In March the committee will meet with Connie Peterson-Miller, Director of Admission to discuss the recommended guidelines and practices. The committee will have a report and a recommendation to the Senate Executive Committee in time for the April meeting of the Academic Senate.

2. Titan Success Center Proposal

In her original message to the committee about the proposal, Linda Chen asked two questions.

1. What questions arise in your mind about this proposal?
2. How might this work with the advising structures already in place?

The committee discussed these two questions. The committee decided to create a response to Linda Chen centered on these two questions. This response will also be sent to the Executive Committee of the Senate.
