SIRSI Unicorn Rollover FY2006 to FY2007 (IU System Acquisitions Records)

Downtime: JUNE 27-29

Alert!

The Rollover calendar has been finalized: June 27-29 are the scheduled dates for moving FY06 records into FY07.

There can be no activity in Unicorn Acquisitions and Serials Control during Rollover. No activity creating, editing, deleting, or displaying records will be permitted in the Acquisitions and Serials Controls modules. The Acquisitions module includes Fund, Vendor and Order records. The Serials Control module includes controls, check-in records and patterns.

If you have any questions regarding Rollover itself, please contact Kay Martin, Head of Accounting (IUL) at martinj@indiana.edu . As in the past, Kay will be leading the Rollover effort for the IU system and Gary Weideman (UITS) will be processing all of the rollover programs.

Spencer Anspach (LIT) will manage reports and new fields for FY07 in the Acquisitions module.

Fiscal year 2007 acquisitions and serials activities will start once the all-clear is given to resume activities. We hope that date is June 30; however, please wait to resume activities until we announce that it is OK to work in FY2007 acquisitions and serials records.
