

General Education Requirements

Indiana University Kokomo General Education Requirements (Last Official Revision Passed at the 4/20/2015 Faculty Senate Meeting)

The following general education curriculum (effective fall 2009) is required of each student who is granted a baccalaureate degree at the Indiana University Kokomo campus. Total credit hours will typically number 42 or 44. Each course must be completed with a passing grade, and students must obtain a minimum GPA of 2.0 in the General Education curriculum. If a student takes more than the required number of courses within a section, the course(s) with the highest grade(s) will be used in the GPA calculation. With the exception of courses jointly listed under Sections I and II, no course can be used twice to satisfy multiple requirements. Some courses may have prerequisites. Students should consult with their advisor for more information.

A full-time faculty member is responsible for documenting course coverage of required outcomes and assessment of student learning of the related components (within the course). Failure to provide requested documentation or failure to cover and assess the required outcomes will result in removal of the course from the curriculum. Changes in the general education curriculum (requirements, courses, learning outcomes and components) will be managed by the EPC and presented to the Faculty Senate as a voting item. The EPC should be notified of changes in faculty members responsible for courses. Faculty changes will be considered an administrative item and not subject to Faculty Senate vote.

On 1/26/2015 the Faculty Senate approved the following two items relating to adding/subtracting courses and guidelines for advisors and students:

- 1) Course additions and subtractions from the IU Kokomo Campus-Wide General Education Program will be made only once per year. All proposals must reach the Chair of the EPC by March 15th so that the proposal can be considered by the EPC and then voted on at the April Faculty Senate meeting. This will allow the changes to go into the online bulletin.
- 2) Each student is subject to the General Education requirements in place when they were admitted to IU Kokomo. However, students are always allowed to adopt newer course/program requirements. General Education courses essentially qualify backward and forward within a given student's academic career at IU Kokomo. Here are a couple of examples:
 - If a course is approved to satisfy an area of the General Education Requirements after a student is admitted, the student can elect to use that course even if they took it before the course was approved for use in General Education.
 - If a course that was present when a student enrolled is removed from the General Education Requirements (but is still offered), the course can be used even if it is completed after the above change.
 - If a removed course is no longer offered, students will need to adjust and enroll in other approved courses.

|--|--|
| <p>I. <u>Communication Skills</u></p> <p>Requirement – Three required courses (total of 9 hours)</p> <p>Outcome 1: Students will read critically</p> <p>Component 1: Students will understand texts</p> <p>Component 2: Students will analyze texts</p> <p>Component 3: Students will evaluate texts</p> <p>Outcome 2: Students will write effectively</p> <p>Component 1: Students will exhibit rhetorical choices based on audience and purpose in written material</p> <p>Component 2: Students will organize the introduction, body, and conclusion effectively based on audience and purpose</p> <p>Component 3: Students will use appropriate writing conventions (grammar, spelling, sentence structure, documentation, and punctuation) in written materials</p> <p>Component 4: Students will synthesize research material effectively and ethically into written work</p> <p>Outcome 3: Students will listen effectively</p> <p>Component 1: Students will understand oral messages</p> <p>Component 2: Students will analyze oral messages</p> <p>Outcome 4: Students will speak effectively</p> <p>Component 1: Students will write an effective speech</p> <p>Component 2: Students will deliver an effective speech</p> <p>Outcome 5: Students will use technology appropriately to support communication</p> <p>Component 1: Students will use presentational aids effectively</p> <p>Component 2: Students will locate appropriate sources for papers and speeches</p> | <p>ENG-W131 (not required if student places into ENG-W132)</p> <p>ENG-W132 SPCH-S121</p> |
| <p>II. <u>Information Literacy</u></p> <p>No incremental requirement</p> | |

| | |
|--|---|
| <p>Outcome 1: Students will determine the nature and extent of information needed</p> <p>Component 1: Students will choose appropriate types of information</p> <p>Component 2: Students will determine relevance of information</p> <p>Component 3: Students will determine currency of information</p> <p>Outcome 2: Students will access the needed information effectively and efficiently</p> <p>Component 1: Students will use appropriate library and web-based search tools</p> <p>Outcome 3: Students will evaluate information and its sources critically</p> <p>Component 1: Students will examine sources for bias</p> <p>Component 2: Students will examine sources for credibility</p> <p>Outcome 4: Students will identify ethical, economic, legal, and social issues surrounding the access and use of information</p> <p>Component 1: Students will practice ethical use of sources by avoiding plagiarism</p> <p>Outcome 5: Students will use information effectively to accomplish a specific purpose</p> <p>Component 1: Students will employ appropriate information to support a specific aspect of a paper or speech_</p> | <p>Satisfied by ENG-W131, ENG-W132, SPCH-S121 above</p> |
| <p>III. <u>Quantitative Literacy</u> _</p> <p>Requirement – Choose from one of three options (total of 4 – 8 hours)</p> <p>Outcome 1: Students will translate a verbal problem into mathematical symbols</p> <p>Component 1: Students will represent mathematical information symbolically</p> <p>Component 2: Students will represent mathematical information graphically</p> <p>Outcome 2: Students will solve the mathematical problem that</p> | <p><u>Option 1</u></p> <p>MATH-M118 or MATH-M119 or MATH-M215</p> <p><u>and</u> a statistics course at the major level:</p> <p>ECON-E270 MATH-M366 MATH-K310 PSY-K300 EDUC-K490 NURS-H355 SOC-S355</p> |

| | |
|--|--|
| <p>models the verbal problem</p> <p>Component 1: Students will use algebraic methods to solve problems, using technology when appropriate</p> <p>Component 2: Students will use graphical methods to solve problems, using technology when appropriate</p> <p>Outcome 3: Students will use the solution of the mathematical problem to draw valid conclusions about the verbal problem</p> <p>Component 1: Students will draw inferences from mathematical models</p> <p>Component 2: Students will interpret empirical results</p> <p>Outcome 4: Students will use fundamental statistical information</p> <p>Component 1: Students will interpret data using tables and graphs (e.g. frequency tables, histograms).</p> <p>Component 2: Students will compute and interpret basic descriptive statistics (e.g. mean, weighted mean, median, mode, standard deviation, percentiles).</p> <p>Component 3: Students will understand basic concepts relating to sampling (populations/samples, random sampling).</p> <p>Component 4: Students will use basic probability distributions (e.g. normal distribution, binomial distribution)</p> <p>Component 5: Students will compute and interpret confidence intervals of a population parameter (e.g. proportion or mean)</p> | <p>AHLT-H322</p> <p><u>Option 2</u></p> <p>MATH-M133 and MATH-M134</p> <p>These courses have MATH-M117 as a prerequisite and include the statistics content.</p> <p><u>Option 3</u></p> <p>Students pursuing the B.A. in Mathematics will satisfy the statistics requirement through MATH-M366 or through an independent study project that will be assessed on the General Examination that is required to earn the degree.</p> |
| <p>IV. <u>Critical Thinking</u></p> <p>Requirement – One course from the list (total of 3 hours)</p> <p>Outcome 1: Students will recognize issues that have alternative interpretations</p> <p>Component 1: Students will understand and respect the potential differences in the perspectives of others</p> <p>Component 2: Students will summarize the explicit and implicit aspects of an issue</p> <p>Component 3: Students will demonstrate an understanding of the influences of audience and context on an issue</p> | <p>PSY-P259 HSS-S400 PHIL-P150 ENG-L202 SPCH-S336 SOC-S340 BUS-J401 PAHM-V379 CJHS-J201 NURS-N476 NURS-S470 INFO-I303 EDUC-P251 EDUC-P255 NMCM-N411</p> |

| | |
|--|---|
| <p>Outcome 2: Students will compare the perspectives of others to their own</p> <p>Component 1: Students will articulate their own perspectives and recognize potential personal bias</p> <p>Component 2: Students will question the underlying assumptions of self and others</p> <p>Outcome 3: Students will assess the quality of supporting evidence</p> <p>Component 1: Students will consider the literature and new research in the field</p> <p>Component 2: Students will assess the accuracy and relevance of supporting evidence</p> <p>Component 3: Students will use a variety of techniques to assess the quality of supporting evidence</p> <p>Outcome 4: Students will assess the implications and consequences that result from proposed conclusions</p> <p>Component 1: Students will identify the pros and cons of different theoretical approaches</p> <p>Component 2: Students will articulate the implications and consequences of an argument</p> <p>Component 3: Students will compare recommendations resulting from applying different theoretical frameworks</p> | <p>CHEM-105/125 BIOL-L105 MATH-M216 BIOL-L364 PHIL-P383 AHLT-R406</p> |
| <p>V. <u>Cultural Diversity</u></p> <p>Requirement – One course from the list (total of 3 hours)</p> <p>Outcome 1: Students will demonstrate knowledge about diverse cultures, behaviors, systems, or societies.</p> <p>Component 1: Students will define culture and identify cultural characteristics.</p> <p>Component 2: Students will identify cultural patterns in terms of folk customs, ethnicity, class, gender, age, religion, or other cultural components.</p> <p>Component 3: Students will identify the beliefs, values, and rights of others.</p> <p>Outcome 2: Students will analyze the interconnectedness of</p> | <p>HSS-I100* HSS-F200* SPCH-S302 SPCH-S427 EDUC-M300 EDUC-M210 BUS-D301 PAHM-V443 CJHS-J355 FOLK-F101 INFO-I356 SOC-S100 NURS-B223 NURS-B248 NURS-B304 AHLT-H415</p> |

| | |
|---|---|
| <p>global and local concerns.</p> <p>Component 1: Students will identify global trends related to politics, health, economics, or education.</p> <p>Component 2: Students will articulate the connections, similarities, and dissimilarities between local practices, problems, and opportunities and global practices, problems, and opportunities.</p> <p>Component 3: Students will articulate the benefits of accommodating, adapting to, and/or incorporating cultural differences.</p> | <p>Any 100-level or above foreign language course</p> |
|---|---|

* To facilitate the graduation checklist process, records will need to be kept at the registrar level or the advisor level indicating the goal satisfied in any given semester (if any).
