

To: University Faculty Council
From: Faculty Affairs Committee
Date: April 20, 2000
Subject: Policy on Academic Appointments

At the April 25, 2000, meeting of the UFC, the Council will discuss drafts of documents in the Faculty Appointments project that are currently being considered by the UFC Faculty Affairs Committee. Final action on the proposals is anticipated for a UFC meeting in the fall.

These drafts include and move on from the scheme for classification of academic appointments adopted in principle by the UFC in February. Circular U13-2000 contains revised material for the *Academic Handbook* bearing on the Regulation of Clinical and Lecturer Appointments. Circular U14-2000 contains proposed amendments to the balance of the *Academic Handbook* section on Academic Appointments. These materials are presented here as separate documents for convenience in consideration; they will be integrated into a single document for final action. In both circulars material not previously considered is indicated by [redline](#). [Editor's note: Redlined information also will be underlined, because redlining is not easily distinguished after photocopying. On our web site, the redlined words will appear in red.]
