William Evans Jenkins Award 2017: Call for Nominations

The 2017 William Evans Jenkins Award Committee (Wookjin Cheun; Nick Homenda; Kimberly Mattioli; Taemin Park; and Chuck Peters, chair) hereby invites you to identify and nominate potential candidates for the 2017 award.

Named for William Evans Jenkins, former Chief Librarian of Indiana University, this award may be presented annually to a current or former librarian on the Bloomington campus, in recognition of their outstanding contributions to the Indiana University Libraries or to the library profession in general. While eligibility for the award is limited to former and current Bloomington campus librarians, nominations may be made by any member of the Indiana University community.

Outstanding Bloomington Library Faculty colleagues deserve our recognition and appreciation. William Evans Jenkins should be remembered for his vision for the Indiana University Libraries and for his commitment to the profession as a whole. By nominating a librarian you admire and respect, you are keeping the memory of William Evans Jenkins alive and inspiring others to perform at the highest level. Nominations for this award may be submitted individually or jointly.

How to submit:

1. An "intent to nominate" message must be sent to Betty Davis (betdavis@indiana.edu) by November 30, 2016.
2. Documentation:

Digital Library Brown Bag Series

TITLE: Strategies for Creating Open Digital Projects with Paywalled Sources

PRESENTERS: Kalani Craig, Department of History

DATE: Wednesday, October 19, 2016

TIME: 12:00pm-1:00pm

PLACE: Wells Library, E159 (Hazelbaker Hall)

[*Save to my Calendar*](#)

Watch the presentation here: <http://connect.iu.edu/diglib>
(If you are not a registered Connect user, select "Enter as Guest".)

Digital history projects bring with them visions of freely accessible data sets, clean and ready to be adapted from one project for use in another. The reality of the data landscape for digital humanists is much more complicated. Many digitized, transcribed sources available for use in text mining are institutionally owned and often paywalled as a result. Additionally, archives often place limitations on the transcription results of their archived documents. These copyrighted digitized texts are still valuable targets for text mining, hGIS and network-theoretical approaches, but it can be difficult to provide results that meet open-data best practices within the constraints of the original copyrights...[Read the rest of the abstract here: <https://libraries.indiana.edu/strategies-creating-open-digital-projects-paywalled-sources>]
