

Bylaws amendment 3

4. Elected UFC Members:

* * *

~~An affected faculty member or the Agenda/Executive Committee head of the faculty organization of an affected campus may request the Council's Executive Committee to change a faculty member's allocation to a campus for purposes of determining the number of representatives to which a campus is entitled. After giving affected campuses an opportunity to make submissions on the matter, the Executive Committee will report its determination to the council.~~

Reason: The Office of the Exec VP for Academic Affairs handles this, and since campus representation is based on 200 faculty per seat, a few people changing campuses won't matter, so the provision is not needed.
