## 7. INSTRUCTIONAL MEDIA DEVELOPMENT GRANTS

Deadlines for proposals: February 27, 1998

Media Production, a division of Instructional Support Services and under the aegis of the Office of Dean of Faculties, is pleased to announce a competition for 1998-99 offering Instructional Media Grants. These grants are designed to support undergraduate and graduate instruction on the Bloomington campus. Though no salary is provided through this program, Media Production will provide all labor and materials - except in the case of extraordinary travel or materials costs.

Video or audio programs produced through these grants must be used in the classroom to improve or to enhance applicants' courses. Specifically, we are looking for projects that fill a particular instructional need, projects that solve a pedagogical problem or problems for a faculty member, a department, or a school. A minimum of four projects will be supported during the 1998/99 academic year.

Proposal forms and guidelines for proposals are available through Media Production. Contact Ralph Zuzolo, Director, Media Production at Franklin Hall M108, 812-855-1983 ☎; [rzuzolo@indiana.edu](mailto:rzuzolo@indiana.edu)

## 8. INTERNATIONAL OPPORTUNITIES FOR LIBRARIES AND LIBRARIANS

Guidelines 1997-98

The Office of International Programs offers grant opportunities to support libraries and librarians at any IU campus for a range of projects and activities aimed at developing the international collections of their libraries, or enhancing their ability to take advantage of international opportunities regarding library development. Types of proposals supported include: international travel to specific world areas for print and media acquisitions; domestic or international travel to examine special collections that might enhance the university's holdings, or to collaborate with colleagues at other institutions on international projects; domestic or international travel to special book or media fairs featuring international content; visits to funding agencies in the U.S. or abroad to identify and coordinate support for special or unique library projects with an international focus. One-time funding is also available for projects that enhance user access to IU's international collections and resources.

Proposals must have a major international dimension. Proposals will be enhanced if they can demonstrate a commitment of matching funds from relevant units (area studies centers, departments, schools, or the IU Libraries). Acquisition travel proposals must include a commitment from the campus library that acquisition funds will be available.
