Committee Minutes: The Academic Senate Personnel Committee met at 10 a.m. Wednesday, February 28, with C. Duncan, M. Esselstrom, R. Gottwald, R. Hamburg,P. Horvath (chairperson), J. Redwine, and J. Ringen present. The chairperson announced that he has been informed by Dean Harriman that the IUSB administration must submit line item requests for new positions for the next biennial budget proposal very soon, and that the Academic Senate Personnel Committee may be placed in a position of acting on these proposals after the fact.

A letter from J. Kenneth Davidson, Sociology, along with the chairperson's response to the letter, was circulated among the committee members. Professor Davidson had requested information from the chairperson regarding the formula which the committee had used in ranking requests for new positions.

The committee also agreed to distribute a questionnaire concerning associate faculty which has been prepared by the IUSB Women's Caucus, and formulated recommendations on requests for sabbatical leave to be taken during the 1976-77 year. The chairperson was instructed to inform each person requesting sabbatical leave of the recommendation concerning their request which the committee will make to Dean Harriman. The meeting adjourned at 11:10 a.m.

The Arts and Sciences Budget Committee met on January 14 with Starkweather, Haines, Cline, and Beem present, Furlong absent. MINUTES OF THE LIBRARY COMMITTEE

INDIANA UNIVERSITY AT SOUTH BEND

January 28, 1976

Present: Mr. Bella, Prof. Clipper, Mrs. Harlan, Prof. Harrington, Prof. Hoffman, Prof. McLean, Prof. Rolston, Prof. Tull, Prof. Willard.

The meeting was called to order at 9:30 A.M. in the Library Conference Room.

The minutes were read and approved.

Faculty Study Assignments. Requests for faculty studies were reviewed. There was discussion of the criteria for assignment. The length of time a faculty member had been assigned a study was the critical factor in determining new assignments. Professors who have had studies continously will have their studies reassigned to new faculty members. The following assignments were made:

051 A	Wolfe & Naffziger
051 B	Leggett
051 C	Joray & Horvath
051 D	DuVall & Krepel
051 F	Rolston & Swanda
051 G	Funk & Walter
051 L	Lyons
051 M	Tawadros
051 P	Choi
051 U	Nazaroff & Febre
051 V	Kaufman

Library Personnel. Prof. Willard suggested that a library management study might be made to determine outmoded procedures. He has contacted Dr. Studer in Bloomington for information and manuals for such a review. Some areas to be reviewed might include objectives, procedures, personnel etc. The timing of the study was discussed. With the planning for the assignment of new space in the Associates complex, Prof. Rolston asked how that might affect such a study. Prof. Willard suggested that this time would be the best to affect that disposition. Prof. Harrington asked about the relationship between the management people and the Library Committee and the cost of such a study. Prof. Willard stressed that some significant insights can be gained from fresh, non-professional approaches. Prof. Willard stressed the need for a business approach in running a university library. He moved that experts in management at IUSB be brought in to review procedures and make recommendations for changes. Seconded by Mr. Bella, with the additional proviso that the study be free of cost. Prof. Harrington asked again about the relationship of the experts to the Library Committee. Prof. Willard responded that the Chairman of the Committee would recruit for the study. Prof. Harrington questioned the timing of a study which would apply to the present conditions which are determined by the physical facilities. Prof. Willard indicated that such a study should be directed toward recommendations for future facilities. Prof. Rolston again

./.

questioned the timing - whether it would be more effective after space allocation for the future is made. He suggested a friendly amendment to read "as soon as space allocation for the future is made". The amendment was accepted by the proposer and the seconder. Prof. Harrington questioned who would conduct such a study. Prof. McLean moved to table the motion definitely to the next meeting. Seconded by Prof. Rolston. Motion carried.

Building Plans. The Library Committee is expected to make a report to the Space Disposition Committee on which Prof. Clipper and Prof. Tull serve. The Library Sub-Committee will meet to prepare a building-needs report for the Committee.

The meeting was adjourned at 11:00 A.M.

Respectfully submitted,

Donna B. Harlan
