Subject: Annual Committee Report

The Faculty Affairs committee met actively during the 2009-2010 academic year.

We created a document on tenure committee membership that was submitted to the Faculty and subsequently approved. This document was intended to bring us in compliance with new university policies.

We also revised the campus Tenure and Promotion document, proposing five amendments be added. The first two were approved by the Faculty Senate, but the other three were tabled for further work in the 2010-2011 academic year.

We also created a document to express concerns with the state of the campus web site.

Lastly, we created a document committing the faculty to student success that was approved by the Faculty Senate.

Attached are copies of the documents submitted to the faculty senate.
