MEDIA SERVICES FILM SCREENING: Trembling Before G-D (2003)

Media Services will screen the award-winning documentary, Trembling Before G-D on Thursday, April 22, 2004. The film shatters assumptions about faith, sexuality, and religious fundamentalism as intimately told by Hasidic and Orthodox Jews who are gay or lesbian and their dilemma to reconcile their passionate love of Judaism and the Divine with the drastic Biblical prohibitions that forbid homosexuality. The film was a winner of the GLAAD Media Award for outstanding documentary, a winner of the TEDDY Award and an Official Selection at the Sundance Film Festival.

Noa Wahrman, Bibliographer for Jewish Studies, will lead a discussion immediately following the screening about issues raised in the film.

InULA Book Sale 2004: Call for Volunteers

The annual InULA book sale is to be held this year on April 17 and 18. It looks to be a good sale this year, and we have lots of books to sell. We need YOUR help with setting up for the sale, selling books, and clean-up.

If you have an hour or two to volunteer, please contact Sherri Michaels (shmichae@indiana.edu) Please include your name, hours you can work, email address, and phone number.

Volunteers may select a couple of the regularly priced books at no cost in return for their work. They also receive a nice letter of appreciation from the chair of the book sale, always useful in a P & T dossier as evidence of service!

Volunteers are need for the following days and times:

Through Hyperlinking Software

IU-Link, a new service launched by the IUB Libraries that promises greater convenience for researchers at all levels, streamlines information retrieval by linking online article citations to full text.

Citations in 113 of the IUB Libraries' largest and most popular databases now link seamlessly to full-text articles in more than 20,000 online journals. In instances when the full-text is not available, researchers can link directly to IUCAT, the online catalog, to see if the university owns the journal or book, or can request delivery of the item through interlibrary loan.

IU-Link eliminates the cumbersome online research process in which users must exit a citation or index database, log in to IUCAT, and conduct individual searches to determine if IU owns the book or journal.

IU-Link was initially implemented at IUPUI in 2002. The service will be available to all IU campuses by the fall.

For further details, go to: <http://www.indiana.edu/~libsfx/sfxfaq.html>

To view a list of the more than 100 databases that use IU-Link, go to: <http://www.indiana.edu/~libsfx/sfxsources.html>

Please send questions, comments, suggestions to libsfx@indiana.edu.
