Call for Proposals - Library Hacks: New Roles, New Tech, New Spaces

The [Indiana Online Users Group](#) (IOLUG) Program Committee invites you to submit a proposal to present at the Fall 2014 IOLUG program: "Library Hacks: New Roles, New Tech, New Spaces" on **Thursday, October 30, 2014**, at Indiana Wesleyan in Indianapolis, IN. The deadline for proposals is Friday, September 5, 2014. Get some inspiration from previous years' sessions on the [IOLUG Website](#).

Whether it be changes to our roles as librarians, changes in the technology we use to perform our jobs and that we teach our patrons how to use, or changes to our very library environments, the Library is a constantly changing and evolving entity. Our Fall Program theme is "Library Hacks: New Roles, New Tech, New Spaces," and the IOLUG Program Committee is interested in hearing about ways that you "hack" the way you perform your role, how you design your spaces, or how you find and utilize emerging technologies. What new ideas are you implementing to make you or your library more relevant and engaging to those you serve?

The committee is particularly interested in proposals that address:

- Grassroots approaches to doing things differently
- New Library Spaces - changing/adapting/modifying your physical or digital systems
- MOOCs
- Innovation and innovative ideas
- Digital Literacy
- Hacking Librarianship - new roles/philosophies/opportunities
- Emerging Technologies - how we use and find them to educate ourselves and/or our patrons
- Library Collaborations - with community organizations, other departments on campuses, other schools or academic institutions, etc.
- User Experience or User-Oriented Design
- Free and Open Source Software (FOSS)
- Media Center Innovations
- Assessment

The Unseen World: Science & the Supernatural

Ours is a haunted world. Belief in and fear of ghosts, demons, and unseen forces is an undeniable part of human experience. The Lilly Library's summer exhibition, "Spiritualists, Sorcerers, and Stage Magicians" explores this fascination in items from the Lilly's collections from the occult grimoires of Agrippa to stories of modern day ghost hunters stalking their spectral prey in the gaudy pages of 20th-century pulp magazines and comic books.

Please join us for a lecture and reception on **August 28** at 5:00 to celebrate the closing of our summer exhibition. Exhibition curators Rebecca Baumann and L. Anne Delgado will highlight some of the mesmerizing narratives that emerge from the pages of the items on display. Read more about this event [here](#).

Two New Librarians Hired at IUPUI University Library

Bronwen Maxson is a native of Colorado. She received a B.A. from the University of Colorado at Boulder with a double major in English Literature and Spanish Language and Literature. She lived and studied in Seville, Spain as an undergraduate and she taught English in Badajoz, Spain after graduating. She received a Master of Library and Information Science from the University of Denver. She is the Humanities Librarian at Indiana University Purdue University, Indianapolis (IUPUI) University Library with liaison responsibilities to the English Department and Spanish Program. She is excited to be in Indiana because she no longer has to remember to adjust for high altitude baking, and the lightning bugs remind her of growing up in Nebraska.

Caitlin Pollock is the Digital Humanities librarian with the Indiana University Purdue University, Indianapolis (IUPUI) University Library Center for Digital Scholarship. Pollock also serves as the liaison librarian to the Department of Philosophy and the Programs of Africana Studies and Classical Studies providing collection development and research instruction. She earned a B.A. in American Culture from Vassar College in 2006, a Master's degree in Library and Information Science from Pratt Institute in 2011, and a M.A. in Digital Humanities from Loyola University Chicago in 2014. She has worked with institutional repositories, developing metadata as well as outreach to faculty members to encourage and facilitate use of the repository. Pollock's research interests include the role of libraries and librarians in digital humanities research and projects, digital humanities pedagogy, 19th century African American female activists, and the intersection of African American women and institutions of higher education.
