Major Activities

The Committee on Teaching (CoT) met three times during the 2010-11 academic year, once in the fall and twice in the spring. A first activity involved grappling with issues that had been raised in committee discussions numerous times in recent years and which were noted as well in the 2010 report to Policy Council. The committee perceived that the Trustees' Teaching Award was often awarded repeatedly to a relatively small number of the same persons. Committee members wished to explore ways to distribute the award somewhat more widely, thereby acknowledging, supporting and encouraging a larger number of the extraordinary educators within the School of Education. The committee proposed the following motion, which was approved by Policy Council:

That IU Bloomington faculty who have been awarded the Trustees' Teaching Award for two consecutive years be ineligible for a nomination in the subsequent third year but may be re-nominated after a one-year gap. (In other words, a faculty member who receives the award in 2010 and 2011 cannot be nominated in 2012, but may be re-nominated in 2013.)

Department chairs were invited to consider nomination criteria beyond the highest rankings in the merit review process. The committee also spent significant time discussing and developing criteria for selecting award winners that we hoped might expand the ways in which excellent teaching could be conceptualized. A second issue was a perception that the process of being nominated for an award had become onerous due to the large volume of documents required from nominees. The committee therefore reduced the number of documents that nominees were asked to submit. At the time of this writing, the committee continues to reflect on the

nomination and selection process for the various teaching awards.

The majority of the committee was involved in the process of carefully reading, analyzing ranking documents submitted for the Trustees' Award, the Outstanding Associated Instructor Award, the Outstanding Adjunct Award and the Burton Gorman Teaching Award. Committee members are involved as well in planning for and presenting at the Celebration of Teaching event at which these awards are presented. Additional activities in which members of the CoT were involved this year included reviewing and ranking School of Education submissions for the Summer Instructional Development Fellowship and a consideration of the degree to which common course evaluation questions might be used across departments.
