeking enrollment, and others that they may be advising on an assigned basis.
 2. The determination of "a legitimate educational interest" will be made by the person responsible for the maintenance of the record. This determination must be made scrupulously and with respect for the individual whose records are involved.
 3. Academic documents inaccessible to students (because the documents have been filed before January 1, 1975 or are segregated by waivers) are to be used only for the purpose for which they were prepared.
- AL. The University has established the following procedures enabling the student to have access to his record and has provided for interpretation and challenge:
1. The student may see his or her record by filling out a request form at the office where the record of interest is maintained.
 2. Access is to be granted promptly and no later than thirty days from the date of request.
 3. The student may make the request in person or by mail.
 4. The student may obtain copies upon request (for which the University may charge).
 5. The student may request and receive interpretation of his or her record from the person (or designee) responsible for the maintenance of the record.
 6. If the student considers the record faulty, he or she can request and receive an informal and/or formal hearing of the case to the end that the record will be corrected if judged faulty or in violation of privacy:
 - a. The informal hearing will be in conference with the person (or his or her designee) responsible for the maintenance of the record and—where appropriate—the party or parties authorizing the record segment in question.
 - b. The student may request a formal hearing by obtaining from the Dean for Student Services' Office a request form on which he or she must designate the location of the record in question and a brief explanation of the reason for faulting the record. A panel of not fewer than ten Hearing Officers will be appointed by the chief administrative officer for each campus. The Dean for Student Services will forward a copy of the request to the person responsible for the record and will provide the student and the keeper of the record with three names of Hearing Officers. The parties (student and keeper of the record in question) shall each strike one name; the remaining Hearing Officer shall conduct an administrative hearing with both parties present.
 - c. The hearing shall be held within a reasonable period of time; notice of the date, place, and time must be given reasonably in advance. The student should be afforded a full and fair opportunity to present relevant evidence and may be assisted or represented by any person of his or her choosing (including an attorney at his or her own expense). A written decision based solely upon the evidence presented shall be prepared within a reasonable amount of time and shall include a summary of the evidence and reasons for the decision. The judgment of the Hearing Officer shall be final, and the record shall be changed or retained as recommended.
 - d. If the institution decides the information is accurate, it shall inform the student of his or her right to place in his or her educational record a statement commenting upon the information, and/or noting any reasons for disagreeing with the decision. Any statement of this sort shall be maintained as long as the student's educational record or contested portion is maintained; if the student's educational record or contested portion is disclosed to any party, the student's statement shall also be disclosed.
- AM. Normally, records can be released—or access given—to third parties (i.e., anyone not a school official) only at the written request of the student.

1. Without the consent of the student, releases to third parties may be given only as follows:
 - a. To parents of students who are dependents as defined by IRS standards
 - b. To federal officers as prescribed by law
 - c. As required by state law
 - d. To research projects on behalf of educational agencies for test norms, improving instruction, etc. (provided that the agencies guarantee no personal identification of students)
 - e. To accrediting agencies carrying out their functions
 - f. In response to a judicial order or lawfully issued subpoena (provided that the student is notified prior to compliance or provided that a reasonable attempt to notify the student has been made)
 - g. By I.U. Police to other law enforcement agencies in the investigation of a specific criminal case
 2. A student may secure from the Registrar's Office a "consent form" authorizing the release of specified records to specific individuals.
 3. A notification of releases made to third parties must be kept in the student's record. This notification is open only to the student and the person in charge of the record.
 4. The third party must be informed that no further release of personally identifiable data is authorized without the written consent of the student.
- AN. Nothing in this policy requires the continued maintenance of any student record. However, if under the terms of this policy a student has requested access to the record, no destruction of the record shall be made before access has been granted to the student. Persons in charge of records should ensure that only pertinent items are retained in the student files.

Accommodations for Religious Observances

Bloomington Faculty Council Action (Approved February 15, 2000; last amended April 21, 2009)

Introduction

It is the policy of Indiana University that instructors must reasonably accommodate students who want to observe their religious holidays at times when academic requirements conflict with those observances. This policy is intended to ensure that both faculty and students are fully aware of their rights and responsibilities in the accommodation of students' religious observances.

Policy

Indiana University respects the right of all students to observe their religious holidays and will make reasonable accommodation, upon request, for such observances.

Procedures

1. The Office of the Vice Provost for Faculty and Academic Affairs will prepare, for guidance, a list of dates of the major religious holidays. This list, policy, and a note to the effect that students wanting accommodations for observance of religious holidays must contact their instructors, will be brought to the attention of both students and faculty. The Vice Provost for Faculty and Academic Affairs will write regularly to the various deans and chairs, indicating that they, in turn, are to inform the faculty (including associate instructors under their supervision) concerning this policy and of the importance of observing it.
2. If a conflict with a religious observance exists, a student must make a request for a reasonable

accommodation for that observance by the end of the second week of the course. Any relevant change to the course calendar affords a new opportunity to make such a request in a timely manner. The request is to be in writing on a standardized form to be used for this purpose, and copies of that form will be made widely available.

3. The instructor and the student should discuss what a reasonable accommodation should include in a given case. Generally, it is insufficient to require a student to forego taking an exam or doing some other major assignment even if the instructor agrees to average the remaining exams or other assignments. The student must be given the opportunity to do appropriate make-up work that is intrinsically no more difficult than the original exam or assignment.
4. If the instructor and student agree on the accommodation, the plan should be carried out.
5. If after discussion there is no consensus on the accommodation, either party or both may ask the Vice Provost for Faculty and Academic Affairs to mediate. The VPFAA will confer with both the instructor and the student, and may seek advice from anyone else who could provide helpful information. If the instructor and student still cannot reach consensus over the accommodation, the VPFAA will then make a determination about the appropriate accommodation.
6. Either the instructor or the student may appeal the VPFAA's decision to the Office of Affirmative Action. Final authority for determining the outcome rests with the Provost.

Recommendations

1. The policy and procedure above are to be printed in *Code of Student Rights, Responsibilities, and Conduct: Procedures for Bloomington Campus*.
2. All instructors are encouraged to include on the syllabus and to announce at the beginning of the semester the policy and procedure as it applies to religious holidays.
3. Orientation programs for new students will inform incoming students about this policy and urge them to check for conflicts before the deadline for informing their instructors. Particular attention should be paid, in this matter, to the orientation of international students.

Religious Holidays

A five-year calendar of selected major religious holidays is maintained at http://www.indiana.edu/~vpfaa/rel_hol_cal.shtml. There are links provided for additional information on religious holidays, cultural calendars, interfaith calendars, and celestial events.

Note: Students wanting accommodations for observance of other religious holidays should contact their instructors as indicated in the procedures outlined at this website of the Office of Academic Affairs and Dean of the Faculties: <http://www.indiana.edu/~vpfaa/holidays.shtml>. Additional information on Religious Holidays and Recommended Accommodations is also available at the above website.

Rules Determining Resident and Nonresident Student Status

for Indiana University Fee Purposes

These Rules establish the policy under which students shall be classified as residents or nonresidents upon all campuses of Indiana University for University fee purposes. Nonresident students shall pay a nonresident fee in addition to fees paid by a resident student.

These Rules shall take effect February 1, 1974; provided, that no person properly classified as a resident student before February 1, 1974, shall be adversely affected by this Rule, if he or she attended the university before that date and while he or she remains continuously enrolled in the university.

1. "Residence" as the term or any of its variations (e.g., "resided"), as used in the context of these Rules, means the place where an individual has his or her permanent home, at which he or she remains when not called elsewhere for labor, studies, or other special or temporary purposes, and to which he or she returns in seasons of repose. It is the place a person has voluntarily fixed as a permanent habitation for himself or herself with an intent to remain in such place for an indefinite period. A person at any one time has but one residence, and a residence cannot be lost until another is gained.
 - a. A person entering the state from another state or country does not at that time acquire residence for the purpose of these Rules, but except as provided in Rule 2(c)¹, such person must be a resident for 12 months in order to qualify as a resident student for fee purposes.
 - b. Physical presence in Indiana for the predominant purpose of attending a college, university, or other institution of higher education, shall not be counted in determining the 12-month period of residence; nor shall absence from Indiana for such purpose deprive a person of resident student status.
2. A person shall be classified as a "resident student" if he or she has continuously resided in Indiana for at least 12 consecutive months immediately preceding the first scheduled day of classes of the semester or other session in which the individual registers in the University, subject to the exception in (c)¹ below.
 - a. The residence of an unemancipated person under 21 years of age follows that of the parents or of a legal guardian who has actual custody of such person or administers the property of such person. In the case of divorce or separation, if either parent meets the residence requirements, such person will be considered a resident.²
 - b. If such person comes from another state or country for the predominant purpose of attending the University, he or she shall not be admitted to resident student status upon the basis of the residence of a guardian in fact, except upon appeal to the Standing Committee on Residence in each case.¹

- c. Such person may be classified as a resident student without meeting the 12-month residence requirement within Indiana if his or her presence in Indiana results from the establishment by his or her parents of their residence within the state and if he or she proves that the move was predominantly for reasons other than to enable such person to become entitled to the status of "resident student."¹
 - d. When it shall appear that the parents of a person properly classified as a "resident student" under subparagraph (c) above have removed their residence from Indiana, such person shall then be reclassified to the status of nonresident; provided, that no such reclassification shall be effective until the beginning of a semester next following such removal.
 - e. A person once properly classified as a resident student shall be deemed to remain a resident student so long as remaining continuously enrolled in the university until such person's degree shall have been earned, subject to the provisions of subparagraph (d) above.³
14. The foreign citizenship of a person shall not be a factor in determining resident student status if such person has legal capacity to remain permanently in the United States.³
15. A person classified as a nonresident student may show that he or she is exempt from paying the nonresident fee by clear and convincing evidence that he or she has been a resident (see Rule 1 above) of Indiana for the 12 months prior to the first scheduled day of classes of the semester in which his or her fee status is to be changed. Such a student will be allowed to present his or her evidence only after the expiration of 12 months from the residence qualifying date, i.e., the date upon which the student commenced the 12-month period for residence. The following factors will be considered relevant in evaluating a requested change in a student's nonresident status and in evaluating whether his or her physical presence in Indiana is for the predominant purpose of attending a college, university, or other institution of higher education. The existence of one or more of these factors will not require a finding of resident student status, nor shall the non-existence of one or more require a finding of nonresident student status. All factors will be considered in combination, and ordinarily resident student status will not result from the doing of acts which are required or routinely done by sojourners in the state or which are merely auxiliary to the fulfillment of educational purposes.
- a. The residence of a student's parents or guardians.
 - b. The situs of the source of the student's income.
 - c. To whom a student pays his or her taxes, including property taxes.
 - d. The state in which a student's automobile is registered.
 - e. The state issuing the student's driver's license.
 - f. Where the student is registered to vote.
 - g. The marriage of the student to a resident of Indiana.
 - h. Ownership of property in Indiana and outside of Indiana.
 - i. The residence claimed by the student on loan applications, federal income tax returns, and other documents.
 - j. The place of the student's summer employment, attendance at summer school, or vacation.
 - k. The student's future plans including committed place of future employment or future studies.
 - l. Admission to a licensed profession in Indiana.
 - m. Membership in civic, community and other organizations in Indiana or elsewhere.
 - n. All present and intended future connections or contacts outside of Indiana.
 - o. The facts and documents pertaining to the person's past and existing status as a student.
 - p. Parents' tax returns and other information, particularly when emancipation is claimed.
16. The fact that a person pays taxes and votes in the state does not in itself establish residence, but will be considered as hereinbefore set forth.
17. The registrar or the person fulfilling those duties on each campus shall classify each student as resident or nonresident and may require proof of all relevant facts. The burden of proof is upon the student making a claim to a resident student status.
18. A Standing Committee on Residence shall be appointed by the president of the university, and shall include two students from among such as may be nominated by the student body presidents of one or more of the campuses of the university. If fewer than four are nominated, the president may appoint from among students not nominated.

19. A student who is not satisfied by the determination of the registrar has the right to lodge a written appeal with the Standing Committee on Residence within 30 days of receipt of written notice of the registrar's determination, which committee shall review the appeal in a fair manner and shall afford to the student a personal hearing upon written request. A student may be represented by counsel at such hearing. The committee shall report its determination to the student in writing. If no appeal is taken within the time provided herein, the decision of the registrar shall be final and binding.
20. The Standing Committee on Residence is authorized to classify a student as a resident student, though not meeting the specific requirements herein set forth, if such student's situation presents unusual circumstances and the individual classification is within the general scope of these Rules. The decision of the committee shall be final and shall be deemed equivalent to a decision of the Trustees of Indiana University.
21. A student or prospective student who shall knowingly provide false information or shall refuse to provide or shall conceal information for the purpose of improperly achieving resident student status shall be subject to the full range of penalties, including expulsion, provided for by the university, as well as to such other punishment which may be provided for by law.
22. A student who does not pay additional monies which may be due because of his or her classification as a nonresident student within 30 days after demand, shall thereupon be indefinitely suspended.
23. A student or prospective student who fails to request resident student status within a particular semester or session and to pursue a timely appeal (see rule 8) to the Standing Committee on Residence shall be deemed to have waived any alleged overpayment of fees for that semester or session.
24. If any provision of these rules or the application thereof to any person or circumstance is held invalid, the invalidity does not affect other provisions or applications of these rules which can be given effect without the invalid provision or application, and to this end the provisions of these rules are severable.

1 Rules 2(b) and 2(c) apply only to unemancipated persons under 21 years of age.

2 Invocation of the provision in Rule 2(a) that applies to cases of divorce or separation requires appropriate legal documentation.

3 NOTE: Effective Fall 2007, students with immigration statuses which permit the establishment of a domicile in the United States may be eligible to pay resident fees. Current eligible classifications are: A-1, A-2, A-3, E-1, E-2, E-3, G-1, G-2, G-3, G-4, H-1B, H-4, I, L-1, L-2, O-1, O-3, V-1, V-2, and V-3. Continuing eligibility to remain classified as a resident student for fee-paying purpose depends upon the continued maintenance of eligible immigration status. Contact the registrar's office for more information.

Taxpayer Relief Act of 1997

Education-Related Federal Income Tax Credits

The Taxpayer Relief Act of 1997 offers two nonrefundable federal income tax credits for qualified education expenses paid each calendar year. This act provides for a maximum tax credit of \$1,650 per student for the Hope Scholarship credit (as adjusted for inflation beginning tax year 2002) and a maximum tax credit of \$2,000 per family for the Lifetime Learning Credit after January 1, 2003. Refer to IRS Publication 970 for more information about the associated eligibility requirements.

Beginning in calendar year 1998, all eligible education institutions are required to submit an information return (Form 1098-T, *Tuition Payment Statement*) to the student and to the IRS. The information filed with the IRS must contain the student's Social Security number (SSN). Since Indiana University does not use a student's SSN exclusively as his/her identification number (SIDN), every student must complete Form W-9S (*Request for Student or Borrower Social Security Number*) each calendar year in which the student is enrolled. This form is available electronically through *OneStart* Self-Service (<http://onestart.iu.edu>) and can also be obtained from Financial Management Support, Customer Service, Poplars 525, (812) 855-0375.

For more information about the education tax benefits, visit the Taxpayer Relief Act of 1997 web site at <http://taxpayer.fms.indiana.edu> or send e-mail to taxpayer@exchange.ucs.indiana.edu.

Freshmen

Prospective freshmen are strongly encouraged to apply for admission online at www.admit.indiana.edu. Students may find out more about IU by creating their personalized BeIU page at www.admit.indiana.edu/beiu. The BeIU page provides information about our many academic offerings and the excellent cultural, recreational, athletic, and social opportunities at Indiana University.

Visits to campus can easily be arranged online at www.admit.indiana.edu/visit.

Naturally nothing replaces a visit to our campus. The Admissions Office is open Monday-Friday throughout the year and on many Saturdays during the fall and spring semesters. Campus tours are available on those days when the office is open. Please arrange your visit several weeks in advance.

Transfer Students

Prospective transfer students should apply online at www.admit.indiana.edu.

Current Indiana University undergraduate students who wish to transfer credits from another accredited U.S. or overseas institution can see how these credits will transfer by using the Credit Transfer Service. This service can be accessed on the Web at <http://cts.admissions.indiana.edu>.

Using the Credit Transfer Service is not a requirement for transfer of credit. Students need only have an official transcript sent to the Office of Admissions once the coursework has been completed to have the courses evaluated for transfer credit. The transfer of credit is subject to final approval by the dean of the school in which the student will earn an IU degree.

Intercampus Transfers

Undergraduates enrolled in a degree program at another IU campus who want to transfer to the Bloomington campus should not reapply for admission. Instead, follow the appropriate procedure by completing an intercampus transfer application available at <http://www.admit.indiana.edu/apply>. Choose the 'transfer' link and select the 'Intercampus Transfer Application'.

International Students

Any international student (graduate or undergraduate) applying for admission to a degree program at Indiana University must submit the following:

1. Appropriate Application for Admission. Freshmen and transfer students are encouraged to apply online at www.admit.indiana.edu.
2. Other supporting materials as outlined on the admissions website at www.admit.indiana.edu.

Graduate Students

All persons wishing to pursue a degree at the graduate level must be admitted by the appropriate department, division, program, or school. Admission is made to a particular area for a particular degree, and no student shall be considered a candidate for a degree without having been admitted to work toward that degree.

Application forms are available from the following schools of the University: University Graduate School; School of Library and Information Science; Schools of Business; Education; Informatics; Journalism; Music; Law; Medicine; Nursing; Optometry; Social Work; Health, Physical Education, and Recreation; and Public and Environmental Affairs.

Computer-Based Test Registration (812) 856-0684

<http://www.indiana.edu/~best>

Hours: Monday-Friday, 8:00 a.m.- 5:00 p.m. and by appointment.

Indiana University Bloomington Evaluation Services and Testing (BEST), a unit of the Office of the Vice Provost for Undergraduate Education, administers a wide variety of national, institutional, and computer-based standardized exams in conjunction with national test organizations and Indiana University academic departments. Numerous instructional support services are also available to faculty.

National Testing

National testing includes paper-and-pencil undergraduate/graduate admissions exams (ACT, GRE Subject Tests, LSAT, MAT, PCAT, PRAXIS PPST, SAT Reasoning and Subject Tests), as well as professional licensure and certification exams (Certified Paraoptometric Exams, CHES, MPRE, Optometry National Boards, PRAXIS Series Exams). Registration information is available at BEST during regular office hours. Information on the following exams may be obtained by visiting the office indicated: LSAT and MCAT (Health Professions/Prelaw Information Center, Maxwell Hall 010), and MPRE (Law School Dean of Students Office, Law Building 024).

Computer-Based Testing

Computer-based testing, under the auspices of Educational Testing Service and Prometric, is available for selected graduate/professional admissions and professional licensure exams. Computerized versions of the GRE General Test, Medical College Admission Test, and PRAXIS I: Pre-Professional Skills Test in Reading, Mathematics, and Writing can be taken by appointment during regular office hours. Unlike paper and pencil exams, there are no national test dates or registration forms. Registration information and fee payment are collected during the appointment process. BEST also administers the computer-based MCAT and iBT TOEFL on established national test dates. These exams require online registration with and fee payment made directly to the appropriate national testing organization. Candidates for all computer-based exams should make appointments as far in advance of the desired test date as possible. Testing by appointment is generally offered Monday through Friday, except university holidays. Testing on other days may be offered as needed. Appointments can be made and further information obtained by calling (812) 856-0684.

Institutional Testing

Institutional testing consists of foreign language placement and exemption exams in French, Spanish, German, Latin (undergraduate only), and Italian (undergraduate only). These tests measure one's level of proficiency in a language studied previously. At the undergraduate level, test scores provide a basis for placing students into the most appropriate level of language coursework. At the graduate level, students may satisfy University Graduate School requirements for language study through superior exam performance.

Additionally, BEST supports the academic mission of Indiana University through scoring and analyzing classroom tests, offering web-based assessment services for faculty, administering a student rating system of teaching and instruction, and consulting with faculty on survey development and assessment issues.

Those wishing to learn more about BEST and its services are invited to view the internet site above and/or to call the office for assistance.

Academic record information available for verification may include prior and/or current enrollment, enrollment status, GPA, and final degree conferral.

Enrollment verifications will not be issued to students who have outstanding financial obligations*, including past due accounts with the Bursar (812) 855-2636, Student Loan Administration (812) 855-4511, Dean of Students/Greek Housing (812) 855-4311, or Student Ethics (812) 855-4463. Grade Symbols and Abbreviations

Grading and Credit Point System

The following grades are considered in computing semester or cumulative grade averages:

A+	(4.0 Pts.)	B+	(3.3 Pts.)	C+	(2.3 Pts.)	D+	(1.3 Pts.)
A	(4.0 Pts.)	B	(3.0 Pts.)	C	(2.0 Pts.)	D	(1.0 Pts.)
A-	(3.7 Pts.)	B-	(2.7 Pts.)	C-	(1.7 Pts.)	D-	(0.7 Pts.)
F	Failing or Withdrawn-Failing (0.0 Pts.)						

The following grades are not considered in computing semester or cumulative grade averages:

- FX** Denotes an undergraduate level course originally failed and subsequently retaken during or after first semester 1976-77. The course and assigned grade from the re-enrollment are shown as an additional line entry on the permanent academic record and the grade is computed in the cumulative grade-point average.
- I** Incomplete. Effective first semester 1977-78, Incomplete grades will be automatically changed to F after one calendar year unless the course instructor has submitted a grade earlier, or the student's dean authorizes an adjustment of the one year period in exceptional circumstances.
- NC** No Credit (established 1971).

- NR** No Report filed by instructor.
- NY** Used to signify enrollment in a special program for which credit when earned will be shown as an additional entry on the permanent academic record.
- O** Denotes an Incomplete in a course taught through Purdue University.
- P** Passed (pass-fail option). The pass-fail option permits graduate and undergraduate students to enroll in a course and receive a grade of P or F. Pass-fail option courses are normally limited to electives. The responsibility of approval, as well as special regulations affecting the option, rests with the dean of the student's school or division—under procedures which the school or division establishes. Instructors of undergraduate students are not notified of students registering for this option. A grade of P cannot be subsequently changed to a grade of A, B, C, or D.
- R** Deferred (effective second semester 1976-77). The grade R (deferred grade) used on the final grade report indicates that the nature of the course is such that the work of the student can be evaluated only after two or more terms.
- S** Satisfactory (entire section graded S or F).
- W** Withdrawn-Passing. Used to indicate withdrawal while passing or withdrawal during the automatic W withdrawal period. Effective second semester 1974-75 through second summer session 1995, indicates such withdrawals processed after the official drop and add period. Effective beginning first semester 1995-96, indicates such withdrawals processed after the first week of classes.
- X** Passed Without Grade (discontinued 1965; treated as Satisfactory).

■ GPA Calculations

Semester and cumulative grade-point average (GPA) calculations will appear on *OneStart* (once grades are official) and on the official Indiana University academic record as maintained by the Office of the Registrar. Students should note that a cumulative GPA and hours calculations as applied to degree requirements and graduation are maintained by the offices of the deans and recorders of the student's school and may differ from those appearing on the university record. Students should consult the student records office of their school for all questions pertaining to degree hours and degree GPA.

■ Pass/Fail Option

See Pass/Fail Option in the index for references to further information.

■ Residence Classification

Every student who attends Indiana University is classified as either a resident or nonresident student for fee-paying purposes. Students returning to Indiana University after an absence of twelve or more consecutive months will need to provide additional information to the Office of the Registrar in order to clarify their residence status for fee-paying purposes. This information concerns employment, residential addresses and enrollment at other institutions of higher education during the period since their last semester enrolled on any campus of Indiana University. Following registration for each session, a residence audit of the enrollment files will identify returning students. An e-mail request will be sent to those returning students who have not yet submitted the electronic *Residence Classification Form for Fee-Paying Purposes at Indiana University* form.

■ Room Scheduling

Any departmental secretaries, faculty members, etc., who wish to reserve a classroom for testing purposes, review periods, help sessions, etc., should contact their departmental scheduling officer.

Scheduling officers (or members of departments without scheduling officers) should then contact the Office of the Registrar, Franklin Hall 235, 855-2489 by phone or by mail as appropriate.

Reservations for Summer 2010 will be processed by the Office of the Registrar beginning Wednesday, April 7, 2010.

In addition, any student wishing to schedule a classroom for a university-related activity should first contact the Student Activities Office, 855-4311, Indiana Memorial Union 371, to obtain a space application form. After this form has been obtained, the student should bring it to the Office of the Registrar, Franklin Hall 235.

This option can be exercised by filling out the appropriate form at the Office of the Registrar, Franklin Hall 100, by the end of the first week of classes. This information will be excluded every semester after the form is filed, or until the student notifies the Office of the Registrar, in writing, to withdraw the exclusion.
