Staff News

Charla Lancaster resigned from her position as Collection Development Specialist on April 17, 2010 to take a position as Director for Assessment and Library Access Services at Virginia Tech University Libraries. A familiar face to most of us, Charla has been with Indiana University since 1995, with positions in Customer and Access Services, Human Resources, and Collection Development. She earned both a Bachelor's degree in Business and a Masters Degree in Library Science during that time. In her current position since 2003, Charla has been an indispensable resource to librarians and staff in all aspects of collection development, and I'm sure many will miss not only her support and expertise, but also her unflinching good humor and positive outlook.

Eric Bartheld, who has served as Director of Communications for the IU Bloomington Libraries since 2006, and Associate Development Director from 1998-2006, will be departing the Libraries to relocate to the University of Maryland. There, Eric will be the Director of Communications for Patricia Steele.

Eric has accomplished a great deal in the task of heightening awareness of the Libraries mission and identity within the university community and more broadly in the academic community at large. His work with HathiTrust, the CIC, the Association of Research Libraries and many others, will impact the ways in which people view libraries, and the IU Libraries specifically, for years to come.

Among Eric's greatest gifts are his sense of humor, and his enormous capacity for fun. If one thinks back to some of the wonderful events taking place in the Libraries in the past 12 years, they always involve Eric. Dean Brenda L. Johnson made the following remark about Eric. "It is a bittersweet moment, indeed, as I write today. As we wish Eric all the best in his new position at Maryland, we know how deeply we will miss him. Although I have only been here a short time, it is clear Eric has left a remarkable legacy at IU Bloomington Libraries. In my tenure here, Eric has quickly become one of my most trusted, respected, and valuable colleagues. Not only is the quality of Eric's work beyond compare, he brings an incredibly infectious enthusiasm and positive outlook to everything he does. I know you all join me in wishing Eric exciting new adventures and feel comforted in knowing he takes many happy memories with him of this time at IU. Happy trails, Eric!!"

Eric's last day will be Friday, April 23. Please come by the Administration Office and give him your best wishes.

Digital Library Brown Bag Meeting

Greetings! Please join us this coming Wednesday, April 21, 2010 for a digital library brown bag presentation by Mike

Durbin. The presentation will be held at the Herman B Wells Library, room E174, from 12:00-1:00.

Streamlining the Digitized Image Workflow

Mike Durbin, Programmer/Analyst, Digital Library Infrastructure

Digital Library Program

The Digital Library Program strives to deliver a wide variety of materials which lend themselves to fairly unique delivery interfaces. Despite this diversity, the requirements for various image collections are common enough to allow for a more generalization and automation of the process. This presentation will include discussion of the ways in which we've been able to streamline digitization, metadata entry, archival, discovery and delivery for digital image collections. We will show the current state of the integration of several independently developed tools and present the cases of recently started and launched collections.

Presentation slides and audio will be available via the Connect Meeting Service (formerly known as "Breeze"). Go to [connectmeeting.com](#) to view and listen to the presentation. If you are not a registered user for Connect Meeting/Breeze, select the "Enter as a Guest" option.

The Digital Library Brown Bag series is held most Wednesdays this spring semester. All presentations are in the Herman B Wells Library, room E174, from 12:00-1:00

pm unless otherwise noted. The complete schedule, including abstracts, is available on the Digital Library Program web site:

To receive a reminder and an abstract of each presentation, send an email to listserv@indiana.edu with the message body:
