<i>HAIL TO OLD I.U.</i>	Led by Dean Demaree
BENEDICTION	Mr. Garascia
RECESSIONAL.....	IUSB Southold Wind Ensemble

THE STAR-SPANGLED BANNER

O say, can you see, by the dawn's early light,
 What so proudly we hail'd at the twilight's last gleaming?
 Whose broad stripes and bright stars, thro' the perilous fight,
 O'er the ramparts we watch'd, were so gallantly streaming?
 And the rockets' red glare, the bombs bursting in air,
 Gave proof thro' the night that our flag was still there.
 O say, does that Star-Spangled Banner yet wave
 O'er the land of the free and the home of the brave?

HAIL TO OLD I.U.

Come and join in song together,
 Shout with might and main;
 Our beloved Alma Mater,
 Sound her praise again.

Chorus

Gloriana, Frangipana,
 E'er to her be true;
 She's the pride of Indiana,
 Hail to old I.U.!

—Joe T. Giles, 1894

COMMENCEMENT CEREMONIES

The audience is requested to remain until the conclusion of the ceremonies

The exercises of the twenty-eighth annual Commencement are enacted today at Indiana University South Bend. The counterpart of the pageantry enacted each year on campuses all over the world is the solemn climax and recognition of the graduates' years of study and preparation for responsibility.

To help spectators understand the significance of the ceremony, the following description is furnished.

PROCESSION

Leading the procession is the grand marshal, bearing the ceremonial Mace, emblematic of the authority of the state and the university. The grand marshal wears a white brocade gown with panels trimmed in red velvet and a white brocade cap with gold satin shoulder sash and gold tassels. Other marshals wear shoulder sashes of various colors and designs. Led by marshals, the candidates march behind the respective divisions and schools that recommend them for their degrees. They are:

School of Allied Health Sciences
Division of the Arts
Division of Business and Economics
School of Continuing Studies
School of Dentistry
Division of Education
Division of Liberal Arts and Sciences
School of Nursing
School of Public and Environmental Affairs
Purdue University School of Technology

As the candidates reach their seats, the members of the faculties of Indiana University South Bend march in, wearing the colorful hoods of the colleges and universities from which they were graduated. The climax of the processional is the platform party, which includes trustees of Indiana and Purdue universities, deans and other personnel, and finally the presidents of Indiana and Purdue universities. As his badge of office, the president of Indiana University wears a jewel, emblematic of the history of the state and of the university.

The trustees of Indiana University can be identified by their red gowns, which have red velvet panels and red chevrons on the sleeves. They wear black caps trimmed in cream with gold metallic tassels. The trustees of Purdue University can be identified by their black gowns trimmed in distinctive old gold.

ACADEMIC ATTIRE

All candidates for degrees and those who hold degrees, including university officials and faculty and visiting dignitaries, are attired in traditional caps and gowns. The basic color for most caps and gowns is formal black, except for the associate degree candidates, who wear gray. However, degree recipients wear distinctive tassels on their caps (called mortarboards) and hoods of various hues draped down the backs of the gowns.

CAPS

Candidates for degrees wear regulation caps with the tassel color appropriate to the school or division from which they are being graduated. The tassel colors are:

Allied Health—Kelly Green
Arts—Copper
Business and Economics—Drab
Continuing Studies—Silver
Dentistry—Lilac
Education—Light Blue
Liberal Arts and Sciences—White
Nursing—Apricot
Public and Environmental Affairs—Peacock
Blue
Purdue University School of Technology—Red

GOWNS

The bachelor's and associate's gowns have a closed front and open sleeves. The master's gown has extremely long, closed sleeves, from which the arms extend through a slit at the wrist; the end of the sleeve is square, with an arc cut away just above the bottom. The doctor's gown has velveteen panels down the front and voluminous bell-shaped sleeves on which there are three velveteen bars. The velveteen is usually black, but may be blue for philosophy or green for medicine and optometry.

HOODS

The bachelor's hood is rather short with a narrow velvet edging in the color matching the tassels and a lining in the color or colors of the institution—crimson at Indiana. The bachelor's hood is not worn by candidates for this degree.

The master's hood is considerably longer, has a wider velvet edging, and exposes more of the lining.

The doctor's hood is easily recognized by the width of the velvet edging, the wide panels at either side, the greater length, and the full exposure of the lining. The colors of the edging most frequently seen are blue for philosophy, green for medicine, and purple for law; the colors for the honorary doctor's degrees are purple for law, white for letters, and golden yellow for science.

HONORS

Candidates who have been tentatively awarded honors in general scholarship are distinguished by fourragères, which are looped cords worn from the left shoulder. Fourragères with cream and crimson cords indicate highest distinction; those with cream cords indicate high distinction; and those with crimson cords indicate distinction. Honors are awarded by vote of the various faculties, and the fourragères are provided by the university. The appropriate recognition is recorded on the individual's diploma as a permanent testimonial of achievement.

For Purdue University graduates, highest distinction is signified by black and gold fourragères. Distinction is recognized by gold fourragères.

SYMBOLS

Traditional in all formal ceremonies of Indiana University are the Mace, symbol of authority; the Jewel of Office, emblematic of the office of the president; and the Collar of the Jewel of Office. The first is carried in the academic procession by the grand marshal, and the last two are worn by the president. In design and ornamentation they represent significant events in the history of the state of Indiana and of the university.

The treasured symbols were presented to the university by its chapters of the Miami Triad in celebrating their centennials. The Jewel of Office was presented by Beta Theta Pi in 1945; the Mace by Phi Delta Theta in 1949; and the Collar of the Jewel of Office by Sigma Chi in 1958.

THE HISTORY OF ACADEMIC ATTIRE

Academic costume of today has a history of nearly eight centuries. In medieval Europe, all townspeople—men and women—wore long, flowing robes and gowns. The materials and colors varied according to the wealth and rank of the individual and were governed by royal decree. Gradually, there developed distinctive gowns for the various professions, trades, and guilds.

Students in the medieval universities of Paris, Bologna, Oxford, and Cambridge organized themselves into guilds. Their usual garb, a long gown, was necessary for warmth in the unheated buildings. Scholars, generally members of church orders, wore these robes and also hoods to protect their shaved heads. Later, skull caps were worn on the head and the hood became a cape that could be pulled over the head in unpleasant weather. As additional universities were founded, distinctive forms of the gown and hood were adapted by their faculties for bachelors (apprentices of arts), masters (teachers), and doctors (teachers who had completed postgraduate studies). The variations appeared mostly in the hood and were regulated by strict rules. Tailors who departed from the authorized design could be punished. When caps and hats came into fashion in the fifteenth century, the hoods became ornamental, draped over the shoulders and down the back.

The academic hat was adapted from the headdress of ordinary people. It was first worn as a symbol of the master's degree and existed in various forms. Some caps were stiff, some soft, some square, some round with a tuft in the center. The tassel of today is an elaboration of the tuft. The mortarboard style comes to us from Oxford.

When academic costume came to America in 1754, styles varied. In Europe they still do; however, in our country, usage has been standardized by the Intercollegiate Code of Academic Costume.

INDIANA UNIVERSITY SOUTH BEND

Although Indiana University began offering classes in South Bend almost 70 years ago, certain events mark turning points in the university's history. One of the most significant occurred in the spring of 1967, when the first degrees were awarded at South Bend marking the emergence of IUSB as a comprehensive university campus serving the region.

In 1922 Indiana University scheduled its first classes in the South Bend area, primarily to help local teachers meet licensing requirements. During the Depression of the 1930s, Indiana University recognized the need to provide a broader range of higher education opportunities in home communities; as a result, the South Bend-Mishawaka Extension Center was established to offer a basic two-year program. Administrative officers were located in Central High School, and classes were offered during late afternoon and evening hours in the school and in the downtown YWCA.

After a decline in attendance during the war years, returning veterans contributed to a post-war enrollment rise, which launched the center into a major period of growth. In the late 1950s, a site adjacent to the St. Joseph River in South Bend was acquired for a new campus with the help of South Bend officials, organizations, and individuals.

In 1961 the move was made into the first new facility, Northside Hall. A second building was acquired in 1966, and a third structure was completed in 1969. A major addition to

Northside Hall opened in 1972. In 1975, Indiana University purchased land and property from Associates Corporation of North America, which doubled the size of the South Bend campus. IUSB began using some of these properties in 1977. The Franklin D. Schurz Library, the newest facility on campus, was formally dedicated in the spring of 1989.

Just as the campus' physical plant expanded during the 1960s, the center experienced a major period of academic development, emerging as a comprehensive degree-granting institution. In 1963, it became a regional campus, and soon afterward the first four-year degree programs were authorized. In 1967, the first seniors to graduate from the South Bend campus received their degrees. The following year, the campus became Indiana University at South Bend, a title indicating another new level in its academic development and status within Indiana University.

Today Indiana University South Bend is the acknowledged "University that educates Michiana," serving higher education needs of the community with a diverse, highly-respected academic program, and actively planning how to continue meeting those needs well into the future.

The more than 7,800 students now attending IUSB can choose from over 90 fields of undergraduate study or from master's degree programs in business, education, liberal studies, music, nursing, social work, or public affairs.
