#### **InULA Research Incentive Grants**

Applications are being accepted for the next round of InULA Research Incentive Grants.

The deadline is April 15, 2011.

The Research Incentive Fund Guidelines and Application Form are online.

To apply, go to: <http://www.indiana.edu/~inula/opportunities/index.html>

Submitted by: *Lynda Fuller Clendenning, Chair, InULA Grants Committee*

### **Film Movement Spring Series**

Join the IUB Libraries in its presentation of *STORM*, Wednesday, February 23, 4:30pm, Wells Library, E174. Hannah Maynard, prosecutor at the International Criminal Tribunal in The Hague, is leading a trial against a former commander of the Yugoslavian National Army who is accused of the deportation and later killing of dozens of Bosnian-Muslim civilians. When a key witness commits suicide, it looks like the case will unravel, however Hannah refuses to give in. Hoping to uncover new findings, she travels to the witness' burial in Sarajevo and meets his sister Mira who she senses has much more to say than she is willing to admit. Despite threats of violence, Mira reluctantly agrees to testify at The Hague. However, she and Hannah must both risk life and limb to make it to the court, only to discover that there are traitors among their own ranks.

For more information about upcoming FMS films, visit the M&RS web page at: <http://www.libraries.iub.edu/index.php?pageId=1002305>.

### **IU Libraries and UITS Host Code4Lib 2011**

The IU Libraries and UITS will host this year's Code4Lib 2011 Conference in Bloomington, IN on February 8-10, 2011 in the Indiana Memorial Union (IMU). We are indebted to the members of the local organizing, program, and voting committees for their tireless planning efforts.

As this year's conference hosts, the Indiana University Libraries and University Information Technology Services (UITS) are bringing together a wide-ranging group of developers from academia, the information industry, and public libraries and have national and international participants lined up for a truly exciting program (see the schedule at <http://www.indiana.edu/~uits/code4lib/program/conference.php>).

Together, we hope to deliver not only an excellent technical program, but also a pervasive social program that brings the developer community for libraries together in new ways. We extend a warm welcome to all of our visitors to the Bloomington campus.

Code4lib Conference is an annual international un-conference, loosely structured for library technologists to commune, gather/create/share ideas and software, be inspired, and forge new collaborations. For more information, see <http://code4lib.org/conference>.
