Measures and Findings

Outcome 4, Communication and Execution

Outcome

Students will appropriately respond to OSSA communications, regardless of mode, in a timely manner

Mapped to:

- **IU Kokomo Strategic Priorities 2014-2020:** Strategic Priority II

Measure

Communication assessment

INSTITUTION LEVEL; INDIRECT - SURVEY

Details/Description:

The revised survey assessing student communication modes asks students what form of communication (if any) precipitated their coming for an advising meeting, and what form of communication they prefer to receive from advising. It also asks for student username so that we can do an internal examination of whether students in different programs or situations prefer different communication modes.

Acceptable Target:

We are seeking a valid assessment that will allow us to both examine student responsiveness to advising outreach, but also how to strategize changes to improve response.

Implementation Plan (timeline):

Data will be gathered in Fall 2018, and examined in Spring 2019.
