#### New Safeguards for Personal/Financial Information

It's important to protect your personal and financial information. That's why IU is using Duo two-factor authentication to increase the security on the systems where you access that information.

- [Duo Authentication](#) increases the security of your information and reduces the risk of unauthorized access to your information from phishing scams.
- Duo Authentication requires a second authentication step after you log in via CAS. This is done through a mobile application (the recommended method), text message, or phone call.

Members of the IU community must now use this process in order to view or change personal or financial information in IU systems, including W-2 tax forms and information related to payroll, direct deposit, and bursar statements.

Find out more about [enrolling in Duo Authentication](#) or [watch this video](#). Please contact the [UITS Support Center](#) or your departmental IT staff for further assistance.
