

Curriculum Committee Minutes Sep 12, 2006

Present: Kris Dhawale, Bob Ramsey, Greg Weber, Roberta Roswell, Walter Scott, Mary Ann Morse

I. Minutes

The minutes of the April 11 meeting were approved.

II. Tasks

General education requirements will become our top priority once we receive them officially from Academic Affairs Council.

Education will be revising the Elementary Education programs.

Priorities for non-routine work (1 = highest):

1. Combined graduate/undergraduate course policy
2. General education requirements
3. Guidelines for distributed education courses

III. INFO I101

This is a new course from the Master Course Inventory.

Bob commented that the course would provide something for students who are beyond A110.

The ECAP form and syllabus are adequate and will be recommended for the next Senate agenda.

IV. Combined graduate/undergraduate course policy

There was some discussion over whether "significantly more work" should be quantified. The committee members agreed that attempts at quantification would probably turn out to be inappropriate for some courses, because each course has different kinds of requirements.

Mary Ann moved to approved the draft policy. Kris seconded. Motion passed unanimously.

V. Requirements for syllabus submitted with ECAP form

Greg will revise the draft and bring it to the next meeting.
